

Money Works Fast In Vancouver

One of our clients sent us three years ago \$900 to invest as we saw fit; this has since grown to \$3,000. Another man living in China sent us \$1,000 a little over two years ago. He received his \$1,000 back a year ago and has since received \$2,500 more. We could cite dozens of similar cases if space would permit.

The way we help people to make fortunes is through Vancouver, the Vancouver metropolitan district, and British Columbia—we make those three invincible forces work for our clients.

One property we recommend is "Scenic Heights," near the waterfront of Burrard Inlet, the finest harbor on

the coast, and on the extension of Hastings Street East, the best and busiest business thoroughfare in Western Canada. Every lot is guaranteed to be free from rock, gulley or creek. Price only \$245. Terms \$10 a month.

Lots on the other end of Hastings Street started at \$8 a front foot and are now worth \$3,000 to \$5,000 a front foot. The west end is now practically built up solidly, and the business district is *rapidly moving eastward*. Get in front of the *business district* of Greater Vancouver and you will be on the road to fortune.
