### Standard Boiler Fluid.

This preparation was made a few years ago by our Soap Chemist to use in our own boiler.  
It has given such good results that we confidently recommend it to all users of steam boilers.  
It will remove old scale, prevent incrustation and almost instantly stop pitting and corrosion. 10 to 15 I.P. will require 1 to 2 pints per week; 50 H.P. and upwards, 2 or more pints per week, according to work done and conditions of feed water.  
Put up in 1, 2 and 4 gallon tins. Made only by  
**The Standard Mfg. Co., Limited.**
