IN LOVING MEMORY

TO-DAYS MESSAGES

CAREFUL CONSIDERATION GIVEN TO GENEVA INVITATION.

WASHINGTON, Dec. 23.

President coolidge is hopeful that a way can be found for the United States to accept the invitation of the League of Nations to participate in the preliminary discussion of the Disarmament Conference plan. This was made clear at the White House yesterday, where it was said the President was making a constructive and affirmative study of the Geneva invitation. Indication was given as to when reply ndication and an according to the formed.

PARIS CUT OFF BY TEMPEST-MANY RULED AND INJURED. PARIS, Dec. 23. A tempest in France leaves death

and destruction in its trail. Nine nassengers were drowned in the Seine, last night when a ferry capsized. Paris is almost completely cut off by tele-graph from the outside world. There no communication with Germany and Italy. As all wires except one with Havre and Brest are down, cable despatches between North America and Paris are badly delayed. Owing to the prostration of the wires everywhere it will be some time before the full extent of the havor is known. More than a score of persons were Mrs. H. H. Stansfield, of Toronto, Ont, seriously hurt in Paris by bricks and

WASHINGTON, Dec. 17 .- As a further step against smuggling, generally and rum-running in particular, all coastguard stations on the Great Lakes have been ordered to remain open throughout the winter. It will be the first time in years.

Instead of giving the personnel of the stations leave on decreased pay, the service will continue drill and discipline among them through the whole twelve months.

Besides expanding anti-smuggling operations, the new policy will enable the guard to render assistance to the small craft which operate on the Lakes during winter months.
