WOMEN WILL VOTE
Chicago, Nov. 6.—Although the presidential state congressional and local campaigns were practically closed Saturday night, leaders and candidates of the various parties spent today for the most part in perfecting organization in the wards and precincts. No statements were available from the chairman of either the Republican or Democratic state committees today, those leaders apparently being content with the messages they had issued previously claiming the state will cast its vote for their respective candidates for president by practically the same plurality—150,000.

The Republican chairman also claim that Frank O. Lowden will be chosen governor by 150,000 plurality, while the Democratic chairman put forth the claim that Governor Edward F. Dunne will be re-elected by 150,000 plurality. Women of Illinois will vote for president for the first time to-morrow, though they have not the privilege of voting for state officers. Party leaders estimate that the total vote in the state will reach 1,800,000, of which 700,000 will be cast by the women.

OPINIONS DIFFER
Philadelphia, Nov. 6.—Preliminary preparations for to-morrow's election were completed today by the various party leaders throughout the state. The Democratic leaders predict that the largest Democratic vote ever registered in this city will be polled for President Wilson, while the Republican leaders anticipate a majority of 150,000 or more for Hughes in Philadelphia and claim he will carry the state by 200,000.

Atlanta, Ga., Nov. 6.—Notwithstanding that the Republicans have made spirited fights in several southern states, Democratic leaders today seemed chiefly concerned with the problem of getting out the vote in order to give President Wilson an unusually large plurality on Tuesday.

Although it is conceded that the electoral vote of the South will go to the Democratic candidate as usual, this year the Republicans have picked Tennessee, North Carolina and Florida as favorable battle grounds and hot spots for state and national tickets there. The other states have been occupied mainly with local issues and a few contents for congress.

IN MASSACHUSETTS
Boston, Nov. 6.—Both Republican and Democratic party managers planned today to carry their campaign activities up to the last possible moment before the election. Governor McCall, who seeks re-election and his Democratic opponent, Frederick W. Mansfield, made their final pleas on the stump in this city, and rallies, many of them in the open air, were arranged for all parts of the state.

Republican leaders remained firm in their estimate of victory to-morrow for both state and national tickets, including the return of Senator Henry Cabot Lodge in his first test by popular vote, by a margin of at least 75,000. Democratic state committeemen asserted confidence that President Wilson and Mr. Mansfield would carry the state by safe margins and that John F. Fitzgerald, former mayor of Boston, would defeat Senator Lodge.

OHIO
Columbus, O., Nov. 6.—One of the heaviest votes ever recorded is expected to be cast in Ohio at to-morrow's election. Both Republican and Democratic state chairmen claim the election of all their candidate by substantial majorities.

W. L. Finlay, Democratic state chairman, issued a statement saying President Wilson and the entire state ticket will carry Ohio by 100,000 votes, while Charles Hatfield, Republican state chairman, predicted that Hughes and Governor Willis will carry the state by "from 60,000 to 100,000."

Both campaign headquarters were agreed that there was seemingly more interest in Ohio over the election of a president than over the state ticket.

Montpelier, Vermont, Nov. 6.—Vermont politicians rested today after a quiet campaign, with a Republican victory to-morrow conceded by all. Democratic leaders, however, predicted an increase in the vote for president Wilson over that of four years ago.

Socialist Expectations
Milwaukee, Wis., Nov. 6.—Socialist leaders asserted today their party would poll 60,000 votes in Wisconsin to-morrow and that Socialists would be elected to congress in the fourth and fifth (Milwaukee) districts. The Democratic state chairman, claimed the state for President Wilson by at least 40,000 plurality, while the Republican chairman placed the Hughes plurality at 25,000.

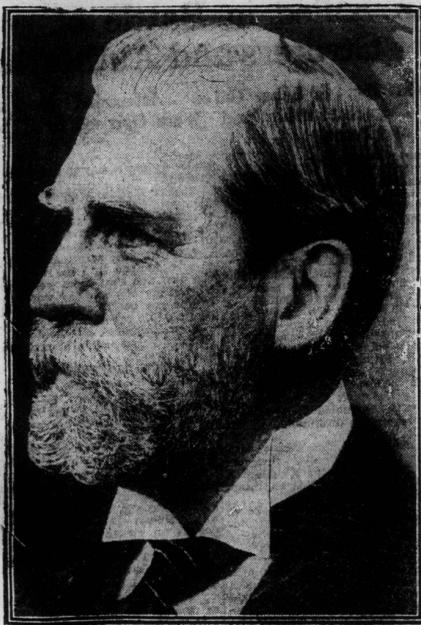

Republican leaders held that the big primary vote received by Governor Philipp, Republican, assured his re-election and that Robert M. La Follette would be returned to the United States senate. Democratic asserted Bert Williams, Democratic candidate for governor, had a good chance for victory.

GET RID OF HUMORS AND AVOID DISEASE

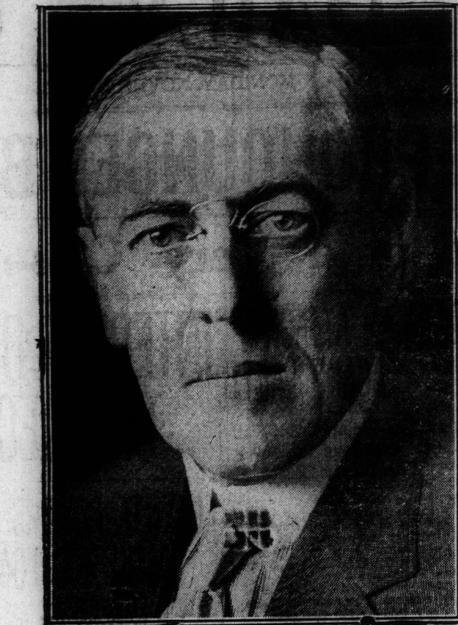

Humors in the blood cause internal derangements that affect the whole system, as well as pimples, boils and other eruptions. They affect all the organs and functions, membranes and tissues, and are directly responsible for the readiness with which some people contract disease.

For forty years Hood's Sarsaparilla has been more successful than any other medicine in expelling humors and removing their inward and outward effects. It is distinguished for its thoroughness in purifying the blood, which it enriches and invigorates. No other medicine acts like it, for no other medicine is like it.

Get Hood's Sarsaparilla today. Insist on having Hood's.

KINGDOM OF POLAND

(Continued from page one.)

General Von Beseler replied that "it the mid" of the world war had come the moment of fulfillment of the long cherished Polish wish for re-establishment of the Polish kingdom."

"Doubts as to the future," he said, "can find no place in Polish hearts. It will be our task, shoulder to shoulder with the residents of Poland, to carry the war to a victorious conclusion and to heal the wounds of the war. Take place at our side, in confidence which we repay by the unanimous decision of the Austro-German monarchs who place their seal on the plans for the unity of Poland."

"We hope that soon a Polish army will be fighting on our side in token of the sentiment for development of the new kingdom. May all good fortune attend the kingdom of Poland."

Twenty minutes saw the end of the ceremony and the participants slowly made their way from the palace through the crowded court yard into the throng outside.

So far as an observer unfamiliar with the language could judge, there seemed to be a sentiment of genuine enthusiasm among the Polish representatives in the hall. In the assembly were the members of the new city council, delegates from the University, the faculties of the Academies of Science and Arts, members of the Roman Catholic clergy, headed by the Archbishop in the brilliant robes of a cardinal which he was entitled to wear as primate of the Polish church; the bearded chief rabbi and Jewish subordinates, and leading representatives of the old Polish aristocracy.

While General Von Beseler was reading the manifesto inside the palace square and adjoining streets brightly that it was a physical impossibility to distribute the news in its official form except very slowly.

A pig and \$223 in money, given by residents of Sidney, helped of provide a farewell entertainment for the 143rd and 21st battalions.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathings, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosey-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effects upon the system.

Can't Find Dandruff

Every bit of dandruff disappears after one or two applications of Danderrine rubbed well into the scalp with the finger tips. Get a 25-cent bottle of Danderrine at any drug store and save your hair. After a few applications you can't find a particle of dandruff or any falling hair, and the scalp will never itch.

BOY'S RUSSIAN SUIT.
By Anabel Worthington.

The Russian suit for the small boy was long ago introduced and received a wave of welcome that no winter has ever chilled. To-day it holds its own against all others for popularity, for mothers find it easy to make and it launders like a towel or any straight piece.

In the illustration we have a Russian suit with the straight trousers which the boy is so proud of and which show the newest development in suits for little men. They are particularly well cut and fasten with buttons and buttonholes.

The blouse, with coat closing, is belted at a lowered waistline with contrasting goods and collared and cuffed with material to correspond; there is also a useful pocket to decorate the left side. While the combination idea is according to fashion's rule, you may make the suit of all one material if you choose.

Tub fabrics are used all through the winter by some mothers for play suits, and among them galatin, Indian head, linen and the like are to be considered for developing this model. Home spun, wool mixtures and serges are staples that are well thought of if you want a suit not as an apron.

The suit pattern No. 7982 is cut in sizes 2, 4 and 6 years. To make in the medium size will require 2 1/2 yards 36 inch material and one-half yard contrasting goods.

To obtain the pattern send 10 cents to the office of this publication.
