

KAMLOOPS B. C.

Izaak Walton would have found this the Compleat Angler's Paradise. Good trolling can be had for salmon-trout, rainbow and Kamloops trout, and other fish are plentiful in the numerous lakes and streams nearby. Good accommodation and fishing outfits can be obtained easily.

Climate

The climate of Kamloops is a wonderful asset. No spot on this continent is more delightful, invigorating and healthful all the year round. The seasons are even and temperate, and the air so pure and healthful, dry and sunny, that the district has world-renown as a resort for invalids.

King Edward Sanitorium, Tranquille

Tranquille Sanitorium

The famous King Edward Sanitorium, for the treatment of pulmonary tuberculosis, is at Tranquille, nine miles west of Kamloops, where the Thompson River flows into Kamloops Lake. It has accommodation for about 100 patients. The number seeking admission has unfortunately outgrown its capacity, but active steps are now being taken to remedy this.

Further information as to local conditions and business prospects will be gladly furnished by the Publicity Commissioner, Board of Trade, Kamloops, B.C.
