More Facts About McClary's "Sunshine" Furnace

-The Understudy of the Sun-

There's no dust nuisance about the "Sunshine"—when you rock down the ashes the dust is drawn up dust-flue then directly across to smoke-pipe where it belongs. Look at the illustration and remember to open both "Dust" and "Direct Draft" dampers—these simple devices make the "Sunshine" the cleanest furnace for the home.

See the famous "cup joints" here—the frame of the ash pit—the two sections of the fire-pot and the dome all jointed together by our "cup joint."

There's a layer of asbestos cement in each joint—this unites all sections in a permanent way, yet leaves room for the expansion and contraction of the metal.

No wonder that this "Understudy of the Sun" is called the "Sunshine" furnace— Since it diffuses pure warm June air throughout the house.

You don't have to wear overalls when attending to the "Sunshine" furnace—It has a big roomy ash-pan. All the ashes are guided directly into the pan by ash-chutes. A minute or two performs the job. Yes, the "Sunshine" is the clean

The "Sunshine" Furnace burns either wood or coal. Coke, too, if you prefer it. The "Sunshine" distributes a greater

percentage of heat units—the Baffle plates (a new McClary device) decidedly increase the heating efficiency of the furnace. But—see the McClary agent of your locality. Ask him to show you all the Joint features and exclusive devices which make the "Sunshine" Furnace worthy of

the name—The Understudy of the Sun. If you do not know the McClary Agent, write us at our nearest address and

YOUNG, P.D.F., 258 Lymans Bldg., Montreal, Ca

The Scottish Former points out that Clydesdale men are not eager to exhibit at Olympia, even though it will cost them nothing. They say they don't need want to on merit alone.

Bickmore's Farm Account Book will be sent free to any farmer who will tell us who and where he is. This book is arranged to keep all accounts in simple form—more simple and certainly more practical than trying to remember them; shows what to charge against crop production; has a laborers' time record; and section for personal accounts. 64 pages, for ink or pencil. Not a cheap affair. Its quality is in keeping with BICK MORE'S GALL CURE, a soothing, healing salve, the old time reliable hors: remedy. Horses are now too valuable and too him.

priced to take chances of losing their services. Bicknown's Gall Cure heals and cures Harness and to high priced to take chances of losing their services. Bicknown's Gall Cure heals and cures Harness and Saddle Galla; Rope Burn, Cuta, Seratchea, Grease Heel, etc. You don't have to lay the horse off. Bickmore's cures while the horse works. Great thing for sore teats in cows. The work-horse trademark on every box. None genuine without it. Look for it when you go to buy and do not take a substitute. Farm account book is ready. No obligation. Send today.

WINGATE CHEMICAL CO., Canadian Distr's, 880 Notre Dame St. W., Montreal, Can.

Ormsby Grange Stock Farm Ormstown, P. Que.

Now on hand: From A. & W. Montgomery, "Fyvie Time," 2-year-old stallion by Baron Beaulieu, the making of a very high-class sire; 3-year-old filly by Memento (extra). 1st.-Questions asked by bona-fide subscribers "The Farmer's Advocate" are answered

to "The Farmer's Advocate" are answered in this department free.
2nd.—Questions should be clearly stated and plainly written, on one side of the paper only, and must be accompanied by the full name and address of the writer.
3rd.—In Veterinary questions the symptoms especially must be fully and clearly stated, otherwise satisfactory replies cannot be given.
4th.—When a reply by mail is required to urgent veterinary or legal enquiries, \$1.00 must be enclosed.

Miscellaneous.

DRY BATTERIES AND COLD.

Have a gasoline engine to do pumping. The building is not frost-proof.

1. Is there anything that I can use in place of dry batteries so that I will not have to take them to the house when not in use?

2. How many degrees of frost will dry batteries stand before they will freeze? 3. Are there any batteries made that will not freeze? W. E.

Ans.-I have never known of dry batteries freezing, or of any precautions being necessary along this line. As a matter of fact, dry batteries deteriorate more rapidly in a warm temperature than in a cool one. I know of a motor-boa which was stored last fall with the batteries in it, which were subject to all the extreme frost of last winter, and when started up this spring the engine went right off, using the old batteries. W. H. I).

GOSSIP. A peculiar case of a mare adopting a calf is reported in the Scottish Farmer. Alexander Kennedy, East Barneigh, Bridge of Weir, has had a somewhat peculiar experience with his Clydesdale mare, Lightsome Lass. She foaled a few days ago, but unfortunately the youngster died, and Mr. Kennedy advertised for a foal. He secured one, but in the meantime the mare had taken kindly to the ministrations of a calf, and she refused to welcome the foal when it was presented to her.

SHIRES AND SHORTHORNS AT BATH

The Live-stock Journal, commenting upon the Bath and West Show, held at Bath, said: "The magnificent entry of 2,051, exclusive of those taking part in the competitions, rendered the annual show of the Bath and West and Southern Counties, which opened at Bath on Wednesday memorable amongst meetings of this old-fashioned organization. The display of stock was in every way worthy cosion many of the breeds appearing in greater force than is often the case, and competition in almost all departments being exceptionally keen."

Seldom, if ever, have Shire horses mustered at this show in larger numbers, and the merit was of a very high order. A. J. Wythes got first in aged stallion class on Southery Harold, a five-year-old bay by Ashwell Capstone. Victor King, by Normoor Forest King, took first in twoyear-olds for Sir E. Stern, while Lord Rothschild's Rickford Carbon, by King Cole, was the best yearling.

W. & H. Whitley had the best aged brood mare in Mollington Movement. The special prize for fillies was won by E. H. Buncombe, on Day Star, by Colwich Blend, and for stallions T. Dibble's King Cole VII., yearling. The gold medal for the best mare or filly was won by Lord Rothschild's Halstead's Duchess

The Shorthorn section contained some seventy-three entries, but the pure-bred dairy classes were not up to the mark. Lord Rothschild's Sunflower 11th won first in the milking class for five-yearolds. The open cow class was headed by G. A. J. Bell's Ceres 23rd. Threeyear-old heifers were headed by F. Miller's Augusta 125th, and two-year-olds by Lady Grantley's Village Lass, by Village Beau. Hampton Sweetheart, by Duke of Hampton, scored in the yearling class for J. T. Hobbs.

Aged bulls were headed by Pretender, Viscount Tredegar's former champion. who was made champion again. Mr. Willer's Man o' War was first in a strong class of two-year-olds, and the same man received first in the yearling class with
