It has inherent difficulty in a free self-governing democracy of concentrating the fuculties; it has always had them, it always will have them, and I am not sure that every race is gifted. The Common Cause

It was a miracle which occurred and no greater event in my opinion the present Western similar than the great countries that the present was a state of the present when a state of the present was a state of the present

A Comparison

It seems to me to be interesting to compare the picture which I have thus endeavored imperfectly to draw of the British democracies working freely together, each under its own institutions, each according to its own lights, towards a common and unselfish end with what is happening.

After all, when German militarism ldifficulties will be met and will be solved and that the purpose of our people will be maintained until the cause for which Canada entered this policy or of vigorous ep-ordinated effort, it made a great blunder, but it made a blunder for which there is no excuse.
