

Depot Harbor end by R. Anderson, of Ottawa, early in July, and the line was in operation Aug. 15. Of the 265 miles, the Co.'s men strung 201 miles and Mr. Anderson the remaining 64. The particulars of the circuit are as follows: Metallic circuit Ottawa to Depot Harbor, 265 miles. No. 14 copper wire strung on telegraph poles, 35 to the mile. Transposed every mile, except three miles in the City of Ottawa, where the transposition takes place every quarter mile to overcome induction from the many power lines in the neighborhood over which it crosses, etc. The line is equipped with long distance phones at Ottawa, Madawaska, 130 miles west of Ottawa, and Depot Harbor. No special difficulties were met with in the construction of the line, which was built under the supervision of F. L. Lamplough, the Co.'s Supt of Telegraph Lines at Ottawa. No serious trouble in operating this wire is anticipated, and it is believed it will be of great use in handling the Co.'s business to all agents and the yards and office about Ottawa.

WHEN YOU GET THERE

You are within from half a minute to fifteen minutes of 77 hotels, 85 clubs, and 31 theaters. All this, provided you arrive in the second city of the world at **Grand Central Station**, this being the Metropolitan terminus of the **New York Central**, which is the only trunk line whose trains enter the city of New York.

The following remark of an experienced traveler tells the whole story:

"For the excellence of its track, the speed of its trains, the safety and comfort of its patrons, the loveliness and variety of its scenery, the number and importance of its cities, and the uniformly correct character of its service, the **New York Central** is not surpassed by any similar institution on either side of the Atlantic."

The Co. has direct connection with all stations east of Ottawa over the Bell Telephone Co.'s lines as far as Valleyfield, 87 miles east of Ottawa. This line will be worked in conjunction with the Co.'s private system in Ottawa, but we were advised, Sept. 22, that the connections had not been made, and that the circuit had worked with great quickness and satisfaction.
