SAVES NINE."

RUBBER

12 KING-ST. WEST

It is not our intention at this time to un fairly condemn our public school system, nor is it our wish to harshly criticise the conduct or ability of our public school teachers, who for hours each day have the control of our children; but simply to show that at present there are thousands of school children in Canada who are almost neglect-

deserve. This is owing to a want of tact on the part of the teacher, and a lack of thoroughly understanding human nature, qualities which every successful teacher should possess.

We find in every school a class of scholars known as "dullards," whose perceptions are addicioned in rapidity, and whose mental powers are sluggish. Such pupils need especially the spur of encouragement, and should never be subjected to blame or derision on account of their slownes. Many teachers often greatly er them is not class of pupils, applying to them such names as blocked. All the successions of the structure of the casher who naturally prefers there is no part of the succession of the structure of the first structure. They are often neglected by the teacher, who naturally prefers there is no part of the structure of their stowness. Many challenges the existence of this class of pupils applying to them such names as blocked and the succession of the structure of the first structure. The prefers the structure of their stowness and the succession of the structure of their stowness and the structure of their stowness are derision on account of their stowness. Many teachers of the structure of their stowness and death before the case was called the structure of their stowness and the structure of the structure of the structure of their stowness and the structure of their stowness and death before the case was called the structure of their stowness and death before the case was called the structure of their stowness and death before the case was called the structure of their stowness and death before the case was called the structure of their stowness and death the structure of the structure of the structure of the structure of their stowness and death before the case was called through the structure of the structu

they have headache, dizziness, chilliness, palpitation of the heart and general restlessness, they are in a fair way to develop St. Vitus Dance. To remove these troubles, to strengthen your children's nerves, to build up the flesh, to make muscle and give a clear brain, you must use that unfailing remedy. Paine's Celery Compound. This course of treatment if faithfully pursued will certainly take your children out of the "dullard" class and give to them a healthy brain action to actively nursue their studies with safety and and give to them a healthy brain action to actively pursue their studies with safety and for nothing, after having paid for his burial for nothing, after having paid for his burial

UP AT THE HALL.

Some Minor Matters Heard in the Higher

In the action of William G. Osgoodby of The Canadian Queen against the Toronto cent two mile championship by a terrific Street Railway Company; the master in burst of speed on the latest importation chambers refused to make an order for the of Pneumatic Safeties, built by the Rudge examination of the car driver for discovery Company, easily defeated the local wheel the car and he is the person who should be style of tyres. He was, therefore, looked

Liain in jail till the January assizes, when his case will be tried.

tain in jail till the January assizes, when the tain in jail till the January assizes, when the tain in jail till the January assizes, when the tain in jail till the January assizes, when the tain in jail till the January assizes, when the tain in the chief Justice of Huson and the township of South Norwich a motion was made to Chief Justice Galt to rehear the motion regarding the validity of the Local Option by law. This was the first case in which the question of the act being valid came up and the chief justice declared the act ultra vires.

The Court of Appeal differed from the learned chief justice and declared the act valid. His Lordship refused to hear the application again, as the matter had been appealed, and referred the parties to the Court of Appeal, as the ruling of the Court of Appeal upheld the Ontario Act but not those of the municipalities. The motion in Oatman and South Oxford License Commissioners came up but was enlarged till Tuesday. Oatman, a resident of the municipality, asks to have certain resolutions passed by the License Commissioners declared invalid as not having been passed within the time required by the act. The resolutions moved against prohibit treating, tippling and moderate drinking in the saloons to which licenses are granted.

Kol Nidre.
