Mr. Scott Corrigan
President

Key products/services:
Courier services

United Parcel Service Canada Ltd. (UPS Canada), a wholly owned subsidiary of United Parcel Service of America Inc. (UPS), began operations in 1975. UPS offers the widest range of guaranteed courier services.

UPS, the world's largest express courier and package delivery company, serves every address in North America and delivers to more than 200 countries and territories around the world. UPS employs 6,000 people in Canada and more than 330,000 globally. The company operates more than 500 aircraft, 157,000 vehicles and 1,700 facilities to provide service around the world. UPS had revenues of US\$24.8 billion for 1998 on a volume of 3.14 billion packages and documents.

The company's resources also allow UPS to provide customized logistics services, along with customs brokerage services for imports and exports.

UPS is proud to be a Worldwide Olympic Partner – sponsoring the 1998 Olympic Games in Nagano, Japan, and the 2000 Olympic Games in Sydney, Australia.

Key products/services:
Research intensive university

The University of Alberta is one of Canada's five largest research-intensive universities with 29,000 students in 200 undergraduate programs and over 170 graduate programs. The University of Alberta has over 1200 international students from 104 countries.

With 18 3M Teaching Awards and Canada's highest award for undergraduate teaching, we rank first over the program's 13-year history. The University also houses Canada's second largest library, the 18th largest in North America.

The University of Alberta participates in all 14 Federal Networks of Centres of Excellence, linking industry, universities and government in applied research and development.

We have 48 currently active spin-off companies which produce 1,255 direct and 2,385 indirect jobs. Modern research facilities include: Canada's most powerful computer, NMR imaging and analytical instruments, a microfabrication facility, and Canada's only 3D virtual reality room.
