

WANTED.—A thin man who has been used to the business of collecting—to crawl through keyholes, and ring doors who are never at home. Salary—nothing the first year, to be doubled each year afterwards.

In the case of a lady, prepare to throw a mixture of sweet oil and root over her dress. This will have the desired effect.

A little boy at Sunday School being asked 'What is the chief end of man?' replied, 'The end what's got the head on.' An application of bison devalued him that the head might be the chief end, but it wasn't the one that had the most smart!

FROM A LADY.
New York, Dec. 3, 1863.

Gentlemen,—The object of the present letter is to present to you my heartfelt thanks for the good that your BRISTOL'S SARSAPARILLA has done me—For over six months I had been suffering with a Rheumatism that seemed to extend over my whole body, and which from the tortures I endured, had reduced me almost to a skeleton. I could not move either my arms or legs and had to get assistance to enable me to do the smallest household duty.

Taking your advice, I began the use of your BRISTOL'S SARSAPARILLA. I was so weak that the smallest doses of it seemed to agitate me very much, but I persevered, and latterly I could increase the size of the dose. My pains all ceased little by little, and after using eight bottles I am entirely cured.—Now I can perform my household duties without assistance, and I cannot too highly recommend your excellent preparation to all those who suffer with Rheumatism.

I am, gentlemen, respectfully yours
FELICITE OSMEN,
119 Lanena St., New York.

Any person who may wish to inquire into the above extraordinary cure, are referred to Doctor Picault, Nos. 60, 62, and 64 Notre Dame Street, Montreal, who is familiar with the facts, and can testify to the truth of every statement.

**A CARD FROM
THE AMERICAN WATCH COMPANY
OF
WALTHAM, MASS.**

THIS Company beg leave to inform the citizens of the new dominion of Canada that they have made arrangements to introduce their celebrated Watches to their notice. They are prepared to prove that their watches are made upon a better system than others in the world.

They commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one half of all the watches sold in the United States. Up to the present time, it has been impossible for them to do more than supply to the constantly increasing home demand; but recent additions to their works have enabled them to turn their attention to other markets.

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand. In them, all those mysterious and infinitesimal organs which when put together create the watch, are the result of slow and toilsome manual processes, and the result is of necessity a lack of uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative vary. But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Ancre, Lepine and so-called Patent Levers—which soon cost more in attempted repairs, than their original price. Common workmen, boys and women, by the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant. He stamps and engraves them with any name or brand that may be ordered—whether London, Paris, Geneva or what not; and many a man who thinks he has a genuine "M. I. Tobias, of Liverpool," (whose only fault is, that he can never regulate it to keep very good time), is really carrying a cheap and poor Swiss imitation.

HOW AMERICAN WATCHES ARE MADE.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All their operations, from the reception of the raw materials—the brass, the steel, the silver, the gold and the precious stones, to the completion of the Watch, are carried on under one roof, and under one skillful and competent Director. But the great distinguishing feature of their Watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it. If any part of any American Waltham Watch should be lost or injured, the owner has only to address the Company, stating the number of his watch and the part wanted, whether it be spring, pinion, jewel, or what not, and by return mail he would receive the desired article, which any watchmaker would adjust to its position.

The Company respectfully submit their watches on their merits only. They have fully succeeded in overcoming popular prejudice to the States in favor of European watches, and solicit a thorough examination and fair trial for their manufactures elsewhere. They claim to make

A BETTER ARTICLE FOR THE MONEY

by their improved mechanical processes than can be made under the old-fashioned handcraft system.—They manufacture watches of every grade, from a good, low priced, and substantial article, in solid silver hunting cases, especially adapted to the wants of the farmer and lumberman, to the finest chronometer for the navigator; and also ladies' watches in plain gold or the finest enameled and jeweled cases; but the indispensable requisites of all their watches is that they shall be GOOD TIMEKEEPERS. It should be remembered that, except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them

ARE FULLY WARRANTED

by a special certificate given to the purchaser of every watch by the seller, and this warranty is good at all times against the Company or its agents.

MURRAY & LANMAN'S FLORIDA WATER.—The test of the genuineness and purity of a floral perfume, is its duration when exposed to the air. The aroma derived from chemical oils soon dies out, and leaves behind it an odor which is anything but agreeable; but that which is obtained by distillation from fresh and odoriferous flowers and blossoms, improves by contact with the air, and lasts a great length of time. Hence Murray & Lanman's Florida Water, the concentrated product of rare Southern flowers gathered in the zenith of their bloom and fragrance, has not only the freshness of an unwithered bouquet, but is indestructible except by the washing of the article moistened with it.

Beware of Counterfeits; always ask for the legitimate MURRAY & LANMAN'S FLORIDA WATER, prepared only by Lanman & Kemp, New York. All others are worthless.

FEVER and AGUE. ASTONISHING CURES.—Dr. Egbert Simms, formerly of the Medical College Philadelphia, and now one of the most popular physicians in Minnesota, writes to a friend in New York, that BRISTOL'S SUGAR COATED PILLS are working wonders in that region, in cases of Fever and Ague, and Bilious Remittent Fever.

The following extract from his remarks is published by permission of the gentleman to whom the letter was addressed: 'I am not, as you know, much in favor of advertised pills. Most of them are worthless; some dangerous. But BRISTOL'S SUGAR COATED PILLS are an exception. No better family cathartic could be desired. There is nothing in the pharmacopoeia, as far as I am aware, that is equal to them. Nor is this all; the antibilious properties of the pills render them a positively invaluable medicine for the bilious remittent and intermittent fevers so common in this region. I have found them exceedingly efficacious in ague and fever. They are tonic as well as aperient, and may be given, with great benefit, in cases where drastic purgatives would be dangerous.'

They are put up in glass vials, and will keep in any climate. In all cases arising from, or aggravated by impure blood, BRISTOL'S SARSAPARILLA should be used in connection with the Pills.

WHO IS MRS. WINSLOW?

As this question is frequently asked, we will simply say that she is a lady who, for upwards of thirty years, has nuturingly devoted her time and talent as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article, Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are daily sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, mothers—try it now.—Ladies' Visitor, New York City.

AOEA DE MAGNOLIA.—The prettiest thing, the "sweetest thing," and the most of it for the least money. It overcomes the odor of perspiration; softens and adds delicacy to the skin; it is a delightful perfume; always headache and inflammation, and is a necessary companion in the sick room, in the nursery and upon the toilet sideboard. It can be obtained everywhere at one dollar per bottle.
SARATOGA SPRING WATER, sold by all Druggists.

S. T.—1860.—X.—The amount of Plantation Bitters sold in one year is something startling.—They would fill Broadway six feet high, from the Park to 4th street. Drake's manufactory is one of the institutions of New York. It is said that Drake patented all the rocks in the Eastern States with his celebrated "S. T.—1860.—X." and then got the old gray legislators to pass a law "preventing disgusting the face of nature," which gives him a monopoly. We do not know how this is, but we do know the Plantation Bitters sell as no other article ever did. They are used by all classes of the community, and are dearth on Dyspepsia—certain. They are very invigorating when languid and weak, and a great appetizer.
SARATOGA SPRING WATER, sold by all Druggists.

"In lifting the kettle from the fire I scalded myself very severely—one hand almost to a crisp. The torture was unbearable. The Mexican Mustang Liment relieved the pain almost immediately. It healed rapidly, and left very little scar."

This is merely a sample of what the Mustang Liment will do. It is invaluable in all cases of wounds, swellings, sprains, cuts, bruises, sprains, etc., either upon man or beast.

Beware of counterfeits. None is genuine unless wrapped in fine steel-plate engraving, bearing the signatures of G. W. Westbrook, Chemist, and the private stamp of DEMAS BARNES & Co., New York.
SARATOGA SPRING WATER, sold by all Druggists.

All who value a beautiful head of hair, and its preservation from premature baldness and turning gray, will not fail to use Lyons celebrated Kathairon. It makes the hair rich, soft and glossy, eradicates dandruff, and causes the hair to grow with luxurious beauty. It is sold everywhere.
SARATOGA SPRING WATER, sold by all Druggists.

WHAT DID IT!—A young lady, returning to her country home after a sojourn of a few months in New York, was hardly recognized by her friends. In place of a rustic, flushed face, she had a soft, ruby complexion, of almost marble smoothness; and instead of 23, she really appeared but 17. She told them plainly she used Hagan's Magnolia Balm, and would not be without it. Any lady can improve her personal appearance very much by using this article. It can be ordered of any druggist for only 50 cents.

A CERTAIN CURE FOR THIS DISEASE
MAY BE FOUND IN THE USE OF
DAVIS' PAIN KILLER.
VEGETABLE PAIN KILLER.

MANHATTAN, KANSAS, April 17, 1866.

Gentlemen— I want to say a little more about the Pain Killer. I consider it a very valuable Medicine, and always keep it on hand. I have traveled a good deal since I have been in Kansas, and never without taking it with me. In my practice I used it freely for the Asiatic Cholera in 1849, and with better success than any other medicine. I also used it here for cholera in 1855, with the same good results.

Yours truly,

A. HUNTING, M.D.
I regret to say that the Cholera has prevailed here of late to a fearful extent. For the last three weeks, from ten to fifty or sixty fatal cases each day have been reported. I should add that the Pain Killer sent recently from the Mission House has been used with considerable success during this epidemic. If taken in season, it is generally effective in checking the disease.

REV. CHARLES HARDING,
Sholapore, India.

This certifies that I have used Perry Davis' Vegetable Pain Killer, with great success, in cases of cholera infantum common bowel complaint, bronchitis, coughs, colds, &c., and would cheerfully recommend it as a valuable family medicine.
REV. JAS. O. BOOMER.

Messrs. Perry Davis & Son.—Dear Sirs—Having witnessed the beneficial effects of your Pain Killer in several cases of Dysentery and Cholera Morbus within a few weeks past, and deeming it an act of benevolence to the suffering, I would most cheerfully recommend its use to such as may be suffering from the aforementioned or similar diseases, as a safe and effectual remedy.
REV. EDWARD K. FULLER.

Those using the Pain Killer should strictly observe the following directions:—
At the commencement of the disease take a teaspoonful of Pain Killer in sugar and water, and then bathe freely across the stomach and bowels, with the Pain Killer clear.

Should the diarrhoea and cramps continue, repeat the dose every fifteen minutes. In this way the dreadful scourge may be checked and the patient relieved in the course of a few hours.

N.B.—Be sure and get the genuine article; and it is recommended by those who have used the Pain Killer for the cholera, that in extreme cases the patient take two (or more) teaspoonfuls, instead of one.

The Pain Killer is sold everywhere by all Druggists and Country Store-keepers.

**PROSPECTUS
OF
MASSON COLLEGE,
TERREBONNE,
NEAR MONTREAL.**

THE object of this institution is to give to the youth of this country a practical education in the French and English languages.

The course of instruction embraces the following branches, viz:—Reading, Writing, French and English Grammar, Geography, History, Arithmetic, Book Keeping, Practical Geometry, Architecture, Music, and Drawing.

The course is of five years, commencing by an Elementary class, in which pupils of seven years are commonly admitted.

Every pupil capable of studying, and furnished with good moral recommendations, is received in the institution without distinction of religion; strict conformity to the rules and discipline of the house being required of all.

All matters are studied in English as well as in French, in order that the pupil may become proficient in both languages.

Particular attention is given to the teaching of French to the English pupils, a professor being specially charged with that branch; their progress is rapid, as may be known from the fact, that many who, at the commencement, knew not a word of French, were, towards the end of the year, able to speak and write it tolerably well.

This institution is under the direction of five priests, 12 Ecclesiastics residing in the house, and four lay Professors.

Pupils are boarded in the house; bed and bedding furnished at the desire of the parents.

Particular attention is paid to the food, health, and cleanliness of the scholars, and all that pertains to their religious, moral, and domestic education.

TERMS,

ST. MARY'S COLLEGE, MONTREAL**

PROSPECTUS.
THIS College is conducted by the Fathers of the Society of Jesus.

Opened on the 20th of September, 1848, it was incorporated by an Act of Provincial Parliament in 1852, after adding a course of Law to its teaching department.

The course of instruction, of which Religion forms the leading object, is divided into two sections, the Classical and the Commercial Courses.

The former embraces the Greek, Latin, French and English languages, and terminates with Philosophy.

In the latter, French and English are the only languages taught; a special attention is given to Book-keeping and whatever else may fit a youth for Commercial pursuits.

Besides, the Students of either section learn, each one according to his talent and degree, History and Geography, Arithmetic or higher branches of Mathematics, Literature and Natural Sciences.

Music and other Fine Arts are taught only on a special
