SLAND, B. C.

ROSSLAND WEEKLY MINER.

Two Dollars a Year.

ROSSLAND, B. C., THURSDAY, FEBRUARY 3, 1898.

Third Year, Number 47

It Has a Promising Property in Cariboo Creek Camp.

WIDE VEIN OF RICH ORE

The Vein Matter Averages \$40 Per why work should ever again stop on the

pany yesterday afternoon when a representative of The Miner arrived on the scene. By standing on tiptoe and peering over those who stood in front of him he saw that the cause of the gathering was a 250 pound lump of ore in the window. It was so handsome and rich looking that The Miner man did not wonder that it was made the object of admiring attention. "It is a fine look
The Silver Queen Mining company as Provincial Mineralogist under the gathering government, is about to resign his position to accept that of general superintended by Mr. Justice Walkem Another property that is going to be a shipper this year from the head of Slocan der being made to have the Centre Star der being made to have the Centre Star tion to accept that of general superintended by Mr. Justice Walkem Another property that is going to be a shipper this year from the head of Slocan tion to accept that of general superintenders of the shaft so that evidence may be obtained in the literature of the bottom of the shaft so their new claim, the Squealing der being made to have the Centre Star tion to accept that of general superintenders of the stability of that place.

Another property that is going to be a shipper this year from the head of Slocan tion to accept that of general superintenders of the shaft so their new claim, the Squealing der being made to have the Centre Star tion to accept that of general superintenders of the stability of that place.

Another property that is going to be a shipper this year from the head of Slocan tion to accept that of general superintenders of the stability of admiring attention. "It is a fine looking piece of ore," said one man. "It The officers of the company are as fol-sation, and naturally enough, is highly body," ejuculated another, and so the favorable comments went on. The president, C. C. Woodhouse, Jr., M. E.; man went into the office for the manager. Edward C. Finch: MINER man went into the office for the general manager, Edward C. Finch; Carlyle to the government will be made A certificate of improvements has been purpose of learning if this was a sample general manager, Loo H. Schmidt: the property of the Silver Queen Mining company. He found Edward C. Finch, the genial manager of the company, in, and by him was shown about 1,000 pounds of smaller pieces of the same ore, which was strongly mineralized and un-

nsually rich looking. "Is that large piece in the window that the crowd is looking at, ore from the recent strike that was made on the Silver Queen?" Mr. Finch was asked. immense deposit of it. We have over quited the Gladstone group of the British American corporation of the present face of the tunnel, and the entire tunnel for a considerable distance back is in ore of the same character. Crosscuts to the left from our footwall, along which we are drifting, encounter the hanging wall at a distance of about 14 feet, which indicates the width of our ore body. Our walls are of diabase and greenstone, are well defined and are themselves highly impregnated with mineral. The course of the ledge is
