The speakers at the Hamburg and Brunswick meetings have carefully avoided dealing with the political aspects of the Turkish question and have limited their remarks to denunciation of the Turkish atrocities and to making appeals for their cessation, yet The North German Gazette, employs its semi-official position to attack the anti-Turkish agitation as an ill-timed and injudicious movement. In an article which is understood to have empanated not movement. In an article which is understood to have emanated, not from any German official source, but, on the contrary, from the Turkish Embassy. The Gazette traces the recent uprisings in Constantinople and Galata to Armenian Nihilists. The Armenians, the article continues, had designed also to blow up the Greek churches in Constantinople, with the object of causing a collision between the Greeks and Turks, which would have ensured a general massacre of Christians. "It was not the Porte," the article says, "that caused the massacres in Armenia, but the Christian propaganda in Asia Minor, where their cry, 'Down with Islam,' initiated the war of the Crescent against the Cross."

THE RETURN OF COLLECTIONS.

Deputy Treasurer and Collector Patterson has made his first report to the Mayor on the collection of taxes for 1896. After referring to the changes effected by the new system in the mode and place of collecting the taxes and preservation of the records, the collector expresses the opinion: "That the municipality and the ratepayers will derive much advantage from the foregoing changes will be readily conceded, and when assessments for reality and personalty are separated, the tax rolls rearranged to meet the altered method of collection, with a more systematic and careful delivery of the bills, I do not anticipate any difficulty in carrying out the wishes of the Council as expressed in the bylaw."

The amount collectable on the first instalment was \$1,231,703, but the collector reports that the cash books show that the very large sum of \$525,389 over that amount collected (\$1,557,092) was paid at the City Hail. The percentage of the total levy for taxation which was collected on the first instalment this year was the highest ever recorded, being 52.3 as compared with 50 per cent. last year.

ABEL ROBERTS' DEATH

Night and Coroner Johnson Will Ascertain the Cause. Abel Roberts, a driver for Cleg-

horn's, died very suddenly at his residence, 67 Louisa-street, on Saturday evening, and Coroner Johnson has issued a warrant for an inquest pending the result of a post mortem examination which will be made to-day. At 2 o'clock in the afternoon Roberts was taken suddenly ill while driving on Yonge-street and was carried into the drug store at the corner of Alice-street. Dr. Wagner was summoned and found Roberts in convulsions. He worked on the man for an hour and a half, at one time thinking that life a half, at one time thinking that life was extinct. The doctor administered morphine, and, as the patient was apparently recovering, he ordered his removal home in the police ambulance. Dr. Awde, who has been attending Roberts for two or three months, was sent for by the family, and seeing Roberts' condition it is said he injected a quarter of a grain of morphine not knowing until afterwards.

jected a quarter of a grain of morphine, not knowing until afterwards that Dr. Wagner had already administered the opiate to the sick man. Roberts died shortly before 3 o'clock. Dr. Awde, in conversation with The World last night, said that Roberts, who was a member of the Toronto Field Battery, had a sunstroke while in camp five years ago. Since then he has been subject to fits, owing to spinal irritation as a result of the stroke. One of these fits, as far as Dr Awde can say, caused death. About three months ago Roberts was fished out of the bay at midnight by the crew of the Shamrock. It was then that Dr. Awde was first called in to attend him, and he has since seen him occasionally and found him very eccentric.
