

OF SPECIAL INTEREST TO FARMERS AND SPORTSMEN

WITH THE FARMERS

THE HARVEST IS SAFE.

The little grain of wheat is a mighty factor in the business of the Canadian West, and especially so at this season of the year. From now on during the coming weeks and months the threshers will be busy. Long strings of heavily loaded wagons will be waiting their turn at the elevators, where the clerks will be kept busy writing out the grain cheques for the farmers.

The amount of these cheques will depend on two things. First, the quantity of the grain the farmer has to sell, and secondly, on the market price of the grain. The grade is another important factor which regulates the price to the individual farmer.

Merchants, bankers, implement dealers and all people doing business with the farmers are vitally interested in the size of the farmer's grain cheque, for it will determine largely the ability of the farmer to pay his debts and to buy the necessities and also the luxuries of modern life. The necessary articles of food and clothing the farmer must have, crop or no crop, and no matter what is the market price. When the crops fall there is an increase of debts of farmers to merchants and merchants to wholesalers. But when crops are good and prices right, prospects are brighter all around. Old debts are paid and new cash sales are made. The harvest of the Edmonton district is safe. Cutting which was delayed in a few cases by showery weather, is now practically finished. The fine weather of the past week will dry out the stocks and stacking will soon be quite general. If the weather continues fair some considerable stock threshing will be done. Yes, threshing has begun. The farmer's life will be felt. The farmer and his creditor will both be happy when the debts are paid. But the farmer's family and the city merchants will all rejoice at the extra articles purchased from the proceeds of the good crop. The tired farmer's wife can rest in a new rocking chair and let her daughter playing on the new piano. And the boy can now have his gold watch or the young man his top buggy. Good crops mean much happiness and much good prices mean good times.

The harvest is safe. What will the price be? Supply and demand rule the price. Modern transportation also plays an important part in relating the current price of grain in the various market centres of the world. The Winnipeg Commercial, a well-recognized authority on trade conditions of Western Canada, says in its latest issue:

"The wheat market, of course, is always a two-sided affair, but at the present time, while stocks are accumulating fast, it is apparent that unless foreign buyers take hold prices will drop lower. So far the requirements of foreign, as well as domestic, buyers in the United States, have not developed anywhere near the activity and volume that was so much in evidence a year ago. Not that the domestic consumption has decreased, nor foreign importing requirements lessened."

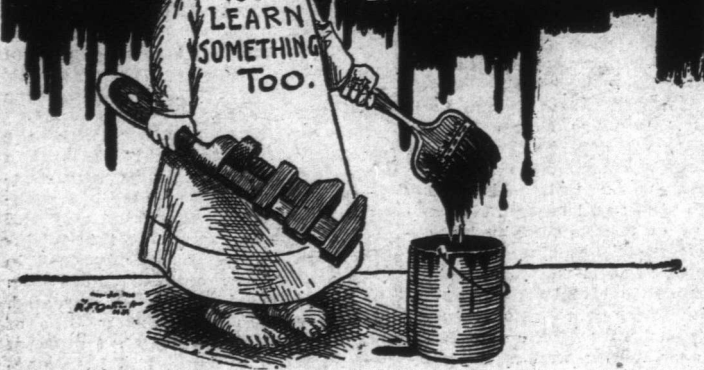

Slower Buying. But there is not the widespread and long-time buying of flour by jobbers, bakers, retailers and others that characterized last year, nor have the European importers secured supplies of flour or wheat in such volume as to indicate that the North American continent would be called on for large quantities of wheat.

Increased Twenty Million a Year. The wheat crop of Western Canada has increased about twenty million bushels a year, according to Chief Inspector David Horn, who gives the following record of inspections of the crop of Western Canada. The comparison of 1909 with 1908 shows a healthy progress:

1909 1908
Wheat, bushels, 74,922,395 70,055,850
Oats, 35,844,800 23,218,000
Barley, 4,663,200 3,759,600
Flax, 3,571,000 2,208,000
This includes the crop of Western Canada exported and inspected at Winnipeg, Calgary and Duluth.

Not a minute should be lost when a field shows symptoms of crop. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the coughy cough appears, will prevent the attack. Sold by all dealers.

WATCH THIS SPACE!

GROW WHERE THERE
WAS A FROWN
BEFORE

SAY!!

Do you know who I am?

Well, if you don't, ask somebody.

I've come here to stay a few years and tell you where to buy Hardware and things.

I'll do something different each week. Lots of my young friends are going to cut me out of the paper each week and make a scrap book. You'll find this lots of fun.

The NORTHERN HARDWARE CO. LIMITED

PHONE 1013

304 JASPER EAST

FARMERS' MARKETS.

Grain—Oats to millers, 2c; feed oats, 40 cents.

Dairy Products—Butter, 25c to 30 cents per pound; eggs, 25 cents per dozen.

Vegetables—New potatoes, 45c to 50 cents per bushel; corn, 15 cents per dozen; cabbage, 50c to 60 cents per dozen.

Feed—Timothy hay, \$22 per ton; upland hay, \$20 per ton; slough hay, \$18 per ton.

Live stock—The J. Y. Griffin Company quote the following prices, for the week, September 12th to 17th, weighed off at Edmonton:

Hogs—Choice quality hogs, 150 to 200 lbs. 14c; roughs and heavies, 6 to 7c.

Cattle—Good fat steers, 1200 lbs. and up, 3 1/2c; good fat steers, 1000 to 1200 lbs., 3 to 3 1/2c; extra fat heavies, 1050 lbs. and up, 3 to 3 1/2c; medium quality fat heifers, 1050 lbs. and up, 2 1/2c; extra good fat cows, 1100 lbs. and up, 2 1/2c; medium quality fat cows, 900 lbs. and up, 2 to 2 1/2c; bulls and stags, 2 to 2 1/2c.

Light weight, poor, thin cattle not desirable.

Calves—Good calves, 125 to 200 lbs. 4 to 4 1/2c; good calves, 200 to 300 lbs. 4 to 4 1/2c.

Sheep—Choice killing sheep, 5 to 6c.

Lamb—Choice killing lambs, 6 to 6 1/2c.

THE PRODUCE MARKET.

The following comparisons of the market prices in other Canadian centres may prove of interest to the farmers of the Edmonton district. The market price at the various centres are closely related according to supply and demand as adjusted by the distance and freight rates between the various centres. For example, the demand for produce in the mining towns of Alberta must be met from some other part of Canada. The farmers of the Edmonton district have a supply which they wish to sell. Yet potatoes, poultry and even eggs are frequently shipped from Eastern Canada to the mining towns of the Crow's Nest Pass.

Course Grains.

"Oats: Receipts continue heavy compared with last year, but the demand is poor and prices are lower. The new crop conditions are bullish, but the large stocks at Fort William prevent speculative buying. Cash: No. 2 Canadian Western, 35c. Futures: October, 37 to 37 1/2; December, 37 1/2; May, 40 1/2."

"Barley: Receipts are increasing and inquiry is better than for some time past. No. 3, 46 1/2c; No. 4, 42 1/2c. "Flax: Higher on light offerings, but there is practically no business being done in elevator cash or futures. No. 1 N.W. is quoted at \$2.30; October, \$2.30."

"All prices quoted above are based on in store Fort William and Fort Arthur."

Increased Twenty Million a Year.

The wheat crop of Western Canada has increased about twenty million bushels a year, according to Chief Inspector David Horn, who gives the following record of inspections of the crop of Western Canada. The comparison of 1909 with 1908 shows a healthy progress:

1909 1908
Wheat, bushels, 74,922,395 70,055,850
Oats, 35,844,800 23,218,000
Barley, 4,663,200 3,759,600
Flax, 3,571,000 2,208,000
This includes the crop of Western Canada exported and inspected at Winnipeg, Calgary and Duluth.

Not a minute should be lost when a field shows symptoms of crop. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the coughy cough appears, will prevent the attack. Sold by all dealers.

CHICAGO GRAIN MARKETS.

Chicago, Sept. 16.—Wheat after the first half hour of trading was a dull affair. The market showed more firmness than the trade in general expected. The market after a break 1/2c to 3/4c, rallied to within 1/4c of the previous closing level. There was a general rush to sell at the start because of the weakness in outside markets yesterday. The market was a little better than the previous day. Prices there was considerable profit-taking by shorts, who believed that the market was due for a reaction after its recent slump. There is no improvement noted in the milling or export demand for cash wheat. Advice from Minneapolis claimed that a good many mills would have to close down next week because of the lack of orders for flour. The movement continues to show a material falling off and primary receipts for two days aggregated 2,493,000 bushels, compared with 3,083,000 bushels last year. Minneapolis stocks, despite the fact the receipts there are almost fifty per cent. under a year ago, an increase of 1,120,000 bushels for the week. At present there is nothing to worry the foreign business as where in future supply will come from. Argentina shipped 860,000 bushels of wheat last week against 384,000 bushels last year. Australia, 1,072,000 bushels, against 240,000 bushels last year, and India 276,000 bushels, compared with 172,000 bushels last year. Advice from Argentina says that rains have materially benefited crop conditions and the outlook is for a bumper crop. It is true that recent advice states that Russia and Hungary's wheat crops are small and that the heavy shipments from there are not likely to last for any length of time, but it may be considered that it is only a few months from the time that the Argentine crop will be ready for market.

"The Modern Miller" in its weekly crop summary says seeding of winter

wheat will not be general until next month, many farmers delaying this work especially where last year's crop was damaged by frost in May.

TITIAN-HAIRED LADY STANDARD OIL SIREN

Thos. W. Lawson and Mrs. French Deceased. The Octopus Use Cultured Woman to Elude Success of Enemies in Business—Archibald Indignantly Denies Charge.

New York, Aug. 15.—A storm has been stirred up by the charge of Thos. W. Lawson and Mrs. French, recently thrown overboard by F. Augustus Heinze, that Standard Oil is a Titian-haired lady, who is the secret service staff. Reports filtering out of the oil company's office at 26 Broadway represent John D. Archibald as shaking with wrath over the suggestion that the corporation employs a cultured woman to entice business secrets from those whose scap it covets.

In the vehement denial of the secret peachment made during the week by Archibald, who is John D.'s man Friday, and sits on the lid when the oil company's monopoly is threatened before his Sunday school class, there is apparent the same disposition to dismiss the idle gossip the Lawson and French charge.

Two years ago when Hearst exposed its relation with certain public officials and newspaper editors whom it had outwitted.

Played Part in Panic. As for the red-headed sorceress, there is little doubt that she played a part in the panic of 1907, and that the role she essayed in winning the confidence of Heinze and his associates was in the interest of Standard Oil.

Heinze, he had beaten Henry H. Rogers and others of the Standard Oil group in important litigation affecting the ownership of Canadian and American mineral claims worth hundreds of millions.

Determined to retrieve its failure to secure control of these claims, Rogers and his associates, through the medium of a woman, and using the knowledge thus acquired to precipitate a panic upon the stocks of Heinze with the hope of breaking him. In this way he fancied he could get the control of the property which he had failed to do with the aid of the courts.

Susceptible to Women. Impenetrable as a stone wall to men, Heinze was known to be peculiarly susceptible to the charms of womanhood. The Titian beauty, who is a woman of great culture and personal magnetism, was thrown into his path one night at the Waldorf-Astoria, and there began an acquaintance, which friends of the copper man say, ended in the part of three years ago.

With great deftness and skill, the woman, while affecting to reciprocate the interest shown in her by Heinze, is said to have gotten out of him such business secrets as enabled Rogers and his friends to put on the squeeze where it pinched most. Not until he found his stocks panned almost to nothing in the market, his loans in banks and trust companies called and his credit everywhere shattered, did the Montana operator realize the subtleties of Standard Oil and the full extent of its resources in forcing a breach in the breastworks of its enemies.

Every institution friendly to Heinze suffered—most of them under the pressure exerted against them went to the wall.

Heinze is not the only one credited with having fallen a prey to the beguilements of the red-headed plenipotentiary of Standard Oil. There are others who have good reason to remember her.

pression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by all dealers.

ISSUING CHECKS FOR EXHIBITION PRIZES

The Biggest Winner at the Edmonton Exhibition Was W. E. Tees, of Tees, Alberta, Exhibitor of Galloway Cattle and Yorkshire Hogs.

Price cheques for a total amount of \$8,500 were sent out today from the offices of the Edmonton Exhibition association to winners in live stock classes at the fair. The cheque written for the largest amount, \$600, went to W. E. Tees, of Tees, Alberta, who had exhibited Galloway cattle and Yorkshire hogs, which carried off many prizes. T. A. Cox, of Brantford, who had his sheep and swine exhibits, gets the second largest cheque, for \$400. The prize cheque of J. M. Bruce, of Leashburn, totaled \$350, that of Joseph Caswell, Saskatoon, was for \$315, and that of Wm. Shields, of Brandon, was for \$225. These were the winners of the largest amounts of prize money.

Highly complimentary notices of the exhibition have appeared in leading agricultural journals of the Dominion. The Canadian Farmer, published at Toronto, says in an article on the Edmonton exhibition in the issue of Sept. 9.

"The expenditure of \$175,000 upon the exhibition buildings has resulted in the finest thing of its kind in Western Canada, if not in the whole Dominion, and it was a pleasing sight to see the long ranks of handsome stables, methodically planned around the handsome grounds, well filled up with high class exhibits of live stock."

The agricultural hall, representative of accomplishments and of possibilities in grains, roots and vegetables, provided a pleasing sight to visitors that Alberta is not the land of the one-line farmer."

The North-West Farmer also publishes an eulogistic review of the fair.

Annual Meeting in October.

The annual meeting of the Exhibition association has been called for Thursday, October 6, a date two months earlier in the year than is usual. The meeting is called at this time in order that plans may be prepared for the extension work to be done next year and that fair dates may be decided upon before the meeting of the fair's convention in Lethbridge.

President Campbell, Manager Harrison and Directors Robertson and Harrison, attended the Lethbridge Tuesday. Tomorrow Messrs. Campbell, Harrison and Robertson will take in the fair at Morinville.

P. BURNS OWNS NEW COAL FIELDS IN SOUTH OF CANADIAN PACIFIC

W. L. Coulson of the Canadian Collieries Says They Will Equal the Crow's Nest Pass Mines—Are Situated in the Foothills West of Okotoks.

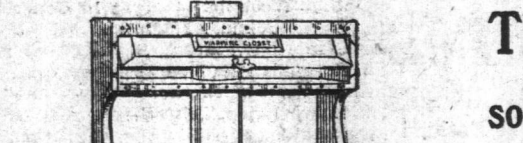

Vancouver, Sept. 16.—Bittumious coal fields on Sheep Creek in the foothills of the Rockies, forty miles west of Okotoks, a town on the C. & E. branch of the C.P.R., promise when developed, to equal in magnitude the best known coal producing regions in the famous Crow's Nest Pass in Eastern Montana. These claims were owned by P. Burns, the well known meat king, and associates. Plans for their development will be made shortly. It is proposed to tap them with a branch line from the projected extension of the Canadian Northern railway from Calgary south to the international boundary.

W. L. Coulson, general manager of the Canadian Collieries (Dunsmuir) Ltd., has reached here on his return from an examination of the Sheep Creek coal areas, which comprise about twenty thousand acres. He says it is a great proposition with an available tonnage running into millions of tons. Thus far ten seams varying in thickness from five to thirty-three feet have been partially opened up. The development work, however, is not extensive. The topography of the country will greatly facilitate mining operations as tunnels can be driven in on the coal, thus gaining depth with a vast tonnage.

Two Big Winnipeg Realty Deals. Winnipeg, Sept. 16.—Two big deals in central property are reported here. Forty feet on Notre Dame street, in the rear of Queen's Hotel, sold at \$2,500 per foot, and the Trust and Loan building property on the south side of Portage Avenue, near Main, at \$4,000 per foot. The names of the buyers are not mentioned.

Monarch

The "Say Satisfactory" Range.

The Ranges sold ten years ago are our Greatest Selling factor Today

When you buy a MONARCH RANGE you are buying the Malleable Iron Frames and Riveted Joints which instead of getting leaky and consuming more fuel as the Range grows in age, the riveted joints stay tight. The Monarch Ranges are built of Malleable Iron because it is stronger, tougher and has more resistance to the action of heat than common cast iron. That's why the Monarch gives an economical service—That's why it STAYS SATISFACTORY.

The Sommerville Hardware Co. LIMITED

FIRST STREET EDMONTON JUST NORTH OF JASPER

SOUTH AFRICAN SCRIP.

Are Quoted in Winnipeg at \$78.—Volunteers Have Located 82.

Winnipeg, Man., Sept. 15.—South African warrants were quoted here today at \$78 asked and \$73 bid. Seventeen were located during the past week. Statements for week ending September 10 showed the number of certificates issued to be 7,001. Certificates located by volunteers 562, by substitutes 3,902, instruments appointing substitutes 6,812, but not located 638, leaving outstanding 1,889. The number outstanding the previous week was 1,916.

Lord Hindlip to Build. Nelson, B.C., Sept. 15.—Lord Hindlip, who recently spent several days here, will build a summer home at Canal Flats in the Wandermere district. The land was purchased on the advice of Earl Grey, who has a large fishing and hunting lodge and reserve there. Lord Hindlip comes direct from Hindlip Hall, Worcestershire, England.

The Harvesting is Practically Completed in Alberta and the Threshing of the Crop is Now Practically Under Way. Rain was quite general throughout the province during the major portion of last week. Practically all the grain south of Calgary is cut. Ninety-five per cent. of this year's crop north of here is ready for the granary. Probably 75 per cent. of harvesting east of Medicine Hat is completed, and threshing is now quite general all over Alberta. This in effect is the sum-up of the weekly crop report.

From points on the Calgary and Edmonton branch line the condition of the crop is reported to be fair and good. At Olds and Bowden the condition of the crop is fair and according to the reports of other places heard from, they are favorable. From Gadsby, on the West-Edmonton line, is an account to the effect that the condition of the crop is good.

Both south and west of here, with the exception of one or two places, the general condition of the crop is reported to be poor.

Two Big Winnipeg Realty Deals. Winnipeg, Sept. 16.—Two big deals in central property are reported here. Forty feet on Notre Dame street, in the rear of Queen's Hotel, sold at \$2,500 per foot, and the Trust and Loan building property on the south side of Portage Avenue, near Main, at \$4,000 per foot. The names of the buyers are not mentioned.
