DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Is nature's specific for all Bowel Complaints; always reliable as a cure for Cholera, Cholera Morbus, Colic, Cholera Infantum, Diarrhoea, Dysentery, and all Fluxes and Summer Complaints of Children or Adults.

This purely Vegetable Remedy combines the healing, cooling, soothing, astringent, antiseptic and tonic properties of the Wild Strawberry Plant, with other cleansing and healing herbs, whose action is safe and effectual to remedy all fluxes of whatever nature, and from whatever cause arising; forming the most safe, pleasant and effectual cure known for Cholera, Cholera Morbus, Dysentery, Diarrhoea, Colic, Cramp, Canker of the Stomach and Bowels, Nausea, Sea Sickness, Piles, Leucorrhoea, and all diseases of the Mucous surface of the Stomach, Bowels, etc. Free from Opiates or hurtful drugs—it is safe alike for Infant or Adult. For Cholera Infantum and the disturbed condition of the system of children teething, it is peculiarly adapted.

It has stood the test for over thirty years, and more popular and better appreciated now than ever, giving universal satisfaction wherever fairly tested.

NOTE THIS.—The proprietors will gladly furnish names and testimonials of of cures to the satisfaction of any applicant.

SUMMER COMPLAINTS.

The most prevalent and dangerous diseases incident to summer and early fall are Cholera Morbus, Cholera Infantum, Diarrhoea, Dysentery, Colic, and bilious attacks, that occur suddenly, and are often suddenly fatal. Cholera is now supposed to be caused by a specific microscopic germ; hence the use of disinfectants and great cleanliness should be observed. Cholera Morbus and Canadian Cholera are modified forms of Asiatic Cholera, with many symptoms in common, such as purging, cramps, and collapse. Nearly all summer complaints are due to bad blood and unhealthy bile, and are excited by improper diet, bad air and water, colds, unripe fruit, fermenting food, and anything that will induce an excess of biliary symptoms. Some forms of bowel complaint are very painful; where there is painless diarrhoea it is often dangerous, being due to a weak and watery

state of the blood. These complaints are often attended by nausea and vomiting. Never neglect what seems but a simple diarrhoea; but beware of preparations containing opiates and powerful astringents. Never check the discharges too suddenly, lest inflammation be induced. The offending bile and bad matter must escape, and mild antibilious laxatives will often aid nature in the work. In the absence of a physician, for any of the above named diseases, use our Dr. Fowler's Extract of Wild Strawberry according to directions, and our Haggard's Pain Remedy, applied externally with the aid of hot packs, fomentations, and the sweating process. Dr. Fowler's Extract of Wild Strawberry is Nature's specific for all forms of bowel complaints. Diet.—Dry toast, ground parched rice, barley water, gruel, or Irish Moss jelly, are proper articles of diet in bowel complaints. Slippery elm tea should be used in place of water for thirst. Injections of starch with a dozen drops of laudanum are serviceable after the passages are cleansed. Rest from all kind of labour should be observed in all fluxes of the Bowels.

There is no other remedy on earth so safe, reliable, natural, and effective, to cure all summer complaints. It is nature's specific for Cholera Morbus, valuable alike for infants or adults. Travellers and families should never be without it., Price 35 cents.

CHOLERA INFANTUM CURED.

TORONTO, September 18th, 1885.

GENTS,—My little baby, three months old, was during this summer attacked with severe summer complaint. Under the doctor's treatment no improvement was made, in fact she became worse rapidly, until her life was despaired of; as a last resort we tried Dr. Fowler's Extract of Wild Strawberry, which some neighbors highly recommended. The effect was magical—four doses of 10 drops each were given, resulting in perfect recovery.

The child is now in vigorous health, fat and hearty.

Yours respectively,
JAS. BINNIS.

SUMMER COMPLAINT.

TWEED, ONT., Aug. 26th, 1885.

This is to certify that I have taken Dr. Fowler's Extract of Wild Strawberry with great benefit. I am subject to chills, cramps and pain in my stomach, especially when drinking much cold water; also for diarrhoea. One bottle entirely curing me of the worst attack and preventing further trouble.

A. McDONALD, Postmaster.
Mountain Grove, Ont.
