AUSTRALIA FOR **AUSTRALIANS**

Trade Policy of the New Commonwealth.

Preferential Tariff Toward Britain-Conciliation Bill in Labor Disputes-Woman's Suffrage and Asiatic Exclusion.

London, Jan. 30.—The opening of the Federal election campaign in Australia has called forth a speech from the Premier, Mr. Edmund Barton, dealing with the trade policy of the Comonwealth.

At a large public meeting held in Maitland Mr. Barton said that the Federal elections would be held at the earliest possible date that the State machinery and statutes permitted, the Federal capital would early be decided on and Parliament would soon desire to have a House of its own. He did not believe that Parliament could be carried on either in Melbourne or in Sydney uccessfully, as it must be removed from surrounding provincial influence. The customs were taken over on Jan. 1, and the defenses and postoffices would be transferred as soon as possible. Probably the railways would be acquired by the Commonwealth at an early date. Whether the debts of the several states would be taken over before the railways was a matter which had to be decided, and was now engaging the attention of the treasurer. The ministry would not consider the appointment of a chief justice of the high court until parliament had established that

Coming to the questions of taxation. Mr. Barton said that when a uniform tariff had been imposed, the Commonwealth would have the exclusive power of imposing customs and excise duties, and it would, therefore, be neces-Sary to preserve the states' power to direct taxation. The must be no diexcept under very great pressure. Free Commonwealth trade under the constitution was practically impossible; there must be a very large customs revenue. Among the legislation to be intro-duced at an early date, Mr. Barton continued, were a conciliation and ar-bitration bill in labor disputes, and a pointment of two members of the counoill for a transcontinental railway, which would be of great value from the defense point of view. He was in favor of womanhood suffrage. Legislation to exclude Asiatics would be taken in hand, as a matter of course Mr. Barton's speech was frequently

That Dives Beneath the Waves to Escape the Effects of a Storm.

New York, Jan. 30 .- One of Uncle Sam's new diving boats is about to start on a trip across the ocean, to visit Germany, France and England. Part of the way the ship will sail along on top of the water, but when the blows hard and the waves are high the captain will order everything closed up tight, turn his rudder, and dive down under water so deep that the storm will not be heard of felt. This boat is called the Holland, after the man who built her. She is like a cigar in shape, 80 feet long. She is pointed at each end. There are great tanks, carrying air, for the sailors to breathe, and when everything is closed up tight the ship is moved by electricity, which is also stored away and kept until it is needed.

LOTTA CRABTREE SERIOUSLY

ILL. New York, Jan. 29.—The Journal and Advertiser says: Miss Lotta Crabtree, the actress, is seriously ill at Hotel Navarre, this city. Her illness is due to ptomaine poisoning caused by something she ate last flat-

THE ROOT OF THE MATTER.

He Oured Bimself of Serious Stemach Trouble Down to First Principles.

A man of large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners, finally began to pay nature's tax, levied in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability making it impossible to apply himself to his daily business, and finally deranging the kidneys and heart.

In his own words he says: "I consulted one physician after another, and each one seemed to understand my case, but all the same they each failed to bring about the return of my former digestion, appetite and vigor. For two years I went from pillar to post, from one sanitarium to another, I gave up smok-ing, I quit coffee and even renounced my daily glass of beer, but without any

"Friends had often advised me to try well known proprietary medicine, Stuart's Dyspepsia Tablets, and I had often perused the newspaper advertisements of the remedy, but never took any stock in advertised medicines nor could believe a 50-cent patent medicine

would touch my case.
"To make a long story short, I finally bought a couple of packages at the nearest drug store and took two or three tablets after each meal, and occasionally a tablet between meals, when I felt any feeling of nausea or discom-

"I was surprised at the end of the first week to note a marked improvement in my appetite and general health, and before the two packages were gone I was certain that Stuart's Dyspepsia Tablets was going to cure completely, and they did not disappoint me. I can eat and sleep and enjoy my coffee and cigar, and no one would suppose I had ever known the horrors of dyspepsia.
"Out of friendly curiosity, I wrote to

the proprietors of the remedy, asking for information as to what the tablets contained, and they replied that the principal ingredients were aseptic pepsin (government test), malt, diastase, and other natural digestives, which digest food regardless of the condition of the stomach."

The root of the matter is this, the digestive elements contained in Stuart's Dyspepsia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nerves and whole system receive the nourishment which can only come from food; stimulants and nerve tonics never give real strength; they give a fictitious strength, invariably followed by reaction. Every drop of blood, every nerve and tissue is manufactured from our prompt action and complete digestion by the regular use of so good and wholesome a remedy as Stuart's Dys-pepsia Tablets, you will have no need of nerve tonics and sanitariums.

Although Stuart's Dyspepsia Tab-

lets have been in the market only a few years, yet probably every druggist in the United States, Canada and Great Britain now sells them and consider them the most popular and successful of any preparation for stomach trou-

St. Thomas Journal: W. E. Williams, of this city, has been engaged since Jan. 1 in baling hay on the premises of Alex. Russ, Yarmouth township, near Sparts and has just finished the work.

The total product of hay from Mr. Russ' farm, which was stored in one barn, reaches the big total of 120 tons, and Mr. Williams says that he knows of ne farmer hereabouts who has grown a greater quantity. Mr. Williams further says that there was not 100 po of bad hay in the lot, which speaks well for the quality of the land and for Mr. Russ' harvesting. The hay has been shipped to Glasgow, Scotland, and Mr. Williams has orders to send 100 more tons to the same destination Mr. Russ received \$7 a ton for the hay, or \$910 for the barn full.

Meeker, Col., Jan. 30 .- Special to Chicago American.—Col. Roosevelt, according to the latest story from the Keystone ranch, yesterday shed tears, tears of genuine grief. Doster, the leader of Guide Goff's pack of hounds, was badly injured during an encounter with wolves Thursday night and died

the next morning.

The dog had become much attached to Roosevelt, and the latter was vis-ibly affected. He nursed the suffering brute as a woman would care for a sick child, and the dog's mute attempts to express his gratitude were pathetic. Doster was buried with fitting ceremony, and Col.
