

TWO HUNDRED BAs. ONE HAS INDUSTRY-RECOGNIZED COMPUTER SKILLS. WHO HAS A COMPETITIVE ADVANTAGE?

The intensely competitive job market for entry level positions in the 1990's may mean that some people will face the harsh reality of underemployment. Of having to accept employment that does not fully challenge them or lead to maximum rewards. This is especially true for Arts and Sciences graduates in non-technical disciplines.

Differentiate yourself by being computer competent.

The workplace is becoming highly automated and the graduates with computer proficiency will have the best career opportunities. You can give yourself a competitive advantage with computer training that is industry-oriented and internationally recognized by the computer profession.

The training you need in business computers is available now.

Obtain marketable skills in a short period of time with ACI's Diploma in Applied Computer Technology. ACI's intensive diploma program in computer programming and systems analysis is the only program in Atlantic Canada that prepares you to sit for the Associate Computer Professional (ACP) examination, administered internationally by the INSTITUTE FOR CERTIFICATION OF COMPUTER PROFESSIONALS (ICCP).

Add value to your degree with a professional computer designation in less than a year.*

Master the personal computer at an advanced level. The ACI program will teach you through small classes, personal instruction and intensive labs. You will learn to be an expert in microcomputer applications like word processing, spreadsheets, database and computerized accounting systems. You will learn to write computer programs for mini and mainframe computers in COBOL or "C". You will learn modern software engineering methods for Systems Analysis, Design, Testing, Maintenance and Project

Management. And the curriculum includes an 8 week internship in industry. **Computer training for the 1990's begins June, 1989.**

Classes start in March, June and September. Full time students are eligible for financial aid. Foreign Students welcome.

Why is the ICCP certification important?

ICCP is the internationally-recognized leader for certification in the computer information processing industry. More than 40,000 professionals have already been certified by the ICCP.

The ICCP is governed by the following international associations and bodies.

- ACM, Association for Computing Machinery
- ADAPSO, The Computer Software and Services Industry Association
- AICCP, Association of the ICCP
- AIM, Association for Information Management
- AISP, Association of Information Systems Professionals
- ASM, Association for Systems Management
- AWC, Association for Women in Computing
- CIPS, Canadian Information Processing Society
- COMMON, An IBM Computer Users Group
- DPMA, Data Processing Management Association
- HKCS, Hong Kong Computer Society
- IACE, International Association for Computing in Education
- ICCA, Independent Computer Consultants Association
- IEEE-CS, Computer Society of the Institute of Electrical and Electronics Engineers

Your ASSOCIATE COMPUTER PROFESSIONAL (ACP) designation is recognized by employers and means that, in addition to your other qualifications, you possess marketable computer skills.

Make your career move.

The Atlantic Computer Institute has successfully trained people in computer skills for the work place since 1984. Enrollment is limited. Call or write us today.

*** Effective June, 1989, ACI offers the choice of full time enrollment or completing the course over 3 Summer School sessions.**
