Cor. St. John and Hospital,
MONTREAL.

Commercial Summary.

The amalgamation of the Merchants Bank of Halifax and the Maritime Bank of St. John has been decided by the directors. When necessary legislation is obtained business will be continued under the name of the Merchants Bank alone.

The liabilities of John Barbour, furniture dealer, Galt, are about \$6,000, and most of his creditors deem it better to accept his offer of 25 cents in the dollar rather than run the possibilities of realizing much less under closure of the business.

Advices from North Sydney, C.B., report the herring fishery along the coast a failure the past season. The fall catch was light, owing to rough weather. The cod and mackerel catch has been much better.—Lumber, shipped from Miramichi to Oct. 12th amounted to 118,669,267 feet against 65,478,015 to the same date last year.

The new Bankruptcy Act of Great Britain has a clause providing for the payment on the part of assignees of all unclaimed dividends, and this feature of the Bill is retroactive, and unlimitedly so. The effect of this provision is already seen; some ex-trustees are becoming anxious, and a prominent one among them has fled the country.

We LEARN that the Edison Electric Light Co. of Hamilton, Ont., has received a contract to light the House of Commons, Ottawa, the work to be completed and in readiness for the approaching Session of Parliament. The promoters of the system, while maintaining the intense brilliancy of the light, appear to have overcome all the obstacles as to tone, regularity and distribution.

The Florida orange crop is estimated at 102 millions, or double of that for 1882, and next year is expected to double that of the present year.

THE RECEIPTS of the Dominion Exhibition at St. John, N.B., are given at \$42,545; expenditure \$41,678.—New York spent 48 millions in new buildings the past season; nearly one-fifth of this was in flats.
