

Big Preparations

I HAVE just now finished my new Factory, and have the largest and best equipped establishment, devoted exclusively to the manufacture of Bee-Keepers' Supplies, in Canada, that is why I say

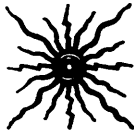

BIG PREPARATIONS.

I have been preparing for some time for the coming year's business, and have just about completed arrangements, and got all machinery in running order. Everything is practically new and No. 1.

I have a large stock of well seasoned lumber on hand, and will have for sale the finest and choicest goods that can be manufactured.

I excel in the manufacture of Sections. This locality is particularly adapted for fine quality of white basswood, and my prices will be lower than those listed by manufacturers in the States regardless of the duty you have to pay extra. Write me for prices on large quantities. I manufacture everything needed in the Apiary.

Hives, Frames,
Racks, Smokers
Extractors, Comb Foundation

And all other articles used in the Apiary.

I claim superiority for our Super Arrangement for Comb Honey. Commission men write :---" We find your Honey a very superior selling article, and getting more than market price for it." Clean Comb Honey, in nice white sections, well filled, sells without trouble; it is always at a premium.

USE OUR SUPER AND ARRANGEMENTS

and send for Price List and Illustrated Catalogue free. Also, subscribe for the PRACTICAL BEE-KEEPER. Send 40c. for the PRACTICAL, or \$1.00 and get the PRACTICAL and one Tested Five Banded Golden Italian Queen. This offer gives you a free Journal and a Tested and well bred 5-Banded Italian Queen. See what a few say of the Queens I sent out this year. Your names will be put in rotation, and we will mail Queens as early in Spring as will be safe to do so.

C. A. OUELLETTE,
TILBURY CENTRE.
