INTERNATIONAL BELT LINE.

Toronto Capitalists Interested in a New Electric Line at the Falls. Niagara Falls, N.Y., June 11.—W. M. Kyle of Toronto is in the city talking up the project of an international electric railway belt line. Mr. Kyle represents a large number of Canadian capitalists, and is confident that his railroad scheme will are long be a reality. sents a large number of Canadian capitalists, and is confident that his railroad scheme will ere long be a reality. If the plans already made do not miscarry, trolley line will start from the foot of Bridge-street, Niagara Falls, Ont., and run along Bridge-street to the cemetery, thence across the country to the old horse car line in Drummondville. The line Will then run along Lundy's Lane to Falls View, back over the route of the old line to the Michigan Central Railway Station at the top of the hill back of the Clifton House, thence down the hill past the Clifton House to the Canadian end of the new Suspension Brodge. Arrangements are now in progress for the building of a second bridge adjoining the present structure for the accommodation of double trolley tracks. If satisfactory arrangements can be made with the bridge company, the line will proceed to this side, where arrangements can probably be made for running over existing lines to the railway suspension bridge. At this point the line can recross to Canada, the point of beginning, forming a complete belt line. It is also proposed to build a branch line from the Grand Trunk Railway Station at Niagaar Falls, Ont, to St. David's, and thence to the Whirlpool. Mr. Kyle says that the right of way for the Canadian portion of the road has been secured, and his visit to the city to-day is for the purpose of interesting local capitalists in the scheme.

East End News. The long-talked-of garden party of St. Matthew's took place yesterday afternoon and evening in the newly laid out grounds adjoining the church in First-

Several marquees were erected on the ground and there was a liberal display of bunting and streamers. In the candy stand, Mrs. Brickenden presided and did a splendid trade. Mrs. Thompson was in the ice cream and soda water tent and had a constant stream of customers, while Md'mes Gard, Race and Summerhayes presided at the two tables. Among the visitors were the Revs. F. G. Plummer, Webb, J. Usborne, J. Beacker, J. Scott Howard, Alderman Frankland, James Jupp and a great number of others. The band from the Mimico Industrial School played during the evening. The grounds were beautifully illuminated with colored lamps and Chinese lanterns. ese lanterns.

The Queen-street east Presbyterian Church had their annual excursion yesterday, the place selected this year being St. Catharines, whither they repaired by the steamer Garden City. Everyone en-joyed themselves,

Fish Culture Men in Convention. New York, June 12.—Members of the State Fish Commission and people interested in fish culture from all over the country are attending the 24th annual meeting of the American Fisheries Society, which began to-day in the Aquarium at Battery Park.

Out of Sorts.—Symptoms, Headache, loss of appetite, furred tongue and general indisposition. These symptoms, if neglected, develop into acute disease. It is a trite saying that an "ounce of prevention is worth a pound of cure," and a little attention at this point may save months of sickness and large doctor's bills. For this complaint take from two to three of Parmelee's Vegetable Pills on going to bed, and one or two for three nights in successioon and a oure will be effected.

Hyphenated names in Europe may be divided into two categories—namely: those wherein the hyphen is a mer those wherein it is consequent upon a legal obligation. The latter are in the minority and are borne almost invari-ably by legatees and their descendants, who have inherited property, usually ing the name of the testator on to their ewn. Or else they are men who have married heiresses had been accepted as husbands for the latter on the condi-tion that they should append the family me of their wives to their own patronymic.

the hyphen merely with the object of creating the impression that they are of more ancient lineage than is really the case invariably prefix, instead of appending, the additional name. And it is this that enables one to distinguish the "bona-fide double-barrel," call them, from those who are not. For you have only to ask Mr. Ponsonby ones for the name of his paternal grandfather in order to find out that the old gentleman was a simple Jones, devoid of the aristocratic Ponsonby wherreas, in the case of surnames ad opted in deference to testamentary dispositions one will invariably find or inquiry that the paternal grandfather and ancestors bore the first of two patronymics.

The persons who make use of hyphenated names without being com-pelled to do so are usually the owners of patronymics excruciatingly plebian who hope, vainly, it is true, to redeen the commonplace character of their name by prefixing thereto one calcu lated, they trust, to create the impression that they are conneced with some of the great houses of the Thus it is quite common to find Mon morency-Smiths, Plantagenet-Robinsons, and Vere de Vere-Browns. morency-Smiths.
