

How One Register Does the Work with the

Pilot Superior Pipeless Furnace

The Pilot Superior Combination Register is composed of two sections; the central portion provides for a distribution of the warm air generated by the furnace, and the outer section admits the return air to the furnace. By withdrawing the cool air from the building through this outer section, the resistance to the warm air is overcome. This provides space for the rapidly expanding warm air, which circulates in large volume to all portions of the building. A vacuum cannot be created, therefore the warm air fills all the corners from which the cold air is being withdrawn.

ever hope to successfully reach a high
standard of quality in our live stock.

Advertising has a great influence in
bringing to the public the desirability of
using a certain article. Farmers have
been led to use all modern equipment
through advertising. Trucks and motor
cars have been sold to Ontario farmers
through first putting on a vigorous
advertising campaign. Victory bonds
were sold, to a great extent, by the
judicious use of advertising, followed up
by a personal campaign. So that we feel
the use of better sires can be speeded up
by advertising, together with personal
soliciting on the part of breeders and
others who have the interests of the live
stock industry at heart.

No set plan can be formulated to meet
the needs of the Province, but every
county and township can benefit by
trying out suggestions that have been
found helpful in other localities.

The main thing, however, that we
must have is a harmonious co-operation
on the part of Government officials,
breeders and breed associations and
farmers' clubs, in order that the greatest
action may be attained by concentration
of effort.

Get out and boost for better live stock
in your own locality. A little work in the
interests of good live stock will do more
to dispel pessimism than any other thing.
Active participation is what is wanted in
the ranks of the fighters against the
inferior bulls.

Do not wait for an invitation to go
out and get next to some farmer who
persists in harboring a poor bull. Go out
and show him that he can make more
money by using a pure-bred bull of good
type.

The men at the head of this movement
are sadly in need of co-workers. They
need every man in the Province to assist
them, provided he knows the value of
breeding good quality live stock.

Breeders of pure-bred cattle will find
it to their own interest to sell their good
bulls to beginners. It has been the
experience of many men that once they
get a good pure-bred bull and find out
the improvement in the calves, they
invariably buy a few pure-bred females.
Thus, it would seem that a breeder can
enlarge his home market by a little home
missionary work.

Now, what are you going to do? Are
you going to get out with the workers
and work, or sit on the fence and croak
about the difficulties of the campaign?
The success of the campaign lies in the
hands of those who profess to know the
value of good live stock.

Questions and Answers.

Miscellaneous.

Salmon Berry.

What is the name of enclosed plant?
The plant grows about two feet high.
G. G.

Ans.—The plant is popularly known as
Salmon Berry, *Rubus parviflorus*,—in
some botanists called *Rubus nutkanus*,—a
species of raspberry with a scarcely
edible fruit. J. D.

Fences.

1. A's land adjoins the Agricultural
Societies' ground (Fair Grounds). The
fence between two properties needs re-
placed with a new one.

1. Does A have to build and bear
cost of half of said fence.

2. If not does Agricultural Society
have to bear entire cost or can a grant
be gotten from Government. A. S. R.

Ans.—The fair grounds should bear
half the expense of building the fence.
This would come out of the general
expense of the Agricultural Society.
We do not know that the Government
gives a grant for this work.

Cleaning Hat.—Raspberry Bushes.

1. What will clean a Panama hat?
2. When should raspberry canes be
set out? M. K.

Ans.—1. Clean Panama or straw
hats by rubbing well with damp corn-
meal. Let dry, then brush off. If the
Panama hat is very badly soiled, scrub
with Ivory soap and water, using a brush;
then rinse well through two or three
waters, adding a spoonful of glycerine
to the last one to prevent stiffening.
Dry in hot, bright sunshine, which will
bleach.

2. The spring is the best time al-
though if the fall is not too dry they
may be set in September.

THE DE LAVAL MILKER

—the only Milker
with pulsator close
to udder.

Among the
many new
and exclu-

sive advantages in the construction of the De Laval
Milker, particular attention is called to the Udder
Pulsator and the teat-cups.

The Udder Pulsator is located within a few inches of the
cow's udder, which insures positive and snappy action in the
teat-cups. The action is uniform, gentle and pleasing to the
cow. The only moving part in the pulsator is a small, plain
piston which requires no oiling, adjusting or repairing.

The De Laval teat-cups are self-adjusting and made in one
size only, which fits all teats. The construction is so simple
that they can be easily taken apart, cleaned and put together.
Every other part of the De Laval Milker is equally simple,
practical and efficient.

THE NAME "DE LAVAL" IS INSURANCE OF SATISFACTION

THE DE LAVAL COMPANY, Ltd.

Montreal Peterboro Winnipeg Edmonton Vancouver

Hamilton House Holstein Sires

Our young bulls of serviceable age have all been sold but we have a number of the
best young calves we have ever bred. All are from dams with good combination
records for both milk and butter. Several are up to 700 lbs. of milk and 81 lbs. of
butter for 7 days. If you are interested in a good calf, write or see them now—they
can be purchased at considerably less than we will be pricing them next winter.

Hospital for the Insane, Hamilton, Ont.

HOLSTEIN BULLS ONLY FOR SALE

Senior sire is from one of the best sons of King Segis Alcartra Spofford. Junior is grandson
of the noted May Echo Sylvia, by Champion Echo Sylvia Pontiac.

Write to the Superintendent for prices, etc.

HOLSTEIN BULLS FROM 30-lb. DAMS

If you want 30-lb. bulls—good individuals—and priced right—you should see my present offering. I
also have lower priced bulls, and am offering females bred to Ormsby Jane Burke. Correspondence
solicited.

R. M. HOLBY, Manchester G.T.R., Myrtle C.P.R., PORT PERRY, ONT.

Cloverlea Dairy Farms—Herd headed by King Pontiac Rauwerd, who combines
the blood of Canada's greatest sires and dams. His off-
spring are a choice lot. We have stock for sale, both male and female, 75 head to choose from.
Consult us before buying elsewhere. Could book a few more cows for service to "King."

GRIESEBACH BROS., L.-D. 'phone, Collingwood, Ont.

"Premier" Holstein Bulls ready for service—I have several young bulls from dams with
7-day records up to 32.66 lbs. of butter, 755.9 lbs. of milk, with
110 lbs. of milk in one day—over 3,000 lbs. in 30 days. All are sired by present herd sire, which is
a brother to May Echo Sylvia. Step lively if you want these calves.

H. H. BAILEY, Oak Park Farm, Paris, Ont.

WALNUT GROVE HOLSTEINS

I am offering a choice lot of bull calves sired by May Echo Champion, who is a full brother of world's
champion, May Echo Sylvia; also a few cows just fresh.

(Take Radial Car from Toronto to Thornhill). **C. R. JAMES, Richmond Hill, R.R. No. 1, Ont.**

Sylvius Walker Raymondale is the sire of the majority of our young bulls
now listed. If you see these calves you will
appreciate them. Their dams are mostly daughters of King Segis Pontiac Duplicate. Don't delay
if you want a good bull at a right price. We are also offering females.

R. W. WALKER & SONS, Port Perry, Ont.

Elderslie Holstein-Friesians—Am all sold out of heifers, just have three bul-
calves left, from four to six months old. They
are sired by Judge Hengerveld De Kol 8th, a 32.92-lb. bull. The dam of one is a 20,225-lb. cow.
Write for prices and come and see them.

ARCHIE MUIR, Elderslie Farm, Searboro' P.O., Ont.

Cedar Brook Farm Holsteins—(Farm one-half mile from Inglewood Station, C.P.R., G.T.R.)—
We are offering two young sons of Highland Pontiac Sylvia (his
two nearest dams average 36.51 lbs. of butter, 786.4 lbs. of milk), a son of Avondale Pontiac Echo—
the \$50,000 son of May Echo Sylvia. We guarantee these calves, and we are going to sell them quick.
Write, or call and see them—don't delay.

CEDAR BROOK FARM (B. Misener, Manager) Inglewood, Ont.
