

HOW MRS. BOYD AVOIDED AN OPERATION

Canton, Ohio.—"I suffered from a female trouble which caused me much suffering, and two doctors decided that I would have to go through an operation before I could get well. My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before submitting to an operation. It relieved me from my troubles so I can do my house work without any difficulty. I advise any woman who is afflicted with female troubles to give Lydia E. Pinkham's Vegetable Compound a trial and it will do as much for them."—Mrs. MARIE BOYD, 1421 5th St., N. E., Canton, Ohio.

Sometimes there are serious conditions where a hospital operation is the only alternative, but on the other hand so many women have been cured by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, after doctors have said that an operation was necessary—every woman who wants to avoid an operation should give it a fair trial before submitting to such a trying ordeal.

If complications exist, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice. The result of many years experience is at your service.

Germany Pays The Price

Berlin dispatches report that an epidemic of kleptomania is sweeping over Germany. Naturally, the Germans started out in 1914 to clean out Belgium and France, and throw away millions of lives of their own and other nations in order to attain their ends. They were so determined and systematic in their work that they used every known manner of transportation to steal what belonged to others, and excused it in the name of war whenever they attempted an excuse, which was not often so long as they were winning. Back of the long line of robber armies a whole nation applauded the thefts of clothing, machinery, money, household utensils, works of art, and men, women and children who were sent into Germany with the inanimate things, there to be used as slaves.

Germany is paying the price now. She was warned over and over again that not only would military and material loss be hers in the end, but that moral degradation would sink her to the depths. Her road to national regeneration will be long and rough.—The Globe.

Are You Fully Insured

There is much force in the following from the Port Rowan News: The increase in the cost of building, the cost of furniture and of merchandise of every kind has given the fire insurance business quite a lift. Men everywhere are asking themselves, "Could I rebuild if my house were destroyed by fire?" All of them want more insurance. It would cost at least \$7,500 a room to build a school house, or \$45,000 to rebuild in Port Rowan, should the present school buildings be destroyed. This would be nearly \$5.00 for every man, woman and child in the place. The war debt of England is just twice as much per capita, and the war debt of Canada about half as much. This will give some idea of the seriousness of the situation. The old building should be insured, not for two-thirds of its original, but for two-thirds of its present day value.

Horses Here and Abroad.

Although the number of horses on farms in the United States has decreased of late owing to the auto truck, farm tractor, the automobile and the demands of war, there are almost as many horses in the country as a year ago.

If a horse throws up his head with nosebag on and loses a lot of his oats, put the head-collar on outside the nosebag, says Major R. S. Timmins, D.S.O., in his "Notes on Horsemastership." If this fails to do good, tie a rope from the head-collar jowling to a girch, similar to a standing martingale, while the horse is feeding; or shackle it to one foreleg just above the knee.

Horse Not Always at Fault.

The horse often is not to blame for the runaway. Sometimes it's the fault of the driver, and sometimes it's the neglect of the man who should be sure the harness is in good repair and properly adjusted.

A Witness Testifies SHE WAS WEAK AND NERVOUS

Brampton, Ont.—"About five years ago I began suffering with woman's trouble. I became all run-down, weak and nervous. I was so completely down and out that I could not do anything, could scarcely dress myself. I had the doctor and took other medicine but without getting better until I began taking Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. It was only necessary for me to take about three bottles when I was completely restored to health and strength and I have been in better health than I ever was before. I have had no use for medicine since, but should I need it I would take these same remedies, knowing them to be excellent."—MRS. HARRY KNIGHT, Jessie St.

OWES HER LIFE

Ft. Saskatchewan, Alta.—"It is with great pleasure that I write the following and I hope it will help the many sufferers who do not know the good Dr. Pierce's medicines would do them if they would try them. In regard to my condition, I will say that I suffered from childhood from a very weak back; I had the misfortune of having spinal meningitis when I was one year old and until I was 13 I did not see a well day, but a very kind lady told my mother about Dr. Pierce's Favorite Prescription and she got a bottle to try it. It did me so much good that mother got me 6 bottles. Recently I happened with a car accident and hurt my back badly. My doctor gave me up and said I would not live, but I still stick to Dr. Pierce's Favorite Prescription and to my surprise in three weeks I was out of bed and better. I owe my life to it and nothing else, and shall never be without it. "If any sufferer wishes to write I will answer with pleasure."—MRS. NOEL BARTHOLOMEW.

New Triplex Springs Iron Out the Wrinkles of the Rough Roads

THE wrinkles of rough roads seem smoothed out completely by the wonderful springs of Overland 4.

These springs hold the wheels to the road, while the passengers ride in even comfort. The astonishing qualities of these diagonally attached Triplex Springs have created an utterly new conception of light car riding ease.

Best of all, this heavy car kind of comfort is now obtainable with economy in fuel and tires and remarkably low upkeep cost.

Overland 4 is started and lighted by two-unit electric starting and lighting system. It has rain-vision windshield and unit power plant. It is equipped with all the latest car essentials and conveniences.

TRACTOR WON'T JUMP FENCES

Some of the many arguments in favor of the tractor are given as follows in Farm Life:—

It will not bite, balk or run away. It will not shy at a loose scrap of paper in the road. It will not kick the stall at night and keep the tired farmer and his wife awake. It will not crib the manger.

It will not break out of the barn at night, jump the fence and eat the neighbor's cabbages.

It will not lie down in a particularly moist spot in the barnyard, roll over on its back and elevate its four feet into the air.

It does not have to be curried, sponged off or treated with horse liniment.

It is not addicted to colic, cough, heaves, spavin or wind-gall.

It will not snort in your ear or whisk its tail in your face.

You do not have to pull on the lines and holler your head off when you want it to stop.

It does not "up and die" just as the spring work is coming on.

Maple Sugar

Sugar, 16 cents per pound. Neither United States nor Canadian refineries can control the situations.—Board of Commerce report.

The maple groves of Canada offer a potential crop of home-grown sugar, which may be made available to relieve the shortage of imported supplies. The days of warm sunshine and the cold nights will soon bring the sap up into the trees. It is well to be prepared for an early sugar season, by having all equipment ready.

The high price of sugar will undoubtedly create a largely increased demand for maple products. Heretofore, the latter have been considered more of a luxury by the general public, but, in the portions of Canada where maple sugar is produced, it is generally found upon the table, in graded form, taking the place of imported sugar and is being used more and more in the confectionary trade and a considerable export trade is developing.

Canada protects her manufacturer of maple products. Under the pure

food law the name "maple" cannot be used for any substance unless it is the product of the maple tree. This is a protection to the producer as well as to the buyer of maple sugar and maple syrup.

The sugaring season comes at a time when very few other farm duties are pressing. This time should be employed, and with excellent advantage, in the maple grove, thus adding to the farm income.

CASTORIA

For Infants and Children
In Use For Over 30 Years

Always bears the Signature of *Dr. J. C. Watson*

Italy is considering a tax on laziness, which, if strictly enforced in any country, would go a large way toward wiping out the war debt.

As a vermifuge there is nothing so potent as Mother Graves' Worm-Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.
