This sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purpritive which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the exteen of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organis, purify the blood, and expel disease. They pure out the ford humors which broed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they care the every day complaints of every body, but also formidable and dangerous diseases that have baffied the best of human skill. While they produce powerful effects, they are, at the same time, in diminished doses, the safest and best physic that can be employed for children. Boling sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of larm. Cures have been made which surpuss belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth.
