

COMMISSION

PORK COMMISSION

The Park commission

ings throughout the summer, to secure regarding the hog industry proposed establishment of a packing plant, will hold a session on Monday morning in the Board of Health.

H. Sorenson, late of Iowa, is present to give evidence on cooperative scheme in vork in connection with hog plants and creameries.

Sorenson has expert information and will be able to commission his experience in the Danish farmers. C. Sorenson, commissioner of the present to act as in Sorenson.

The members of the present are R. A. Wallace, chairman; James Bow, and

FARMERS MUST ORGANIZE

"Organization" and "union" are the two words heard everywhere today. The interests of the farmers in the western provinces are under attack in Provincial and Imperial legislatures. Organizations are keeping the front the idea of a union to represent the

Ontario has often been probably in no more than by President of the recent convention of the Imperial Union: "For years," said President, all farmers have realized the greatest need is co-operation. There have been attempts to organize, and

ange has done about
rds union as any other
on. However, it app
mers must organize
ers than have yet been
ere be a grand union of
perimental Union, Far
etes, Live Stock and I
ons and all other ag
nizations, and in this
' council list us discus
a gigantic Farmers'

operation as the basis for their operation, or be trampled under callings are joined to protect themselves, while they day out plod to feed their brains to get out the farm home worth producing cultural interests were? If so really round on Flag. Let the College the union proclaim farmers' Institutes. Lin-

...and we will have not until then will be represented in our exercise their proper those great questions for country's welfare."

The Saturday market
usual display of poultry
meats. The turkeys
re of good quality and
essed chickens always
g to appearance, and t
which too many farm
get. A bird may be

ump, but if it is discolored, the skin removed in the building it is depreciated to the consumer. A little of this will make a difference in quotations for spring chaff. The coal and wood market is dull. There is no power for the consumer of coal to supply when the temperature is low. Prices now are \$2.00 per ton, and very amounts

...but people seem to
it until cold and storm
