Hood's Sarsaparilla relieves all the distressing symptoms of dyspepsia because it promotes the muscular action of the stomach and intestines, aids nature in the manufacture of her own digestive secretions, which are far better than any artificial pepsin, unlocks the bowels, stimulates the kidneys and tones up their mucous membranes.

So prompt is its effect in many cases that it seems to have almost

a magic touch. Begin to take it NOW.

School Trustees Approve Chesley Avenue Kindergarten.

OPENS MONDAY

Lengthy Discussion Over the Appointment of New Teachers-Other Matters.

The proposal of Trustee English to have a kindergarten established on Chesley avenue, was adopted by the board of school trustees at their meeting last night, although it was opposed strongly by Trustee Birtwistle, who was quite satisfied that the school was not needed.

Trustee English's motion, that the school should be prepared so that it could be opened on Monday next, was almost unanimously carried.

A tedious discussion arose over the appointment of teachers for this school. On recommendation of Inspector Carson. Misses Matthews, Wyatt, McDermid and Wrighton were nominated. As a result of the vote, Miss Wrighton was appointed director of the new school, with Miss Johnston as assist-

The inspector recommended that Miss Westman be placed in the position of Miss Moore, of St. George's school, who resigned, and that Miss Claypole succeed Miss Wrighton, of the same school. His recommendation

was adopted. The flag-pole rope having been stolen at Colborne street school, Mr. S. J. Latta, the principal, asked that the board buy a new one, Mr. Latta stating that the school were desirous of having the flag hoisted on Victoria Day. The matter was referred to No.

Misses Ethel Johnston, Hattie Westnan and Grace Claypole asked for positions on the city kindergarten teaching staff. Referred to No. 1.

Miss Etta Moore's resignation from the city kindergarten teaching staff, was accepted, to take effect on May 30. Applications were made for positions on the city teaching staff by J. W. Brown and Miss May Childs. Referred to No. 1.

The Collegiate Institute's invitation to the board to attend their football matches was filed.

Principal Radcliffe's monthly report showed that there are 482 pupils on the roll of the Collegiate Institute, with an average attendance of 435; in the commercial school 75 pupils are on the roll, with an average attendance of 66. 557, with an average attendance of 501, an increase of 45 over April, 1901. Lieut. W. Gregory's application for the position of physical director at the high school was, on Trustee MacRobert's motion, granted; and Mr. W. A. McCrimmon's request for a year's leave of absence to go to South Africa,

was laid over for a year. Col. Peters was present, with a view to obtaining a grant from the board to promoting rifle practice among the Collegiate cadets. In other cities, he said, this had been done, and his plans had met with approval from various other school boards. The matter was referred to No. 1 committee. Trustee Evans moved that No. 2 committee be empowered to open tenders for sidewalks at Victoria school.

Trustee Birtwistle moved his resolution to have a special meeting of the fer the Legion of Honor on Admiral board to discuss the whole educational system. He asked, however, that the matter be allowed to stand over till next meeting.

JUST THE THING THAT'S WANT-ED.—A pill that acts upon the stomach and yet is so compounded that certain ingredients of it preserves their power to act upon the intestinal canals, so as to clear them of excreta, the retention of which cannot but be hurtful, was long looked for by the medical profession. It was found in Parmelee's Vegetable Pills, which are the result of much expert study, and are scientifically prepared as a laxative and an alterative in one.

## 713 PERSONS IN 1900

According to U. S. Meteorological Reports-Places of Greatest Peril.

Washington, May 7.-Alfred J. Henry, professor of meteorology of the weather bureau, United States department of agriculture, has published a bulletin relating to the loss of life by lightning. The number of persons killed by lightning during 1900 was 713; of this number 291 persons were killed in the open, 158 in houses, 57 under trees, and 56 in barns. The circumstances attending the death of the remaining 151 are not known. Nine hundred and seventy-three persons were more or less injured by lightning during the year.

The greatest number of fatal cases occurred in the Middle Atlantic States, and the next greatest in the Ohio Valley and Tennessee, with the Middle and Upper Mississippi Valley a close third.

The following rules are laid down with regard to an individual struck by lightning: (1) Make the subject breath by artificially imitating the respiratory movements of the chest. (2) keep the body warm. (3) Send for a physician.

ENGINEER DAZED BY LIGHTNING Battle Creek, Mich., May 6.-Engineer Brown, who ran his train through several towns at lightning speed yesterday, greatly frightning his passengers, is perfectly rational today, and the attending physicians say there is every evidence that Brown was struck by lightning and had full knowledge of what he was doing, al-though he could hardly stick to his The physicians deny emphatically that Brown is a drinking man.

and took possession of a bamboo church there. They had hardly settled themselves in the church when 300 insurgents attacked them with bolos and daggers. The insurgents were routed. Twelve were killed and two captured.

INSURGENTS SURPRISED. "The prisoners told the location of the insurgent army and agreed to act as guides. The entire command was ordered out; the insurgents taken by surprise, 300 of them killed and 1,000 taken prisoners, including a priest who was their general.

"This band proved to be a secret organization known as the Katipunan. The priest assured the members that if by any chance a Yankee bullet did kill them they would come to life again in three days. There was nothing to do but to kill them.

SHOT DOWN IN SQUADS. This was done by squads. Every morning three squads of 20 men each The total number in both schools is were sent out under guard and after they had dug a trench they were told to stand up. Friends of the officers directly concerned assert that the president's decision was due to a wish to further humiliate them, and this time make the humiliation interna-

Whatever may have been the reasons controlling the action of the president, it is certain that France will not now award the cross to either officer. In view of the fact that congress is empowered to determine whether an officer of the government shall receive a decoration from a foreign government, the president is considered to have overstepped his power.

SOO CANAL BUSINESS FOR APRIL

BREAKS THE RECORD. Sault Ste. Marie, Mich., May 6. -The statistical report of the canals for April, made public today, shows the month was a record-breaker. The freight tonnage amounted to 2,339,234, an excess over month last year, and an increase over the total amount for the entire year of 1892. The principal items of freight were: 1,862,064 bushels miscellaneous bushels wheat and 657,404 barrels flour.

There was not much evidence on Wall street on Tuesday for the disturbed conditions of the previous day. There was a very general conviction that the worst was known of the result of the collapse of the Webb-Meyer exchange house.

THERE IS danger in neglecting a cold THERE IS danger in neglecting a cold. Many who have died of consumption dated their troubles from exposure, followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumptive Syrup, before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.

Mann and Lipman in "All on-Account of Eliza.

"All on Account of Eliza," with Louis Mann and Clara Lipman out of it, would be only a common farce, and probably a vulgar one at that. With these two clever people in the cast, it proves one of the most entertaining productions which has been seen at the Grand this season, and no more hearty or spontaneous laughter has been evoked by any piece of the year than was heard last night. The portions of the play which would in other hands be suggestive and displeasing, were handled by Mr. Mann and his associates, with a naturalness that made

hem devoid of offense. Mr. Leo Ditrichstein, the playwright, has laid on his colors too thickly for the production of a comedy, and with truthfully drawn, the result is a group interesting county types. The charac- sions the house should be crowded to ter-drawing has been all overdone, the doors. and this is one reason why the play will probably make no permanent mark

in theatrical annals. Mr. Mann was inimitable as the kindly old German-American who found his supply of English all too inadequate to express the thoughts evening, will be the introduction of a formed in his active brain, and his number of old-time English and formed in his active brain, and his struggles with the intricacies of the Scotch ballads by Armagh O'Donahey, Anglo-Saxon tongue were excruciatingly funny. His efforts were ably seconded by his wife, Miss Clara Lipman, who gave an excellent portrayal of the little school teacher, who had earned the hatred of all the jealous females of the village, but on whose side all the men arrayed themselves. Two such clever artists as Miss Lipman and Mr. Mann may expect a heartier welcome on their next visit to this city. The supporting company was a fair-

ly good one, those worthy of mention being Walter D. Greene, as Walter Hochstull, Wm. F. Carroll as Joshua Appleton, Edward See as Jeremiah Haskins, Miss Jennie Weathersby as Mrs. Appleton, Miss Lillie Hall as Mrs. Haskins, and Miss Louise Sydmeth as Delia Coventry.

#### A Physicians Testimony - For Labatt's Stout.

ALEXANDRIA, DEC., 20th. 1901. Speaking from personal experience I can state that your Stout is excellent in building up the system-I was very much run down and was advised to use Labatt's Porter-this I have done for some time and I largely attribute to its effects my steady improvement in strength and weight. I deem it but justice to you, and it certainly is a pleasure to me, to add my testimony to its sterling qualities, and I gladly recommend your Stout as an excellent tonic and food in cases where such is required. JOHN LABATT, Esq., Brewer, London, Ont.

Yours truly, C. S. TIFFANY, M.D.
