## OLD ENGLISH RECIPE FOR CA-TARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear which frequently means total deafness, or else the disease may be driven down the air passages to wards the lungs, which is equally as dangerous. The following formula which is used extensively in the damp English climate is a constitutional treatment and should prove especially efficacious to sufferers here who live under more favorable climate condipartment of Lands and Forests Is Badly in Need of a Thorough Overhauling-Lively Discussion Over Tim-

Hartley Dewart Declares Liberals Feel That Provincial De-

BE SUBJECT OF INVESTIGATION

SHORTAGES IN RETURNS SHOULD

The commission further claimed that the province had lost a million dollars as a result. With that finding of the commission respecting operation of the Doyle rule, I entirely disagree."

Mr. McCrea said they wanted this report for the purpose of enlightening the House and the public as to what was a fair overfun under the Doyle rule. He pointed out that on June 23 an order-in-council was passed by the Government appointing G. C. Burdman of Ottawa for a period of three months to act as special agent for the departments of lands and forests. It was present in the Government's mind, contended the member for Sudbury, that there was necessity for testing the evidence which was being submitted before the crown lands investigating commission as to overrun and they appointed Mr. Burdman for that purpose.

Destroy the Reports.

The figures based on the overrun tests made by Mr. Burdman, said Mr. McCrea, undermine and destroy the reports made by the timber commissioners. Was it fair that these two

Comes to you and the children if you have Dr. Pierce's Golden Medical Discovery in the house. For "little-ones" and "grown-ups" this old fashioned vegetable tonic and blood-maker is still used by the million bottles every year. Make your blood better and your health better by going to your nearest druggist and obtaining Dr. Pierce's Golden Medical Discovery in tablet or liquid form.

A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. No one suffers from colds or catarrh

A healthy stomach turns the food we eat into nourishment for the blood stream and the nerves. No one suffers from colds or catarrh who has plenty of red blood corpuscles and good digestion. Catarrh in all its forms is a stagnation of the blood. Introduce pure, redder blood into the system, and health is assured. Dr. Pierce, over fifty years ago, gave to the public this alterative and blood tonic which he named his "Golden Medical Discovery." It is sold by all druggists the world over in tablets or liquid, and is just the thing to put the body in the best of condition. It is a tonic, alterative and nervine, which contains no alcohol, and has the ingredients printed on the label. "Golden Medical Discovery" assists the digestive functions, assimilating the food and taking from it what is necessary for feeding the blood. Thus the blood takes on a new vigor and vitality. This

Farmers' Sun, stating that a U. F. O. Include in Lambton County had passed a resolution to the effect that the U. F. O. members in the Government had failed to keep their election pledges and should resign. Mr. Tolmie asked whether the Government, in whose platform the recall was a plank, intended to act on the suggestion as a body or whether the two members for Lambton, L. W. Oke and J. M. Webster, were going to resign. corrective remedy nature put in the forest for keeping us healthy. One feels strong, vigorous and full of "pep," instead of weak nervous and "played out." Send 10c for trial pkg. of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., or Branch Laboratory in Bridgeburg, ton, L. W. Oke and J. M. Webster, were going to resign.

Premier Drury replied: "We'd like to resign on account of the company we're keeping, but we feel that the public interest forbids such action being taken at the present time."

This blank, properly filled out and attached to chart above, with your chain of circles across it, must be sent in with your remittance. If you secure any new subscribers each one must submit a blank separate from yours. If a new subscriber does not wish to participate in the contest he may note across the face of the chart, "No Solution."

### BLANK FOR SOLUTION DATA AND SUBSCRIPTION. Date Submitted......1921. TO THE LONDON ADVERTISER: I herewith inclose \$...... for subscription, and submit the following as my solution of your Total of Odd Numbers ...... Total of Even Numbers ...... Difference ...... Have you sent in any other solution prior to this one?.... (Yes or No) If this blank is used by a subscriber who has been interested by a contestant, write in the name and ess of the contestant who interested you. You have the same privilege of participating in the contest as the stant who interested you in subscribing. The name of the person who interested me is: Name ..... Address ..... (Street and Number) NOTE.—Contestants desiring the paper sent to somebody else should merely attach a note to this blank giving name and address of persons they wish the paper sent to. Any subscriber whose name or address is not correct on the label of his paper will please fill in this blank as it should be and attach note to blank, giving name and address as it is now printed on his label.

## THE PROBLEM

The problem is to draw a chain of circles once across the chart, from the first column on the left to the last column on the right, selecting the figures to encircle from which you can obtain the greatest difference between the sum total of the even and the sum total of the odd figures. The odd figures are 3, 5, 7 and 9, and the even, 2, 4, 6, 3. By "sum total" is meant the figures added together. That is, you are to take the odd figures you put circles around, and add them up; then the even figures, and the difference between the two totals is your solution. It makes no difference which of the two sum totals is the larger; the greatest difference you can obtain either way is what counts.

The chain must be drawn in continuous sections of

tain either way is what counts

The chain must be drawn in continuous sections of either three, four or five circles to a section. By "section" is meant three, four or five circles in a straight line. You may use either number of circles you wish in each section. The sections of the chain may go either up or down, or to the right, but not to the left. That is, start in the first column by drawing either three, four or five circles up or down, as you wish; then proceed to the right, then up or down again; then to the right, and so on until you reach the last column. The chain must end with either three, four or five circles in this column.

In determining the number, of circles in each section count the last circle in one section as the first in the next. The figures in the corner circles, however, are to be counted but once when adding them up to get the totals of the odd and even figures. You may start at any figure you wish in the extreme left-hand column, There must be one section running up or down in this column as well as in the last column.

Contestants should try all the combinations they Contestants should try all the combinations they can to see what is the greatest difference they can obtain between the sum total of the odd figures and the sum total of the even, or vice-versa. The prizes will be awarded for the greatest differences submitted, without regard to what the greatest possible difference that can be obtained may be. Only the figures you put circles around are to be considered. The following illustration will furnish a general idea for drawing your chain of circles. The illustration consists of double figures, such as 46, 69, 75, and so on, but the puzzle contains only single figures from 2 to 9. Hence the differences will be comparatively much smaller and the sum totals easier to obtain.

## ILLUSTRATION

The accompanying illustration explains what a chain of circles is The first section, it will be noted, consists of four circles; the second, three; the third, three, and so on. The sum total of the even numbers, viz., 46, 58, 92, etc., is 750, and the sum total of the odd numbers, viz., 69, 75, 83, etc., 892. The difference between these totals is 142.
