The Produce market. There has been an advance in the prices in Liverpool since our last issue—in the West wheat advanced considerably, but here has been no response in this market. Fiour has been rather active, with large orders for both foncy and extra, and a good many lots at both grades changed hands. Grains of all kinds have been duy, with many sales reported either of wheat, barley, or oats. We quote:—

Loss of memory is ever the first indication of a disorder of degeneration of Merveus element. The rapidity with which the mind is restored by the using Fellow's Compound Syrup of Hypophosphites is perhaps the best proof of its power in re-establishing the strength of the aervous system.

#### ALDINE: THE

ANILLUSTRATED MONTHLY JOURNAL claimed to be the

HANDSOMERT PAPER IN THE WORLD.

"Give my leve to the artist workmen of THE ALDINE who are striving to me," their profession worthy of admination, for boaut, as it has always been for usefulnoss."—Henry Ward Reecher.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature and a collection of picture, the rarest specimens, of artistic skill, in black and white, Although such succeding number affords a fresh pleasure to its friends, theorem value and beauty of THE ALDINE INDINE will be most appreciated after it has been bound up at the close of the year. While other publications ma, claims up rior cheapmoss as compared rivals of a faultar class, THE ALDINE is a unique and original conteption—alone and unapprotched—absolutely without competition or in price or character. The possessor of the volume just completed cannet duplicate the quantity of the paper and engravings in any other shape or number of yolumes for ten times its cost.

The labor of getting THE ALDINE rendy on the press is so great that reprinting is out of the question. With the exception of a small number specially reserved for binding, the edition of 1871 is already exhausted and it is now a scarce as well as valuable book.

#### Now Features for 1872.—Art Department.

The enthusiastic support so readily accorded to their enterprise, wherever it has been introduced has convexed the publishers of Title ALDINE of the soundness of their theory that the American public would recognize and heartily support any sincere effort to elevate the tone and standing of diastrated puplicatures. That so many weekly wirked sheets exist and thrive is no evidence that there is no market for unything better—indeed the success of THE ALDINE from the start is direct proof of the contrary. With a population so vast, and of such varied taste, a publisher can choose his patrons, and his paper is rather indicative of his own than of the taste of the cuntry. As a guarantee of the excellence of this department, the publishers would beg to abnounce during the coming year, specimens from the following eminent American Artists.

W. T. Richiers,

W. T. RICHAIDS, WM. HART, WM. HART, GEORGE BMILHT, AUG. WILL, JAMES SMILHY,

GRANY, PERKINS, F. O. C. DARLEY, VICTOR NEHLIG, WM. H. WIGCOX, JAMES H. BELRD, R. E. PIGOUT. PAUL DIXON.

FRANK BBARD, J. HOWS. The pictures are being reproduced without regard to expense by the very best engravers in the country, and will bear the very severest critical comparison with the best foreign work, it being the determination of the publishers that THE ALLINE aball by a successful vindication of American taste in competition with any existing publication in the world.

#### LITERARY DEPARTMENT.

Where so much attention is paid to illustration and get my of the work, to much dependence on appearances may vory naturally be feared. To auticipate such misgivings, is only necessary to state that the editorial management of THE ALDINE has been intrusted to Mr. Richard Henry Stoddart, who has received assurances of assistance from a loat of the most who has received assurances of assistance from a host of the most pepular writers and poets of the

was a very popular feature last year, and will be repeated with the present valuate. The chromo is 11 x '13 'inches, and is an exact fac-simile, in size and appearance, of the original poture. No American chromo, which will at all compare with it, has yes been effected at retail for less than the price asked for THE ALDINA and it together. It will be delivered free, with the January number, to every subscriber whe pays for one year in advance.

A feeling has long provalled that the intellectual life of the Canadian intion ought to have some or gan in the form of a good periodical. Attempts have been made to give itsuch an organ, but higherto they have not been successful.

In some measures they may have been premature but it is believed that their failure has been mainly due to the want of a sufficiently strong and well-organized staff of writers, and of a fund sufficient to guarantee to contributors the fair remuneration, without which, as multiplied experience proves a periodical sanue be successfully carried on.
