SAY PLANTS DEPEND CHIEFLY ON LIGHT

Temperature Found to Be Not So Important—May Revolutionize Agriculture.

Washington, April 17.—Government agricultural experts have discovered that plant life seems to depend on light rather than temperature for nourishment and may be controlled by regulating the hours of light and darkness.

The principle is revolutionary; but it rests on actual experiments in which it was demonstrated that plants subjected to alternate periods of light and darkness in carefully determined proportions could be brought to maturity at any time of the year.

"Greenhouse experiments," says an announcement by the Department of Agriculture, "prove that the flowering and fruiting period of practically any plant can be made to take place at any time of year by darkening the greenhouse in the morning and evening if the day is long, or by lengthening the day by artificial light if the day is too short."

"Spring flowers and spring crops happen to be spring flowers and spring crops because the days at the season of their flowering and fruiting have the proper number of hours of daylight."

The discovery may be of the highest importance in the future planning of cropping systems for different regions. According to W. W. Garner and H. A. Allard, scientists in the Bureau of Plant Industry, who conducted exhaustive experiments, the animal organism also is capable of responding to the stimulus of certain day lengths. They believe that the migration of birds may be an illustration, on the ground that direct response to such a stimulus would be more in line with modern biological teaching, than theories which assume that birds "go south" as a matter of instinct.

Experiments were conducted with a large variety of plants. It was shown conclusively that to "sleep," or in other words, too many hours of daylight, would prevent in midsummer reaching the flowering and fruiting stage.

Temperature appeared to exert no influence in the tests. A striking illustration of the relative unimportance of temperature was given in the fact that plants kept in the dark for a part of the day underwent in midsummer the changes that in nature come in the fall, and that heretofore have been attributed to lower temperatures. This was true even when the dark houses registered a higher temperature than the outside atmosphere.

Plants kept in artificial light for 18 hours a day bloomed in two months, while others in the same temperature, but without artificial extension of the day, required months longer.

"The length of the day," the department's announcement said, "is proved to be the most potent factor in determining the relative proportion between the vegetative and fruiting parts of many crop plants. Indeed, fruiting may be completely suppressed by a day too long or too short. The new principle undoubtedly explains the erratic behavior which has been observed with many crops when they are shifted to different latitudes."

DIOCESAN SYNOD MEETS THIS WEEK

(Continued from page two.)

Rev. C. A. S. Warford, Mrs. R. F. Randolph, 155 Church street.
Rev. H. Waterton—Mrs. Howard Richards, Queen street.

Rev. A. J. Langlois—Mrs. Bulteel, Union street.

Recent New Arrivals.

Mr. and Mrs. William J. Mayo are receiving congratulations on the arrival of a baby girl, Elizabeth Louise, at their home, 154 Saunders street, yesterday. Mr. and Mrs. John Parkinson are rejoicing over the arrival of a ten-pound baby boy at their home on Victoria street extension on Wednesday last.

THE GREAT FRENCH TONIC "Vital" Tablets

Makes Men and Women Strong. Go to Your Druggist and Get a Box and Be Healthy.

Since the introduction of VITAL to Canada the sale has been phenomenal. VITAL is a purely tonic—it builds up the run-down system, creates a new lease of life. Everybody should take a tonic. The only question is what to take. You can rely upon VITAL as one of the greatest, if not the greatest, that man ever prescribed. Every Tablet of this wonderful French Tonic contains life. Your nerves are toned up to their proper tension. The stomach and bowels are made healthy and strong, while the kidneys and liver are cleansed and put in good working order. Headaches, biliousness and all blood impurities are at once removed. The skin becomes clear and healthy. VITAL, in short, will change your whole system, making it pure and healthy. Your druggist will refund your money if it fails. Price 50c a box.

DEVELOPMENT OF MAINE WATER POWER

Many New Hydro-Electric Plants Being Planned and Erected Across Border.

Lewiston, Me., April 17.—The next year will see a widespread development of hydro-electric power in Maine. Already two extensive developments are in progress and others are being discussed. The two developments now under way will increase available horsepower by nearly 30,000, and will cost more than \$1,500,000. One of these is a complete new plant, the other is an addition.

At Deer River, on the Androscoggin river here, a new unit is being added to the plant which supplies Lewiston and Auburn with electricity. From 5,000 to 8,000 horsepower will be needed at a cost of \$100,000. This unit is expected to be in operation by July. The largest development now being made is that at Skowhegan, where the power plant now in course of construction will have an initial capacity of 20,000 horsepower. No statement is given as to the cost of this project, but it is understood to be in excess of \$1,000,000. When this plant is in operation it will save the company \$200,000 annually in its coal bill by eliminating use of steam driven generating machines to meet demands of its customers.

A new development will be made on the Androscoggin river, below this city, and above Lisbon Falls. The plant to be built here will have a capacity of 10,000 horsepower, which will supply power needs of this large manufacturing section.

The reason for the sudden activity in hydro-electric development is the coal situation. With soft coal costing \$11 a ton and prospects that it will reach \$15, steam-generated electricity is very expensive and operation by steam power ceases to be economical.

Within a very few years it is expected that the great pulp and paper mills at Millinocket will be eliminated, and their steam units and generating plant entirely upon electricity. They have a big electric development at Dolby river on the west branch of the Penobscot, which now supplies the plants at Millinocket and East Millinocket. There is some question whether it is practical to increase the development there sufficiently to meet all requirements, but engineers agree that it is practicable to install a modern power station at the big Ripogonus dam, and transmit power to the Millinockets, a distance of thirty miles. The amount of power which could be produced there is enormous.

Aroostook county, too, is going to see new hydro-electric development. At present the county's needs are well cared for by the big power plant at Aroostook Falls.

BOIESTOWN, N. B.

Boiestown, N. B., April 12.—The dance and basket social in aid of the public hall at Boiestown Easter Monday proved to be a grand success. A sum of \$135 was realized and will be applied to the reduction of the debt of the hall. Much credit is due to the young ladies who donated baskets.

Thomas F. Whalen, of Gaspe, spent his Easter holidays at this place. A. L. Bane and Lawrence McLeod are handling and loading laths for C. Eatey.

On April 1st at 2 o'clock an event of much interest took place at the home of Ichabod Norrad, it being the marriage of Johanna Munn and Wilfred P. Norrad. The ceremony was held at the home of the groom where a buffet luncheon was served. Mr. and Mrs. Davis left for a trip to St. John. Mrs. Thos. Jones, of Fredericton, was the guest of her sister, Mrs. Alfred T. Carson, on Tuesday, April 6. Miss Susie A. Boles has returned home from Napadogan, where she spent the winter with her aunt, Mrs. F. Denmore.

John Smith, our popular millwright, has been engaged to get up the Cameron mill four miles above Boiestown. Ernest R. Bamford has left on a trip to St. John.

Word was received here last week of the death of Thomas Stickney, of Hayesville. The late Mr. Stickney was 70 years of age. He was well known here and has a host of friends who will regret to hear of his sudden death.

Aloysius Layton, of Blackville, spent the week-end in Boiestown.

Mr. and Mrs. John A. Conroy are receiving congratulations over the arrival of a daughter on Thursday evening, April 8.

OBITUARY.

Mrs. J. A. Webb.

The death occurred at McAdam on Tuesday, April 13th, 1920, of Mrs. Webb, widow of the late J. W. Webb of Hoyt Station. The deceased was aged 67 years and had been in failing health for some years, and had been a great sufferer. She leaves to mourn their loss one daughter and two sisters, Mrs. L. Mesereau and Mrs. O. S. Mesereau, of Fredericton Junction. After a short service by Rev. D. McGuire, pastor of the Union church, the remains were taken to Fredericton Junction, where service was held in the United Baptist church by Rev. Mr. McGuire, assisted by Rev. Mr. Westmore. There were many beautiful floral tributes.

Engagement Announced.

Mr. and Mrs. Charles Rich, of Chatham, announce the engagement of their daughter, Miss Gussie, to Alexander Hens, of Antigonish, N. S., the wedding to take place in the near future.

Happiness is the result of being poor and respectable—according to the story books. We're impossible to speak anything but the truth we would have few friends.

NOX A COLD TABLETS

A safe and speedy cure for LaGrippe, Coughs, Colds, Headache, Neuralgia, Flu, a mild laxative. Breaks up a cold in a few hours. Get the genuine, at all drug stores, 25c per box.

TRAINING SCHOOL For Women Nurses

BELLEVUE AND ALLIED HOSPITALS Offers a course of instruction to women desiring to enter the nursing profession. The comprehensive service of the Hospital, and the new residence with its complete equipment afford unusual facilities for theoretical and practical instruction. Students receive maintenance and an allowance of \$16 per month. Classes enter in June, September, December. Three weeks' vacation yearly.

For further information apply to General Supt. of Training School, Bellevue Hospital, New York City.

NOTICE.

NOTICE IS HEREBY GIVEN that application will be made at the present Session of the Legislature of the Province of New Brunswick for an Act to incorporate the New Brunswick Branch of the International Order of the King's Daughters and Sons, and to authorize the order thereby incorporated to acquire certain properties at present held by the Trustees under and by the Last Will and Testament of Jane M. P. Fraser, deceased, and to authorize such Trustees to hand over such properties to the order thereby incorporated.

Dated this Twenty-ninth day of March, A. D. 1920.

J. J. F. WINSLOW,
Solicitor for Applicants.
