

**REPORT OF THE "REVIEW" COMMITTEE,
FOR THE YEAR 1992.**

YOUR Committee report that during the year their work has been of a very pleasant nature, notwithstanding the fact that it has been entirely new to us.

Very little difficulty has been experienced in securing suitable material for each month's edition, but we express disappointment that outside the regular correspondents for the different organizations, very few have sent in communications, or selected articles to be used. Of those sent in we are glad to report that they have been such that no rejection, and comparatively little revision has been necessary. While your committee has done the best their time and circumstances permitted, yet we feel that it has not come up to our idea of what such a paper should be, and we hope that if it is continued during the present year others may be found with more leisure to devote to this important work.

All of which is respectfully submitted.
