Light horse breeding is to be encouraged in Great Britain this year by a government grant of \$200,000 to be expended during the season. In preceding years a grant of \$25,000 was One of the Hardest Fought Games distributed in the form of King's premiums to thorsbred stallions of second rate quality. French, German and Austrian rivalry in the production of horses suitable for remounts in the army inspired the new appropriation. The French Government, which derives a large revenue from the mutuel system of betting in operation at all race courses in France, is said by English authorities to distribute about \$500,000 annually among its breeders.

The annual meeting of the Canadian Cricket Association, when the various cricket associations will affiliate, will be held Feb. 21 in the King Edward Hotel. This should prove a red letter day for the game in the Dominion.

When the Knock-out Brown-Keyes bout in New York Wednesday night ended an old-time sporting man who has seen all of the great lightweights of the last twenty-five years remarked: "Jack McAuliffe or Kid Lavigne could have stopped either Brown or Keyes in a couple of rounds. These modern fighters are a poor lot!"

It was Kid Brown of Chicago whom Hilliard Lang out-pointed in ten rounds the same night in Winnipeg, but that did not prevent Knock-out Brown being advertised as the Toronto boy's opponent.

The chap who tried to tell Doc Wylie The chap who tried to tell Doc Wylie something about etiquet gets rapped over the fingers himself concerning the same thing by a correspondent in his own paper, and you wonder that the same day he objects to anyone knocking the wrestlers. The Wednesday bouts may have been above or below the standard of the event when the Russian Lion, according to announcement, received a bonus of \$1000 for upsetting four men. At all events the same booster had the following to say concerning the Hackenschmidt show:

a scribe wrote for a Rochester after-noon paper yesterday that "Frank Des-sau, the left-handed pitcher obtained from Brooklyn last fail, has kicked in with als contract." Even if the said scribe had forgotten with which arm Dessau pitches, a momentary thought would have told him that Ganzel has yet to give good money for a left-hander.

N.L.U. MEETING TO-DAY

Paid President to Be Elected To-day and a 60-40 Division Asked.

The Toronto men to attend the N.L.U. meeting at the Windsor Hotel, Montreal, at 2.30 p.m. to-day left last night. They at 2.30 p.m. to-day left last night. They were President Soman and Charlie Querrie, for Tecumseh, and Fred Thompson and Jimmy Murphy for Toronto. From the present outlook Jimmy Mur-by will be the first paid president and t would not be at all surprising if they made his election unanimous. He has the promised support of the majority of the clubs.

In all probability efforts will be made try and have the 60-40 division gate passed. This rule would be of great berefit to both Ottawa and Cornwall, but the Tecumseh and Toronto representathe Tecumseh and Toron tives cannot see it at all.

TOBASCO FOR BEARS.

While Alfred Bruerton and his camping party were preparing supper on the ridge above Cache Valley, near Ogden, says a New York paper, a grizzly bear nosed his way toward the camp, attracted by the savory odor of food under preparation. None of the hunters could get to his rifle in time and there was a general scattering. Bruerton reached a tree an eylash ahead of the bear, and graspling the lower limbs swung himself from one branch to another until he had reached the top.

Bruin continued to climb up the tree when Bruerton, remembering that ed the contents into the eyes and mouth of the brute.
