

THE ACADIAN.

WOLFVILLE, N. S., SEPT. 18, 1896.

Editorial Chat.

Preparations are on foot to commemorate the centenary of the landing of John Cabot and his crew on the shores of America.

We notice that some of our exchanges are referring to the movement suggested by a correspondent in a recent issue of the ACADIAN to erect a memorial at Grand Pré to the late poet Longfellow, as a most worthy one. But so far as our people are concerned we have heard nothing. Such an undertaking should be begun by those living in the vicinity of the spot on which the memorial is to be placed. We have no doubt however but that there are many throughout America who would gladly assist in the movement. Let a move be made in this direction at once, and we have no doubt as to its ultimate success.

For a number of years the ACADIAN has advocated the provision of a public reading-room for the use especially of the young men of Wolfville. We would again respectfully urge the claims of such an institution upon our citizens. The long evenings are again with us when the need of some place of profit, able resort for our young men is most apparent. We believe that by a slight effort a good reading-room could be provided that would be a source of pleasure and profit to a large number of our people and a credit to the town. The ACADIAN speaks the consideration of all those who have the best interests of the town and community at heart, to this important matter.

The good crops of this year throughout the Dominion are likely to offset to some extent the depression in business which seems to exist in commercial quarters. The North West crops are good. Ontario crops are not quite up to the average in some branches while in other the yield is above. Reports from Quebec indicate that another good return has crowned the year's toil of the farmer. In Nova Scotia the agricultural department's bulletin declares of the province that "it may be said generally that this is a most fruitful year," and "the promise of a magnificent output of apples places this important branch of agriculture beyond peradventure." What is true of Nova Scotia is also true of Prince Edward Island and New Brunswick.

The Manitoba school question is apparently as far from settlement as ever. Archbishop Laframboise, of St. Boniface, was seen conferring with the Pope in the interests of the Manitoba minority, returned to Canada on Sunday and informed a reporter that his attitude was the same as before his departure. It would appear from this that His Grace agrees with the Archbishop in demanding for the minority all the Remedial Bill provided for. It is understood that Mr. Laurier has offered Mr. Sifton, the Attorney General of Manitoba, the portfolio of the Interior in his Cabinet if he will influence an amicable settlement of the question, but at a recent meeting of the local cabinet Mr. Greenway intimated that if he did for Laurier what he refused to do for Messrs. Bowell and Tupper, he would endanger his own political prestige.

The importance of the matter, we feel, warrants us in again referring to the need of an improvement in the appearance of our town as it is presented to the view of those who approach it by rail. Unfortunately the rear of a great many properties adjoining the railway, and in consequence those who travel by rail are likely to get a very erroneous impression of Wolfville. Our people are year by year learning the value of well kept streets and grounds; and a tidy appearance generally, in that it affects the number of summer travellers who annually visit us and contribute considerably to the general prosperity of the town. We feel sure that it is only necessary to mention this much-needed improvement to cause it to receive the attention it deserves. There is no doubt but that a little more attention paid to the beautifying of public and private grounds would well repay the necessary outlay of time and money.

The order of the day in the Dominion Parliament, during the week, has been the passing of estimates and the putting and answering of questions, the monotony of which has been relieved by an occasional display of sharp-shooting, by party leaders. One of the most lively of these took place on Friday on the occasion of Mr. Lister in speaking on the voting of the High Commissioner's salary, making some references against Sir Charles Tupper's conduct while filling that position similar to those for the expression of which the libel suit is now pending against the Halifax Chronicle. After some baseless blows from Sir Charles and some heavy cross-firing from both sides, Mr. Lister withdrew his charge and the house settled down to work again. Though a declaration had been made by the Speaker of the Commons ordering that the law in reference to the selling of liquor in the House be observed, the sale of intoxicants was not greatly affected till Monday, when a motion was made by Mr. Craig, conservative member for East Durham, supported by Sir Charles Tupper, authorizing the Speaker to forbid the sale of intoxicants within the precincts of the Commons. Amid applause, the motion carried without a dissenting vote.

Speaking of the oat crop the P. E. Island Farmer says: "We are sorry to learn that the price of this season's produce is likely to be extremely low. While no price has been set it is said that only 20 cents is likely to be offered for the new white oat crop."

In Camp.

The Wolfville Militia Company arrived at Aldershot on Tuesday afternoon last, and immediately on leaving the train marched on the grounds—being the only company in the batt. that came on in their proper position, which fact was referred to by the D. A. G., when he inspected us the next day. The afternoon was devoted to getting our tents in order and looking around. Wednesday we were called out of our luxurious apartments at half past six, and had breakfast at half past six. We "fell in" for our first drill at seven, and kept at it until eight forty-five when we "changed step" and rested for an intermission of three-quarters of an hour, getting to work again at half-past nine, and continued until 12 o'clock. We lunched at about half-past twelve, commencing drill again at two o'clock, returning to our tents again at half-past four. We had tea about five o'clock. This is the routine of each day. I omitted to state that we retire to rest at a quarter to ten, our lights having to be out at a quarter after. The bill of fare is not elaborate, but is supposed to be very nourishing. For breakfast, we have bread, and coffee, at least our cook Mr. Harris, who is a very truthful fellow, says it is coffee, and we don't like to disbelieve him. For dinner, bacon, soup, and meat and potatoes. Supper is very similar to breakfast, with the exception that instead of coffee a fluid of an iron gray color, called by Mr. H. "tea" is substituted. It is all plain food, very plain, and always the same. No green corn or apple-sauce, or any of these frivolous luxuries meet our longing eyes, but the solid and substantial articles of diet are the order of the day.

The Y. M. C. A. have a tent on the grounds, where the boys can run in and read the papers, and do their writing.

One of the most pleasant evenings spent was that of Friday last, when the boys of "Company 9" invited in a number of the Kings Hussars. A jolly evening was spent and all present thoroughly enjoyed themselves. "Hal" had his auto-harp with him and directed the merriest part of the entertainment, being assisted by Mr. John Brown, of the Hussars, with his violin. We closed with the National Anthem, which, if Queen Victoria could have heard would have made her proud of "Company 9."

On Sunday the company marched down to Auburn and attended the services of the English Church.

On Monday afternoon we got permission from Lieut.-Colonel Chipman to have a bathing parade, and marched down to the Annapolis river and had a swim, after which we felt like "new men." About a half a dozen or so of the number said they had bathed only once in their lives.

We have received compliments from all sides. On Saturday morning we were inspected by Colonel Maunsell, of the Fredericton School of Militia, who said we were the best company on the field.

Everyone in "The 9th," takes particular pride in his company and does his best to excel. Capt. Naylor is probably the most painstaking and best qualified captain in our battalion. He is always right and can give them all points. Col. Maunsell complimented him very highly on his ability and knowledge.

We have been shown great courtesy by Lieut. Col. Chipman, Major Belcher and Major Borden. The fine record of the company is due in a great measure to Capt. Naylor and Lieut. Starr, both of whom take great pains with the men, and by their courteous manner have won the admiration and respect of the whole company. Every member of the company is proud of No. 9, and does his level best to excel. In the battalion drill on Saturday last we were easily the best company, and as we marched past the Colonel and the Instructor, we were greeted with "Splendid, No. 9!" "Fine!" "There's a company for you!"

P. S. We wish to thank Mr. Arthur C. Starr, of Starr's Point, for a box of delicious pears. He's a jolly good fellow and no one in "company 9" would think of denying it.

On Monday three or four Sunday schools in the vicinity of Middle Masquodibit, N. S., combined and held a picnic at Murchville a short distance away. A large number attended at an unusual event was to take place on the picnic grounds. During the day J. Frank Mosher, of Matiland, and son of J. G. Mosher, of Truro, was married to Miss Minnie Hay, of Murchville. The ceremony was performed under the tree by Rev. E. Smith assisted by Rev. J. Cameron. All the Sabbath schools were present.

RYCKMAN'S Kootenay Cure

(Testimony under oath.) The village of Bearsville furnishes quite a wonderful case: Mr. Jacob Fisher of that place, now employed at Niagara Falls, N. Y., suffered from Rheumatism, Sciatica and bilious disorder for a long time, but was completely and permanently cured by Ryckman's Kootenay Cure, as the following certificate, sworn testimony will show:

NIAGARA FALLS, June 28th, 1895. I hereby certify that I have made a physical examination of Jacob Fisher and find him in a perfect state of health and free from all disease that I can detect.

J. H. SUTHERLAND, M. D. STATE OF NEW YORK, COUNTY OF NIAGARA, J. Jacob Fisher, Clerk of Niagara Falls, being sworn, said: I am the same person examined by Dr. J. H. Sutherland on June 28th, 1895.

For over a year I was a sufferer from Rheumatism, Sciatica and bilious disorder. In the month of April, 1894, I commenced taking Ryckman's Kootenay Cure and after a few days I felt better and that now I am free from all blood disease, Rheumatism, Sciatica and bilious disease, and that my cure was effected solely by the use of the above named remedy. I am now employed by the Niagara Falls Paper Co., at the City of Niagara Falls, N. Y., and am in perfect health.

A New Mission. The Presbyterian church in Canada is now about to open up a new mission among the Coolies of Demerara.

A good audience assembled at Fort Massey church, Halifax, to witness the ordination of Mr. J. B. Cropper, who is soon to go out as the missionary to this island. The new mission is being started under most favorable auspices. The missionary is an excellent young man of good attainments, a graduate of Pine Hill. A church, schoolhouse, and manse in good repair have been donated to the Presbyterian church. An annual contribution of £100 sterling is given by a Scottish firm having management of the sugar estates. A minister of P. E. Island will give \$500 per year for six years for the support of the mission. Demerara was once a private colony, but is now a county of British Guiana. Mr. Cropper being acclimated, and an earnest young man, enters upon this new mission with reasonable prospects of success.

Disastrous Fire at Berwick. Berwick was visited by a disastrous fire on Friday night of last week which destroyed the buildings of the Berwick Foundry Co., the blacksmith shop of J. N. Bartheux with carriage shop above occupied by Peter Middlemans, the office of the Register. The fire originated in the boiler-rooms of the foundry and was discovered about 10 o'clock. A quantity of the contents of the buildings was saved, including the most of the Register's plant. The publisher has our sympathy in his loss, and our congratulations on his enterprise in having his paper out on time this week, in the face of such difficulties.

The St. John Board of Trade held its regular monthly meeting on Tuesday last. Among the resolutions decided upon at the meeting were those of the Yarmouth S. S. Co., from St. John to Halifax via Yarmouth, of \$7,000 for the present service, and \$10,000 in the event of a better service, and as a liberal subsidy as possible for the service between St. John and Digby. A number of delegates were appointed, who will at once proceed to Ottawa and advocate the payment of the above and other subsidies by the Dominion Government.

In 1864, only one city missionary was employed in Halifax. Seven years later five were employed, one of whom was supported by St. Matthew's church. Dr. Grant, Principal of Queen's University, was then pastor of the congregation, and secured in one sabbath collection, a sufficient amount to pay the first year's salary. City mission work is still carried on in Halifax by faithful laborers, though perhaps not to so great an extent as twenty-five years ago.
