The roads here, which are now hard and passable for automobiles, are very rough, having had nothing at all done to smooth them down. Matters seem to be going from bad to worse in this parish at least. This year, instead of one supervisor for the parish, there are three, each provided with a split log drag and yet as stated above, nothing is being done at all to make the roads comfortable to drive over.

Mr. and Mrs. E. W. Hayes, who have just recently moved into their new home here, came very near losing their house by fire on Friday afternoon. One unfortunate incident of the occurrence was that Mrs. Mayfield Goddard, who with her husband, occupy rooms in the house, was lying very critically ill, recovering from an operation and received quite a scare. Mrs. Goddard's room was directly under the blaze and as the water was poured on the fire it came down in gallons right through the ceiling. While other teams have had their business meetings and organized for the season, nothing as yet has been done here. There are some good ball players here and all that is needed is a good leader to get them together. Will someone step up and take the job?

Reforming the Bath.

Paris, May 15.—Esthetic surroundings for one's morning bath to replace glaring white tiles is the moral innovation launched here by Paul Potret, world noted fashion designer.
