## IDEAL FENCE

**WHEN YOU FENCE, FENCE FOR GOOD.**

A good fence adds its price to the value of the land. A poor fence soon becomes unsightly and worthless. The job must be done over again. You must go to all of the expense of erecting a fence again. This costs lots of money in time and labor; it means piling expense on top of expense. It pays to do the job right in the first place. Put up the Ideal woven wire fence as shown above, and you will have done with that piece of fencing for many years. It's not going to rust out in a few years because it is heavily galvanized and it always looks well. It stands up. It holds its shape perfectly on any surface, hilly or level. There is a reason for this, and the reason is that Ideal Fence has the weight. It's all made of No. 9 hard steel wire, and has the famous Ideal lock at every wire crossing. Slipping wires are impossible with this lock. Any strain or pressure is distributed and borne by all of the wires. That means strength. There is not a domestic animal living that can go through or over it. And there is no trouble about hot or cold weather. It adjusts itself to all temperatures. If you cannot be sure of these things, investigate. Let us send you a book giving all details about Ideal fence. It is free; write for it.
