### STREETSVILLE TO OWN LIGHTING PLANT

Public Ownership in Concrete Form—Death of Scarborough Farmer—County Notes.

TORONTO JUNCTION, July 14.—School Supervisor Wilson is being employed by the educational department delivering lectures to 12 sister teachers of the separate schools to enable the motto quality under the Ontario School Act.

The Salvation Army have moved their headquarters from Van Horn street in the Kilburn Block to the big tent which they have erected on Keele street, opposite the fire hall. George McGregor, 44 Union street, was arrested last night for disorderly conduct.

On the night of the 11th or morning of the 12th some person broke into the house of D. Kaiser on Fairview avenue and stole about \$35 worth of tools.

On Saturday afternoon a man named Alders had his ankle broken by slipping as he was attempting to board a Dundas car at the Junction. Dr. Perfect was summoned and he had the man removed in a hack to his home on Lakeshore avenue. The West End Recreation Club baseball team defeated the Franklin team on Saturday afternoon by a score of 16-14 in 10 innings.

A new 700 horse-power engine and generator is expected daily at the power house of the Stark T. L. & P. system.

Rev. A. L. Gieggle of Parkdale gave an address at the men's meeting in the Victoria Presbyterian Church this afternoon, subject, "Self Control." The attendance numbered 60, which was very satisfactory. These meetings have been held every Sunday afternoon for the past two months and are becoming quite popular. They are conducted by W. R. Taylor, M.A.

The evening sermon at Victoria Presbyterian Church was preached by the pastor, Rev. J. H. Pidgeon, on the subject, "The Life of Jesus." Dr. Pidgeon encouraged the members of the church to endeavor to influence for good those with whom they come in contact in every-day life, and to try to get young men and women to take an interest in the work of the church and to become church members.

At the evening service in Annetts street Methodist Church, Rev. Dr. Hazelwood made a strong appeal for the spiritual life. The all-absorbing question among the men and women of to-day was how to live "Jesus Christ on earth and partake of the good things of this world." This was not the purpose in life which Christ intended us to follow. "Jesus Christ was no property owner," said the speaker, "that was not his purpose on earth. He came here to teach principles in the midst of men." In this progressive age, when the tendency is to forget everything concerning our spiritual nature, in the midst of daily existence, there was to be a text to remember that "A man's life consisteth not in the abundance of the things which he possesseth." We can't feed our souls on pines, literary societies and operas." In concluding his remarks, Dr. Hazelwood said that "wealth has been instituted, that with which God had intended to inspire us to great and noble deeds. Life is like money, loaned on demand, which we should all be prepared to account for when the day of reckoning comes."

A lawn society under the auspices of the Brotherhood Bible Class of Victoria Presbyterian Church will be held to-morrow evening (Monday) on Mr. Gilles' lawn, 111 Laws street, next door to Dr. Pidgeon's. All the young people of the church, both ladies and gentlemen, are invited.

#### STREETSVILLE.

Village of Streetsville Will Demonstrate a Good Principle.

STREETSVILLE, July 14.—(Special.)—The town council have taken up the question of public ownership in a practical form, along the line of electric development. Some time ago the council submitted a bylaw to expend the sum of \$15,000 in building a plant at a point on the River Credit. The scheme carried a substantial majority, and the promoters are hopeful that by October or November the Village of Streetsville will be lighted by electricity generated at their own power house.

The point where the dam is being constructed (for work is now in full blast) is to the east of the town, and members of the council and citizens generally are enthusiastic over the
