IMPORTANT NOTICE to FARMERS and STOCK HOLDERS

After another season's experience at silo filling with our

BLOWER ELEVATOR

We offer this machine with even greater confidence, having filled upwards of 70 silos this season, leaving no room for even the shadow of a doubt as to its success.

It may be that some other make of Blowers have been tried in your neighborhood and proved a failure, the makers not understanding the A B C of the first principle of the construction of an Elevator Blower.

We claim to be the first and only successful makers of this machine.

ALL INFRINGEMENTS ON OUR PATENTS WILL BE PROSECUTED.

We manufacture the best line of Feed Cutters, Rippers, in 3 sizes, and Concave or Convex Knife Machines, Corn Shellers, 2 or 3 horse tread powers. All Latest Improvements.

Relieved by using

Wilson's Common Sense Ear Drums

They are safe, comfortable and invisible; have no wire or string attachments. Read this letter; it speaks volumes:

Toronto, March 26th, 1896.

C. B. MILLER,
Freehold Building, Toronto.

Dear Sir, Please send one of your little books to my friend, Mrs. Borden St., city. I have advised her to try a pair of your "Ear Drums" as mine are a great benefit to me and perfectly comfortable. I think she will be sure to take my advice, but I know she would like to see your pamphlet before doing so; I could not give her mine, as I had already lent it to another deaf friend. I have been deaf for forty-five years, caused by scarlet fever, but your Drums have helped me greatly. I shall take great pleasure in recommending them to any one afflicted like myself.

(Signed) MRS. HARIET DOANE.
