Best for Apartment Houses.

THE "COLONADE" apartments in Kansas City, Mo., illustrated herewith, have Barrett Specification Roofs.

The owners selected this kind of roofing because they wanted first of all the least expensive roof which would give *proper protection*.

As a Barrett Specification Roof will last 20 years and over without care or attention and as its cost is less than that of any other permanent roof covering, they made no mistake on that point.

The owners wanted *low annual charges*, and Barrett Specification Roofs were satisfactory in that respect as they require no painting or care.

The owners also wanted *proper protection against fire* and as these roofs are considered by fire underwriters as slow burning construction, and as such take the base rate of insurance, everything was satisfactory on that point.

It's always the same story—when ultimate costs and satisfactory service are carefully considered, Barrett Specification Roofs are selected.

Further information about Barrett Specification Roofs will be supplied free on request.

Special Note

We advise incorporating in plans the full wording of The Barrett Specification, in order to avoid any misunderstanding.

If any abbreviated form is desired however the following is suggested:

ROOFING—Shall be a Barrett Specification Roof laid as directed in printed Specification, revised August 15th, 1911, using the materials specified, and subject to the inspection requirement
