SENDING IN NEWS One of the things that ought to become a fixed habit in every household in Northumberland County is that of sending the Advocate the news items that you may know of; tell us of your news and any neighborhood or other items that will be of interest to your self, your neighbor or your friends.

Every lodge, church, body or social organization should have some representative who will look promptly and carefully after its news reporting; if you think some organization has better news service than your own, it is probably because that organization looks after such matters better.

Write your items and send them in when possible. Or telephone them, but please don't ask that long lists of names be taken over the telephone, as it not only requires much time, but usually errors occur in lists thus given.

Above all, be early. Never wait timbe last minute to send an item that can be sent in
