At Summer Prices.

OFFICE, YARD AND WAREHOUSE: 56 to 58 Esplanade Street East, TORONTO

TORONTO AGENT:

LOUIS BACQUE

"SILICOLITE," (Patent)

A CHEAP FIRE AND WATER-PROOF ELASTIC FOR PLASTERING HOUSES.

Is not liable to crack under any strain, and requires no special preparation for painting either in oil or water color. Being a non-conductor of heat, it makes a house cooler in summer and warmer in winter, and its weight is from 15 to 20 times less than any other plastering in use. It adheres to any kind of surface, and when applied to stone or brick on outside walls will protect them against the action of frost. It is applied in the usual way of plastering, and can be highly finished on one or two coats either with the ordinary tool or with sand paper.

A. J. PIGEON, - No. 30a Richmond Square, Montreal.
