

Like a New Man

"For five or six years I had Dyspepsia in its worst form, sometimes completely prostrated; so much that it was impossible for me to work more than half an hour at a time. I had tried various remedies but did not receive any benefit, when I was recommended by a friend to try Hood's Sarsaparilla. I have taken two bottles and feel like a new man. I can eat and drink anything and enjoy my food. I never feel better. I cannot praise Hood's Sarsaparilla too much for not only has it cured me of dyspepsia but also of rheumatism." PLEADING FOR CHATTELLE.
Stratford, May 17.—The case of Chatelle, the murderer of Jessie Keith, sentenced to be hanged on May 31, has taken a new turn. H. M. East, the Toronto lawyer, who came up from Toronto, but whose services were declined by the murderer, has submitted a contention to the Department of Justice that the man is afflicted with a peculiar form of insanity mentioned in the works of a German expert, and that he was therefore irresponsible for his crime. The question will doubtless be submitted to Chief Justice Armour, the trial judge, in accordance with the practice of the department, and on the receipt of his reply the executive will come to a decision.

202½ DUNDAS STREET.

DIED SUDDENLY.

Engineer George Angles, G. T. R., Sick Only a Day.

Heart Trouble the Cause—Quarter of a Century on the Road—Deceased's Only Brother Harry Killed in the St. George Accident.

Mr. George Angles, G. T. R. engineer, 473 Gray street, is dead, aged 42 years. Mr. Angles was in fair health on Wednesday morning when he made his regular trip to Niagara Falls on engine No. 26. Returning on Wednesday night Mr. Angles felt unwell. Yesterday he walked to the office of his physician and consulted him. He returned home, and rapidly became worse. Death is supposed to have been due to obstruction of the valves leading to the heart.

George Angles was born in the State of New York, and when about 5 years of age came to the city with his parents, Samuel and Mary Angles, of Grey street. He entered the employ of the Grand Trunk nearly 25 years ago and steadily advanced until he was appointed engineer. In this position he was considered one of the company's most competent men. Deceased was a member of the Canadian Order of Foresters, Canadian Order of Chosen Friends and the Brotherhood of Locomotive Engineers. He leaves a wife and five children. Mr. Angles' only brother, Harry, was a fireman on the Grand Trunk, and received fatal injuries in the St. George accident. The funeral takes place on Sunday afternoon at 2:30. Mr. Angles was an estimable man and popular with his friends.

TOOK AN OVERDOSE,
And James Stewart Went In'o Convulsions and Died.

Was Doctoring Himself for Rheumatism—A Faithful Servant of Mrs. John Cooper.

Dr. Ferguson, coroner, is holding an inquest this afternoon into the circumstances surrounding the death of Jas. Stewart, an elderly man servant of Mrs. John Cooper, who resides on the river side just above Springbank. Mr. Stewart was a man of about 55 years of age, and was well known in this city. He had been in Mrs. Cooper's employ since before the death of Mr. Cooper, several years ago, and was a trusted and faithful servant. Lately he had been suffering from rheumatism, and to alleviate his distress he took a dose of some drug that he had previously used with good effect. He must have taken an overdose, as he almost immediately went into convulsions. Mrs. Cooper was alone at the time, her daughter being absent on a visit, and when Mr. Stewart went into convulsions Mrs. Cooper was very much scared. It was between 8 and 9 o'clock in the evening, and she went and screamed for aid. A neighbor came, and a doctor was telephoned for from Woodland Cemetery. When he arrived, however, the old man was dead.

Deceased was a native of Carleton Place, Ontario, and had a wife living. He was of frugal and temperate habits, and is said to have saved a neat sum of money.

IN THE WEST.

Word from the Northwest Territories About a Marvel of Modern Science.

Calgary, May 15.—The fame of Dodd's Kidney Pills has spread all over the Northwest, and they have come into universal use, being found in almost every farmhouse and village throughout the territories. The cures of Kent, Drs. Rose and McCormick, Rymal, Fish, and dozens of others have been eagerly read, and have consequently produced a large demand. People are becoming convinced that a very large percentage of disease may be traced, as it was in these cases, to the action of the kidneys in failing to do their proper work and inducing rheumatism, paralysis, Bright's disease, diabetes and blood poisoning.

London, May 17.—Great interest was evinced in what is practically the opening of the yachting season. QUEEN MARIE'S NARROW ESCAPE.
Lisbon, May 17.—Queen Marie had a narrow escape yesterday from being crushed to death. King Carlos and the Queen attended a bull fight, and while the performance was going on, a flagstaff near the royal box broke, and fell between their majesties. The heavy pole grazed the Queen, but fortunately she escaped without injury. The accident caused a great sensation, and the anxiety was not relieved until it was announced that the Queen was unhurt.

BOYCOTTING THE POPE.
London, May 16.—The Pope's letter to the English people was sent to the Times for publication, instead of to one of the recognized news agencies. The letter has consequently been boycotted by the Daily News, the Standard, and the Daily Telegraph, thus losing half a million readers. A good many Catholics are inveighing against Cardinal Vaughan for this display of favoritism. It is not by such methods, they tell us, that the Catholic Church has won popularity in the United States.

Already the Ministers of War, Finance and Railways are preparing calculations which, when the objects are achieved, will put Russia in a position to throw large bodies of troops into the heart of India, where she knows she will find allies in the races opposed to the English yoke.

TWIN FRAUDS.

In a riding with which I am acquainted, there is set down in the census, under the head of pulp and windmill factories, two new industrial establishments to swell the increase. What is the number of hands employed? One hand employed in the two mills, and his yearly wages are \$100. One hundred dollars for one man to run two pulp factories for the whole year, or 33 1-3 cents per day for each working day. The honorable Minister laughs, but it is no laughing matter. Let me ask him, in view of the promises made with reference to the National Policy, does he honestly think the National Policy made that man rich? Does he honestly believe that those operatives, of whom my honorable friend from South Oxford gave the list, who are working, some of them, at as low as 4 1-2 cents a day, have been made rich by the National Policy? If not, I ask the honorable gentleman to explain the reason why. He claims that it has made some people rich. I ask him by what sense of justice he dares to place on the statute book a law to make some men rich and to give to others from 5 to 33 cents a day? That is a question for him to answer. Sir, these people who are earning this small pittance are Canadian subjects and entitled to the same consideration at the hands of the Government as other Canadian subjects; and if it be true that the Government have made certain people rich by their policy of the reduction of others to the position in which the census figures show them to be, the iniquity of their policy is manifest on its face, and, instead of lauding that policy, honorable gentlemen ought to make some amends for the injustice they have perpetrated by wiping it from the statute book.—W. Paterson, M.P., in the House of Commons.

COTTON MILLS—DIVIDEND NIL.
Montreal, May 16.—The Canadian Colored Cotton Mills Company held its annual meeting this afternoon, A. F. Gault, president, and the old board were re-elected. The net earnings for the past six months were \$126,000, but the working of the previous half-year showed a deficit, the amount of which was not made public. No dividend was declared, and the meeting was held behind closed doors.
