"INDUSTRIAL PREPAREDNESS"
 If a stone wall were built around this country—it is not entirely cut
 off from intercourse with the rest of the world—the people resident in this
 favored section would probably find their needs more nearly supplied than
 if they dwelt in any other locality of the world. We have cheap power, fuel
 supplies, ideal climatic conditions, unsurpassed transportation, splendid liv-
 ing conditions and varied raw material resources—more so than almost any
 section.
 Now, no one wants to build a wall around this city and decree that all of
 our trading should be done at home. It would be foolish even if possible.
 We must sell to all the world and so must buy more or less in other mar-
 kets. We cannot claim that our city is altogether sufficient unto itself.
 But when the home market can do as well for home buyers as any other
 market no one can blame us for patronizing our own. And this doctrine
 applies to all communities, large or small.
 By spending our money for home made goods we not only help our in-
 dustries increase their efficiency, lower their costs, enlarge their volume,
 give work to our working people, but we help our own situations, and plant
 possibilities for the future of the thousands of young people whose schools are
 training.
 We can best prepare for our future industrial security and growth by
 buying and boosting home products.

THE TONIC THAT BRINGS HEALTH

"Fruit-a-Lives" Builds Up The Whole System.

Those who take "Fruit-a-Lives" for the first time, are often astonished at the way it builds them up and makes them feel better all over. They may be taking "Fruit-a-Lives" for some specific disease, as Constipation, Indigestion, Chronic Headaches or Neuritis, Kidney or Bladder Trouble, Rheumatism or Pain in the Back, And they find when "Fruit-a-Lives" has cured the disease, that they feel better and stronger in every way. This is due to the wonderful tonic properties of these famous tablets, made from fruit juices.
