

ROGERS' VETOES SNAP

MANITOBA MEMBER WOULD HAVE VIOLATED AGREEMENT BETWEEN PARTY WHIPS THAT NO DIVISION BE TAKEN TO ONE AMENDMENT TO JAPANESE TREATY BILL

Manitoba Member Would Have Violated Agreement Between Party Whips That No Division Be Taken To One Amendment To Japanese Treaty Bill

HOUSE SPENDS ENTIRE DAY ON TWO AMENDMENTS

And Discusses the Question of Modification As Affecting the West; House Closes Early; Premier Has Arrived At No Decision re Monday Program

OTTAWA, April 4.—After the third reading had been given to the bill restricting the Japanese franchise, the House spent the entire day on two amendments to the bill. The amendments were introduced by Mr. Rogers, member for Manitoba, and Mr. Borden, member for Ontario. The amendments were discussed at length, and the House adjourned at 10 o'clock. The Premier has arrived at no decision as to whether he will support the amendments on Monday.

"I will let the leader of the opposition know tomorrow," said Mr. Rogers. A curious and quite unusual incident occurred before the House rose. Hon. Wm. Pugsley had moved an amendment providing that the act of 1906 should apply to future orders in council passed by the government. When it was put and the speaker was about to declare it lost, Hon. Robert Rogers called for a vote and the division bells were rung. When the members came in and noticed that there were very few members present and that there was some excitement among the whips, F. E. Carvell, the acting chief Liberal whip, crossed the floor and spoke to Mr. Borden and Mr. John Stanfield, the chief Conservative whip, who also conferred with the speaker. Mr. Stanfield then spoke to Speaker Sproule who put the question and declared it lost without asking the members to rise. It appears there had been a vote against the amendment and that the House would not divide on the Pugsley amendment and that when Mr. Borden was informed of this the vote was called off.

Earlier in the day an amendment by Hon. Frank Oliver to make the bill apply to future acts of parliament and to guarantee the rights of local legislatures should not be interfered with was defeated on a vote of 78 to 24, a government majority of 46.

The discussion of the bill was confined largely to the immigration aspect of the matter, with special reference to British Columbia. Ottawa, April 4.—At the opening of the House, Hon. A. G. McCreary, member for British Columbia, moved that the bill respecting the Japanese treaty be put back to the nomination stage in which it was introduced. He moved the amendments of which he gave notice at the House last night. He said that he makes the bill apply to any future immigration legislation, while the second amendment would restrict the legislative power or authority of any of the provincial legislatures. Mr. McCreary said it was not to the point to say that the treaty was not in force in 1906, as it was in 1907. It was necessary to meet conditions existing then. Canada must be mistress of her own affairs and still maintain the principle of the right to control immigration, which was being departed from in the bill.

Hon. Guthrie said that the bill, if passed as it stands, would prevent Canada making any change in the immigration act which would have the slightest effect upon the rights of local legislatures. He said that the bill would apply to Japan and would be the immigration act as it stands today. He pronounced the bill "a gold brick for the people of British Columbia." He criticized the attitude taken by the British Columbia members on the matter with failure to carry out the Premier's promise in the resolution of 1907, which expressed regret that the government could only be protected by the forbearance of a foreign government.

The restriction of the Japanese immigration into Canada would depend upon the good faith of the Japanese government, which was not to be trusted. He said that the bill was not to be passed until the Japanese government had agreed to accept the terms of the treaty. He said that the bill was not to be passed until the Japanese government had agreed to accept the terms of the treaty.

Premier Borden said that he had answered almost all of these questions, but said that the members of the opposition did not appear to stand on common ground. Hon. Frank Oliver was a member of the government, who accepted the Japanese treaty of 1907 without reserve, but now, when the bill is introduced, he is taking a different view of the matter. He said that the bill was not to be passed until the Japanese government had agreed to accept the terms of the treaty.

Mr. Carvell said that the bill in its present form was bound by the provisions of the present immigration act as it stands today, and was not to be passed until the Japanese government had agreed to accept the terms of the treaty.

Hon. Borden said that as the matter stands the immigration of the Japanese to Canada is being regulated by the immigration act. Once this treaty goes into effect, however, nothing could be done except by the passage of legislation which would mean the practical denunciation of the treaty. The only sane policy to adopt, he said, is one of co-operation. That was a policy of the late government. It had not become the policy of the present government. It had been decided, however, to put the bill in the form of a treaty, which was a bold step in the line with the dominant party.

Mr. Michael Clark said that he was not surprised at the attitude of the government. He said that the government had been in power for three years, and they had changed their position on practically every question. Even in regard to the tariff, he said that the government had changed its position. He said that the government had been in power for three years, and they had changed their position on practically every question.

After some further discussion the Oliver amendment was defeated on a vote of 78 to 24, a government majority of 46.

LIBERALS' GOVT IDENTIFY

OF CARRIAGE IN NORTH ALBERTA

Farmers in Wetaskiwin Area Supporting the Farmers' Legislation of Government, and Are Standing Firmly by Olin

FRANK WALKER REPLIES TO VICIOUS UNTRUTHS

Two Thousand of the Rogers Brigade Are Now in Different Parts of the Province; Liberal Candidates Warned to Be On Guard Against Crooks

EDMONTON, April 4.—The campaign is now on in full swing throughout this part of the province and members of the local parties are discussing meetings every night. Excellent reports of the progress of Liberal candidates are coming in. Everywhere members of the government have had most enthusiastic receptions and their statements of the Liberal policy have met with general endorsement.

Chas. Olin, the Liberal candidate in Wetaskiwin, was in Edmonton today and he reports that in his constituency the Liberal campaign is going well. Mr. Olin has held seven meetings in various parts of the constituency and at each one he has received enthusiastic support. The farmers of the Wetaskiwin riding, he states, are more than pleased with the farmers' legislation passed by the government.

Compliments For McKay. "Today, when Mr. McKay, the running mate, received a telegram of best wishes from the Liberal press and members of the House, passed at their annual banquet. The campaign of Mr. McKay is being watched with keen interest by his many friends and political followers in Eastern Canada. McKay was five times member of the House of Commons, and his departure was a great loss to Ontario Liberals, who, however, are confident that he will be successful here as he was in the old constituency back east."

Frank Walker was nominated today by the Liberals of Victoria. In accepting the nomination he took up the attack which had been made on him through the Conservative press in which he was called a "crook" and a "liar." He said that he was a member of the House of Commons for many years, and he was a member of the House of Commons for many years, and he was a member of the House of Commons for many years.

W. A. Griesbach, Conservative candidate, returned to the city this morning after having been away on an extended trip. He was in the city for a short time, and he was in the city for a short time, and he was in the city for a short time.

Recruits are reported daily in the forces. Hon. Robt. Rogers has sent in a list of recruits, and he has sent in a list of recruits, and he has sent in a list of recruits.

Police officers are being recruited. The police officers are being recruited, and the police officers are being recruited, and the police officers are being recruited.

Political party. It was not only reckless but also very bad. The political party was the highest compliment they could pay Hon. Lemieux for the arrangement that had made with the Japanese government by which immigration from that country is restricted.

After some further discussion the Oliver amendment was defeated on a vote of 78 to 24, a government majority of 46.

LEACH IDENTIFIED AS OLD MANCHESTER RESIDENT

Suicide Was Man of High Family Standing; Funeral Will Be Held Tomorrow

The identity of a man whose body was found in the city of Edmonton, and who was identified as Leach, a resident of Manchester, England. Leach was a man of high family standing, and his suicide was a great loss to the community.

In later years, largely by reason of poor health, Leach became somewhat of a recluse. He was an expert journeyman, and was at one time an employee of the government printing bureau at Ottawa. Leach also worked in the city of Edmonton, and he was in the city of Edmonton, and he was in the city of Edmonton.

Leach was a man of high family standing, and his suicide was a great loss to the community. He was a man of high family standing, and his suicide was a great loss to the community. He was a man of high family standing, and his suicide was a great loss to the community.

VENDORS OF FROZEN FRUIT LIABLE TO PROSECUTION

Big Consignment of This Class of Fruit Being Dumped on the Calgary Market

People who are being "stung" in the purchase of frozen oranges, may legally demand a refund of their money. The vendors of this frozen fruit are liable to prosecution. A big consignment of the frozen crop from the south has recently been dumped in Calgary, and are being sold to unsuspecting customers. The fruit has a beautiful appearance, but is woody and bitter inside. Several crates were being offered for sale yesterday by second-hand dealer at \$2 per crate, and were "pitched" by the sanitary inspector.

RUSSIAN INJUSTICE IS LAID BARE BY PEASANT

ing work in Minnesota, worked in American factories, and otherwise labored steadily in the accumulation of a small competence which has now been utterly lost. The Russian peasant is a man of high family standing, and his suicide was a great loss to the community.

HOUSING RECEPTION TO PREMIER SIFTON AT HIGH RIVER

Refers to the Wonderful Expansion of the Country During the Last Few Years, and Shows the Expansion in Legislation

HOW MONEY WAS SPENT FOR ALBERTA CITIZENS

Asks for Mr. Michener's Policy in the Alberta and Great Waterways Railway; Refers to the Financial Standing of the Province

HIGH RIVER, April 4.—The people and the interests have been the sole object of consideration on the part of the Sifton government. The Premier, Mr. Sifton, has been in the city of High River, and he has been in the city of High River, and he has been in the city of High River.

The Premier said in the course of a speech, which was one of the most eloquent of his tour, despite the fact that he was suffering from a bad cold, that the government was in the interests of the people of the province, had sought to break the railway monopoly and were doing so with success. This meant much for the better treatment of the farmers and every one else in the province at the hands of the big railway corporations.

The railway competition which the Sifton government had advanced, was a great boon to the people and now the government was breaking the elevator combine and establishing a co-operative system of elevators which were owned and operated by and in the interests of the farmers. These acts of the government had brought down on them the wrath of the financiers and capitalists and the recent Farm Machinery bill, also in the interests of the farmer, had done the same thing. Yet, for all the threats of the corporations the government would not desist and appealed to the people to support the government and asked for popular support.

High River, Alta., April 4.—Premier Sifton had a rousing reception from the large audience here tonight. He opened with a reference to the city of High River, and he was in the city of High River, and he was in the city of High River.

The record of the government had never yet been challenged by the opposition. The legislation passed by the government during the past few years was passed over in silence by opposition. They knew it was right and fitting. They knew it was right and fitting. They knew it was right and fitting.

The government legislated for the farmer because on the farmer depended the success of the province. No other industry in the province was so important to the government as the farming industry. The government had faced the strenuous opposition of the capitalists and financiers, but the government had not been deterred. The government had not been deterred. The government had not been deterred.

The charge was made that the southern part of the province was neglected in the matter of railway construction. The Canadian Pacific acknowledged that it built in the south because of the railway policy of the Liberal government. The railway policy of the Liberal government was to build railways in the south. The railway policy of the Liberal government was to build railways in the south.

ENUMERATORS MEET WITH INTERFERENCE WITH THEIR WORK

(Continued from Page 1.)

election of the 17th. A summons was issued yesterday by Justice Walsh of the superior court, made returnable next Wednesday. The movement was started by Wm. George, who is claimed the election writs were not issued in accordance with the requirements of the act in that the time between the issuance of the writs and that of holding nominations is something like ten hours short of sixteen days.

Jones' Meetings Set. Meetings in the interest of Clifford T. Jones, Liberal candidate in Calgary south, have been arranged as follows: At Ogden, this evening. Speakers, Jones and J. S. Skinner. At South Calgary, Monday. Speakers, Mr. Jones, Major Duncan Stuart and J. S. Skinner. At Mount Royal, Tuesday. Speakers, Mr. Jones and W. Kent Power. At the Sub-division, Thursday. Speakers, Mr. Jones, Major Stuart and F. M. Black, of the P. B. Burns company. At Sunalta, West Calgary, Thursday. Speakers, Mr. Jones, Major Stuart and F. M. Black, of the P. B. Burns company. At Springbank, Friday. Speakers, Mr. Jones, Major Stuart and F. M. Black, of the P. B. Burns company.

Marshall Talks at Stettler. Stettler, April 4.—Hon. Duncan Marshall, minister of agriculture, delivered a stirring address at the school house at Stettler, last night in the interests of the Liberal party and the candidacy of R. J. Deschamps. The meeting was late in starting on account of the association of the school house with the opera house until after a show, which had been previously billed. Notwithstanding this fact, the meeting was a success. The speaker spoke of the good work of the government in the building of good roads, the length and breadth of the province and dwelt at length on the work of the government in the province. The speaker spoke of the good work of the government in the building of good roads, the length and breadth of the province and dwelt at length on the work of the government in the province.

THESE ARE SAD DAYS FOR THE CALGARY MILKMEN

Rigid Inspection Is On and Some Revolting Conditions Are Brought to Light

At one dairy visited yesterday the conditions were disgusting. Water from a well surrounded by pools of manure was used for watering the cattle, as well as for washing all utensils; and the stables were in a vile condition. The proprietors were given 48 hours to clean up. The Dominion slaughter operated in connection with the Western Packing plant was also severely criticised by the sanitary inspector. "The place is in a rotten condition," said Mr. Shaw, "and it is not enough to render tanks to knock one down."

ECZEMA

Also Called Tetter, Salt Rheum, Freckles, Milk-Crust, Weeping Skin, etc.

ECZEMA CAN BE CURED TO STAY, and when I say cured, I mean just what I say—CURED, and not merely patched up for awhile, to return worse than before. Remember I make this broad statement after I have treated twelve years of my time on the subject of this disease, and I have seen hundreds of cases of this disease, and I have seen hundreds of cases of this disease, and I have seen hundreds of cases of this disease.

BRIDGE ACROSS CANAL RAISING BUMPS OF PROPORTIONS

Acting-Mayor Ross Declares War Against Local Officials of Canadian Pacific

"If the action of local C.P.R. officials in refusing to replace the bridge over the irrigation canal is to attempt to coerce people employed by the C.P.R. to live on the west side of the ditch, the city council will make this a pretty live question, and carry it further up the heads of the C.P.R. and acting Mayor Ross, yesterday after a meeting of the commissioners at which the matter had been discussed. The commissioners have authorized Commissioner Samis to take the matter up with General Superintendent Price, and to endeavor to have a bridge built over the canal.

The interpretation given to the agreement of the city and the C.P.R. last year, by the C.P.R. officials, is vague and uncertain. The C.P.R. engineers now contend that the agreement was conditional upon the settlement of the territory to the west of the canal, and that a bridge will be constructed only when there is sufficient demand. This, the Acting Mayor, who introduced the resolution, is an unfair one, as the settlement of the land in question is contingent upon the presence of the bridge, while there is no bridge no C.P.R. employees will be able to avail themselves of the four hundred dollar lot and cheap rents, northeast of the canal, but to live in those subdivisions to the east of the city, where land is selling at \$150 per acre. It is an unfair deal, says Ald. Frost.
