

Sectional Storage Cases do away with clumsy shelving

In all modern business offices clumsy, dusty wooden shelving is being replaced with Sectional Storage Cases, built up on the sectional book-case plan. Build as many sections wide and high as you like. The price of a base section and top is the same, \$1.75 each. Ask for special folder on storage cases.

"SNUFFY, THE CABMAN."

One of the oddest methods of advertising a theatrical attraction is that which is being used this week in Toronto, on behalf of Dave Marion's "Dreamland Burlesques" at the Star. Just watch for the rickety old cab on the down town streets.

JOY FOR THE POLICEMEN GET A WEEKLY DAY OFF

Commissioners Yesterday Decided
to Increase the Force—Goes
Into Effect in January.

So soon as a sufficient number of men can be trained and put upon the street in uniform, the Toronto policemen will have one day off in seven. This was decided at the meeting of the board of police commissioners yesterday, and will go into effect in January.

A resolution passed by the board was to the effect that the chief constable shall proceed to get the necessary men in shape at the earliest possible moment to provide for the day off. All the men on the waiting list have been ordered to attend the next meeting of the board.

A special meeting of the board will be held Thursday, Sept. 29, to appoint a bail magistrate. His salary will be \$1000.

The resignation of Policeman Mullin (222) was tendered and accepted.

Inspector Robertson's Funeral. All that was mortal of Alfred Robertson, late inspector of the Winnipeg detective department, was laid at rest yesterday in St. James' Cemetery. A large number of friends attended the funeral, including Inspector Newton and Detective Smith of Winnipeg, Deputy Chief Stark and Inspectors Cuddy, Davis, Black and Dickson of the city force, a number of his former comrades in the fire department, and the sergeants and a number of the men of the 4th Highlanders, in uniform. The Rev. Dr. Gilray conducted a service at the home of E. E. Robertson, 558 Manning-avenue, and a Masonic service was conducted at the grave. The floral tributes were numerous. Mr. Robertson's fellow-policemen in Winnipeg contributed a wreath, as did the members of Doric Masonic Lodge, of which the late inspector had been a member for about twenty years. Others were from "D" Co. of the G.O.R., the sergeants' mess of the 4th Highlanders, R. L. McCheyne of the Royal Canadian Yacht Club, the Toronto police force, the First Christian Church, the Battleford column, the Winnipeg city council and police commissioners, and from M. M. Doyle, barrister; S. P. Belcher, banker; J. J. Brown and Dr. Clark, all of Winnipeg. The pallbearers were: The Winnipeg officers, Inspectors Cuddy and Black, Captain Gunn and Lieut. McLean, fire department; Capt. Howard and Mr. Wright, Battleford column.

Robbed in Buffalo. BUFFALO, N.Y., Sept. 20.—H. A. McManis, a Toronto man, was robbed of \$210 here to-day.

Off for the Manoeuvres. LONDON, Sept. 20.—Headed by the band of the Scots Guards, the Q.O.R., amid enthusiastic scenes, marched from the barracks to the railway station to en train for Aldershot.

Threaten General Strike. MANCHESTER, Eng., Sept. 20.—Cotton mill employees to-day accepted the action of the Cotton Employers' Federation, and declared that if the threatened lockout on Oct. 1 became operative they will effect a general strike throughout England by forcing the shut-down of 700 cotton mills, which, with the allied industries affected, would throw out 550,000 workmen.

Church vs. Laundry. A struggle is promised at next council meeting over the board's action in revoking a laundry which had been operating in the premises of the Congregational Church. The premises were occupied by the laundry for 21 years as a laundry, but John Ruhn, who recently purchased the property, erected new buildings on it and obtained a renewal of the laundry license. However, with the mayor and Controller Spence dissenting, the board cancelled the license. Unhappy and dishonest," was the way Controller Spence described the course taken.

Application will be made to the Dominion Government for permission to close the western entrance to Toronto harbor by means of a sandbank during the winter months to prevent sewage getting into the lake and contaminating the intake pipe. The plan has been agreed upon by Dr. Sheard, Engineer Rust and Waterworks Engineer Fellows. It will cost about \$7000 to pump the sand into place and clear it away in the spring. It is planned that the reef protrude two feet above the surface with a width at the top of six or seven feet.

Week of Joy Rides. This is the city council's gala week. Accepting the invitation of the Hamilton council, the members will leave by 2 p.m. train to-day to enjoy the elvish hospitality of the city under the hills. A baseball match is on the card. Then to-morrow night, council leaves for Montreal to inspect the harbor improvements there. They will be entertained by Montreal city council, chamber of commerce and harbor commissioners, and will return Friday night.

A deputa-tion of residents of Medfordland appeared before the court of revision yesterday to ask that names be taken off a petition for asphalt pavement, declaring that, while a portion of the paving company had told them the cost would be only 47 cents per foot, the city's estimate was 64 cents a foot. They were told to make out their case before the county judge.

RESERVOIR NOT SO BAD AS CON. FOSTER PAINTED

So Say Aldermen Who Investigated
Conditions—City Engineer
May Resign.

Are Controller Foster's olfactory organs unduly sensitive?

Ald. Chisholm, chairman of the civic works committee, is inclined to think so, and Ald. McCausland, Weston and McBride are disposed to share the opinion. Their curiosity roused by the controller's attack at yesterday's meeting of the board of control on the condition of the reservoir, coupled with the demand that City Engineer Rust be suspended while the matter was enquired into, the aldermen went on an inspection trip in the afternoon. They were prepared for something like a combination of glue factory and a hides and tallow warehouse, but were agreeably disappointed.

"I don't want to be considered as trying to stifle an investigation, but I don't think there is much to complain of," said Ald. Chisholm afterwards. "I went down into the reservoir and scooped up the weeds in my hands, but the only odor I could discern is what comes from a weedy place."

The board of control are to visit the spot this morning before doing anything with Controller Foster's drastic resolution, wherein he spoke of "immense quantities of filth and vegetable matter of a very disagreeable odor rendering the water dangerous to public health," and suggesting "a thorough investigation in order to place the responsibility."

City Engineer Rust took the matter calmly, remarking that all reservoirs without concrete bottoms show the same condition when cleaned. He admitted that the entire bottom should be concreted, but said that it would mean shutting off the water too long. One result of the attacks upon Mr. Rust may be his departure for Victoria, B.C. There is a movement there to discharge City Engineer Smith, and Mr. Rust says if the latter leaves and the necessary arrangements are made, he will go there next December.

To Rush Filtration Plant. Warm criticism of the slowness of Dill, Russell and Chambers, contractors for the filtration plant, was turned in the direction of Mr. Dill, who came before the board with the explanation that a sufficient number of men could not be obtained. There is work for 500 men, but only about 300 are employed, and Controller Spence thought the reason was that enough pay was not offered.

The mayor proposed that the city assume part of the job which under the contract should be finished by the end of the year, but which Francis Longley, who is inspecting the work for the city, says will not be ended until about the middle of next summer. Controller Spence's idea was that contractors be asked to advertise for men at 25 cents an hour. Neither plan appealed to Mr. Rust, who said that if the suggested rates were paid, workmen would desert other civic jobs.

Mr. Rust will try to get more men and Mr. Dill will also advertise. In an open letter addressed to the mayor by the local council women, it was strongly urged that every effort be made to rush the completion of the plant. States Miss Rogers, who says that the number of deaths from typhoid has increased from 21 in 1900 to 79 in 1909, and that there have been 107 deaths from the disease for the first eight months of the present year. At the same rate, it is estimated that the death toll this year will be 160.

The letter is signed by Mrs. G. Huestis, president; R. Torrington, ex-president; S. Leathes and Dr. Helen MacMurchy. Want Independent Enquiry.

Voting a protest against the enquiry into Dr. Sheard's administration of the Isolation Hospital being conducted by a "fellow official" in the person of Corporation Counsel Drayton, James Rogers and James Mitchell, two of the leading witnesses, appeared before the board.

Mr. Rogers asked that the people be represented in an independent way, but the mayor replied that he was opposed to engaging an outside counsel, when the city had a well paid counsel of its own.

Mr. Mitchell accused Dr. Sheard of "bull-dozing" tactics and urged that as a public man, every act of his should be investigated.

"I am not going to stand for any enquiry into Dr. Sheard's private life," retorted the mayor.

It was suggested that Judge Winchester should decide what should be done.

Church vs. Laundry. A struggle is promised at next council meeting over the board's action in revoking a laundry which had been operating in the premises of the Congregational Church. The premises were occupied by the laundry for 21 years as a laundry, but John Ruhn, who recently purchased the property, erected new buildings on it and obtained a renewal of the laundry license. However, with the mayor and Controller Spence dissenting, the board cancelled the license. Unhappy and dishonest," was the way Controller Spence described the course taken.

SIR WILFRID TOOK LIBERTY

And Christened Townsite That the
Province Owns.

Tenders were closed yesterday at the department of lands, forests and mines for the 570 lots offered in the townsite formerly known as Sioux Lookout, altho the Sir Wilfrid Laurier is minded to call the new town Graham, by which designation the N. T. R. station will be known.

The townsite belongs to the province and was laid out by the survey branch. It is not alleged that the federal prime minister forgot that the province controlled the crown lands, but it will be necessary for some request to be made to the government in order that the name of the station and town might stand in the first rank of importance by reason of the vast numbers of workpeople dependent on them and the value of their products.

The relations between the employ-ers and employed have become definitely hostile, and in each case the cause is similar. Small sections of workmen have defied agreements entered into by the trade as a whole, and their action threatens to paralyze the entire industry.

The Morning Post, which is thoroly alarmed, says that serious unrest in the ranks of labor has brought the country to the brink of a disaster difficult to parallel in industrial history.

Opinion Expressed That Industrial Disaster Threatens Britain.

NEW YORK, Sept. 20.—The Tribune's London correspondent says: "The industrial situation throughout the country grows daily worse. Prolonged stoppages in separate trades have been entered into before to-day, but the present crisis involves at the same moment the three great industries of the nation. Coal, cotton and shipbuilding stand in the first rank of importance by reason of the vast numbers of workpeople dependent on them and the value of their products."

ST. JOHN, N.B., Sept. 20.—There has been an immense run of sardine herring in the harbor and Courtney Bay for a week past, and scores of fishing crafts have been busy taking the fish, which are carried in motor boats to factories down the bay.

The price was \$3 per hoghead, but yesterday it was cut to \$6, and the whole fishing fleet went on strike.

ST. JOHN, N.B., Sept. 20.—There has been an immense run of sardine herring in the harbor and Courtney Bay for a week past, and scores of fishing crafts have been busy taking the fish, which are carried in motor boats to factories down the bay.

MILITIA CHANGES.

OTTAWA, Sept. 20.—(Special.)—Mi-
litia orders announce that Lieut. S. H.
Osler, Royal Canadian Engineers, is
granted the rank of captain.
Thirty-first Grey Regiment—Capt. A.
G. McKay is permitted to resign his
commission.

Forty-sixth Durham—Major J. A. V.
Preston becomes lieutenant-colonel.
Ninety-eighth—William J. Craig be-
comes captain at organization.

The First Case.
Dr. Wilmott Graham, the new medi-
cal inspector for schools, had his first
case yesterday. A boy from the west
end was brought down to Dr. Sheard
by his mother with blotches on his
face. The M.H.O. refuses to handle
school cases, since the introduction of
a school health department, and re-
ferred the case upstairs.

Two classes of eight pupils each
were opened for defective children in
Grace and George-streets schools yester-
day.

SEVENTEEN YEARS THE STANDARD
Prescribed and recommended for vo-
luntary ailments, a scientifically prepa-
red remedy of proven worth. The result
from their use is quick and permanent.
