Chippers,
Chip Screens,
Flat Screens,
Grinders,
Wet Machines,
Sulphur Burners,
Tanks and Bins.

We Build Them

Keep Your Logs Moving

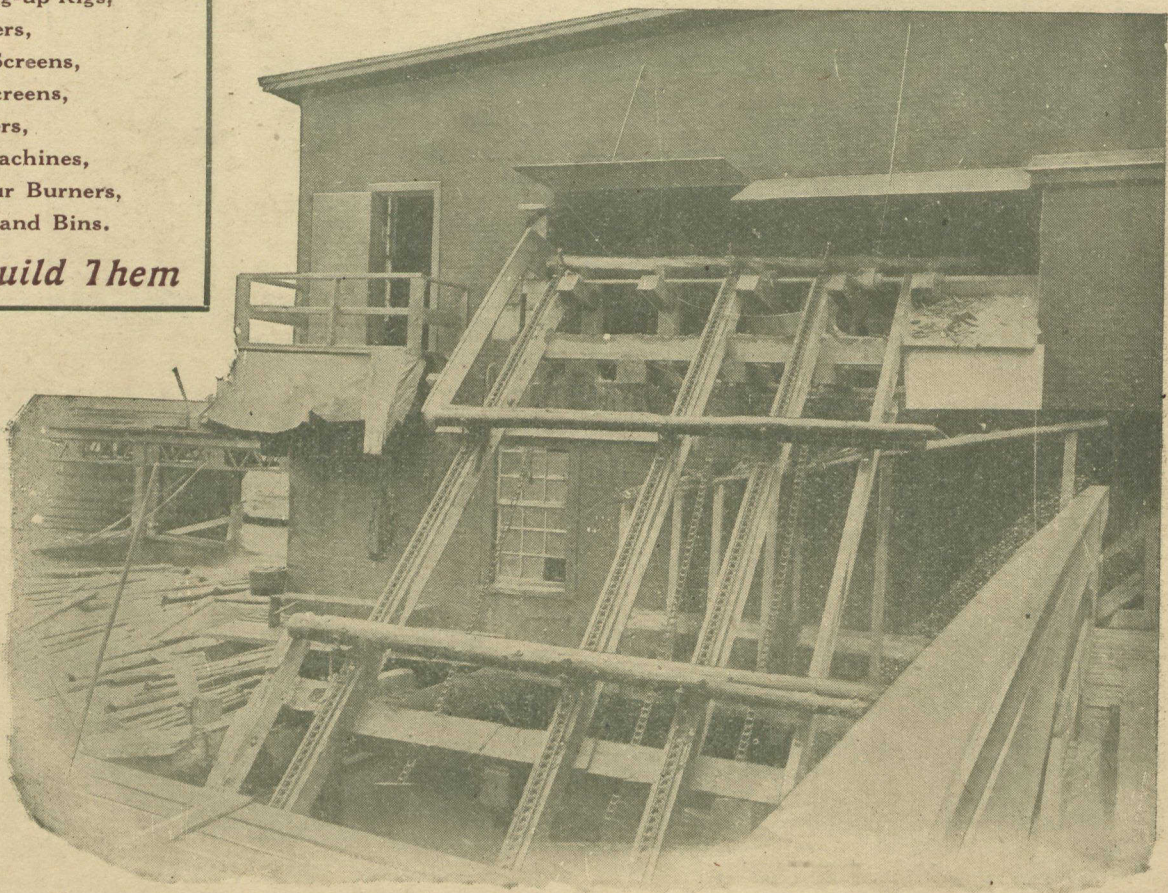

The proper, efficient handling of your logs—in and out of storage, and through the machines—is one of the biggest factors in speeding up mill production.

We build

Log Haul-ups, Storage Conveyors, Pulpwood Stackers, Barked Wood Conveyors

that are designed to cut the time and cost of log transportation. And they do.

Turned out in styles and sizes to fit every special condition. Thirty years experience building conveying systems for some of the fastest operating mills in Canada is behind them.
