COLONIAL SECRETARY.

The One to Own if You Can Own But One.

"That is what a critical user of a 'Globe-Wernicke' cabinet says of its equipment. Another says 'It leaves nothing to be desired.' Another says 'So complete yet so concise.' Another 'Perfection as a filing arrangement.' Another 'It is really indispensable.' Another 'A surprising advance in handling records.' Another 'A welcome improvement in office conditions'—and so on. The extensive sale of 'Globe' filing cabinets in St. John's is by no means as remarkable as the abundant evidence that it is on merit alone that these devices have earned such generous appreciation. For certain when you become a user you will be well contented with your adaptable and reliable outfit. Mr. Percie Johnson has your catalogue ready for the asking as well as all other necessary details."

Appreciation Possibilities

Although it has only recently entered the revenue-producing period, the Sherbrooke Railway & Power Company is already earning more than sufficient to take care of its bond interest.

In addition to this showing three new power contracts, lately closed with Sherbrooke Industrial concerns, will bring in \$22,000 more NET revenue annually. These contracts are with the Canadian Brakehoe Company, the Canadian Confectionery Cotton Mills and the Panther Rubber Company—amounting to 1250 H. P. altogether.

When the Company has disposed of all its power the net earnings should be in the neighborhood of 2½ times the bond interest. But long before then the Bonds will have climbed considerably above their present low figure of 78 p.c. and interest, which returns the handsome yield of 6½ p.c.

Special report and illustrated booklet may be had on request.

A Dreary Night Of Waiting.

Last night Capt. Randall wired that he expected to dock at 5 o'clock this morning. The ship was then approaching Baccalieu Tickle and was steaming through heavy ice. The message further advised to have a doctor on hand immediately on arrival as there were about thirty men in a serious state and needed prompt medical treatment. The Seamen's Institute, where the victims of the tragedy were to be brought, was filled all last night with people who were waiting the arrival of the steamer, believing that she would put in an appearance earlier than expected, but these hopes and

Expectations Were Disappointed.

On the contrary the ship was longer because of ice encountered and which delay naturally accentuated the anxiety. Many heartbroken fathers, mothers, sisters and brothers were continually asking what the latest news of the disaster was, who comprised the dead and who were amongst the survivors. Hundreds of people who had no relatives in the "Newfoundland" thronged Water Street and were scrupulously anxious to hear more of the disaster while they sympathized deeply with the relatives of the poor fellows who succumbed to that

Terrible Blizzard.

People from every part of the city and from several outlying settlements remained out of bed in the eager expectancy of seeing the corpses and poor suffering brought in. Every minute passed seemed like a day, while no news was being received from the Bellaventure. Telephone communication between Cape St. Francis and the Institute was kept going interruptedly all night so that the latest news could be bulletined. From 11 o'clock last night until after 7 this morning not a single word was received by wireless and the

Authorities Were Disappointed;

but as a certain merchant, who was speaking to us, generously remarked, "Maybe Capt. Randall, who has played the part of a true Britisher and heroic Newfoundland seaman in Terra Nova's greatest marine horror has enough to occupy all his time. The worry of having 69 dead bodies on board and his ship trying to butt her way through the heavy ice with her cargo of human beings, dead and alive, is enough to worry and occupy the attention of any man." At 7.20 this morning Mr. G. Harvey received a wireless from the "Bell" saying that the steamer was then 14 miles off Sugar Loaf, almost in sight of the Narrows, and was in sheet ice. This news was spread throughout the length and breadth of the city.

Like a Flash

and the entire populace soon became

astir as time passed by. Everybody who could get out of doors gathered on the street near the Seamen's Institute and on Harvey's wharf, eagerly waiting to witness a scene of horror beyond the power of words to depict. The arrangements and provision completed last night were all that could be desired. Nothing was left undone. Water Street, near Harvey's wharf, was roped off to prevent the large, excited and mournful onlookers from crowding too much after the landing took place. In this connection the police will have full control, though assisted by contingents from the Calypso, C. L. B., C. C. C., M. G. B., Highlanders and Legion of Frontiersmen. In addition there is a squad

From the Ambulance Corps

under Dr. Macpherson to render first aid to the suffering. The Grenfell Hall is reserved for the corpses to be identified after they will be transferred to the basement of the building, where hot and cold water baths are provided to wash the bodies, which will then be enclosed in coffins, sixty-nine of which are piled up in the gymnasium of the building. The matter of appointing competent men to examine, identify and otherwise have anything to do with handling the bodies will be left entirely in the hands of the Inspector General. The arrangements made to prevent any disorderly scene at the Institute is that relatives will be admitted on presentation of tickets, which they will receive from an official in an office on the opposite side of the street. This will greatly facilitate the work of the doctors, nurses and morticians. Many pathetic scenes were witnessed last night in different sections of the city, but probably the saddest sight was seen by hundreds at the Seamen's Institute when an elderly resident of St. John's East wept bitterly when he heard that his son was amongst those unreported and unsaved.

BOOTS AND CLOTHING NEEDED.

From Bellaventure at 10.30 to-day: "I am making better progress, ice loosening, not so heavy, cannot arrive before noon; Baccalieu in sight to N.W., weather clear; some provision needed for men in matter of boots and clothing, the latter being cut off men as they got aboard frozen; dry clothing men were wearing is unfit to use again; we have 50 men besides our own crew; two are Stephano's; 14 Newfoundlanders crew taken from the two ships yesterday."

"Southern Cross" Yet Unreported.

KYLE GONE TO SEARCH FOR HER.

The S. S. Southern Cross, Capt. J. Clark, has not been reported anywhere since passing Gallant Head on Monday afternoon and spoke to the Port off Cape Pine on Tuesday morning. Grave concern is now felt for the steamer though the owners and many nautical men hold the opinion she got driven off to sea on the recent storm but that no grave fears need be entertained as she will turn up all right. A few years ago Capt. Clark met with a similar experience when returning from the Gulf of St. Lawrence. The vessel was caught in a severe storm crossing Placentia Bay, was driven to sea, but survived the elements after losing 14 boats off her decks.

At six o'clock this morning the S. S. Kyle went in quest of the missing vessel taking ample provisions and supplies of all kinds. Those who went in the Kyle were Capt. Snow, Ministers of Marine Piccott and Mr. J. Grieve. The Kyle will report often by wireless the results of her search.
