WHY MR. HUGHES RESIGNED

Undercurrent of Feeling That He is Being Forced Out By Too Many Restrictions.

DUAL INSPECTORSHIP NOT A SUCCESS

Hit in Working of the Office Makes Him Dissatisfied—A Large Man Humiliated.

A sub-committee of the Public School Board, to whom was delegated the duty of interviewing Inspector Hughes and ascertaining what should be done to retain the services of that gentleman, reported verbally to the Teachers' Committee yesterday afternoon.

PEARLS OF JUNE

The hat that's good and proper for this weather, and for what is due us, is the pearl grey alpine. It's a hat of all hats for summer days—doesn't attract the heat—is light in weight. Pearl Alpines \$1.50 to \$3.00. The best made anywhere—English or American styles—finish and trimmings that look well—wear well.

Write for Catalogue of new styles.

CORNER YONGE AND TEMPERANCE STREETS.

prepare a recommendation for presentation to the full committee at its next meeting.

The World has been informed, and the opinion seems to be general, that there is a serious and a distinct change in the attitude of Mr. Hughes towards the public on the surface. To get at this undercurrent of feeling and talk, "The World" has applied itself. While there is a disposition on the part of a number of knowing ones to talk on the subject, there is, however, a distinct change in the attitude of Mr. Hughes towards the public on the surface.

Dates of the Inspector. The associate of Inspector Hughes, Inspector Chapman, was seen in his office, but he refrained from expressing any opinion, nor publication of otherwise, on the subject. However, he gave some details of the work required of the two inspectors. There are under the supervision of the Public School Board 58 schools, containing 571 class rooms, of which 46 are kindergarten, under the supervision of Miss Currie, the male inspectors not being required to supervise these forms. Every school of twelve rooms and over has an assistant principal, the free principal being authorized to overlook the work in all of the forms; so that in these large schools the duties of the inspectors are light and they are thus enabled to devote the principal portion of their time to schools having less than twelve rooms. Mr. Chapman's duties are confined to the third, fourth and fifth forms, and Mr. Hughes to the first and second forms. In addition to the regular work of visiting the forms and marking the work of the teachers, the inspectors have other duties, such as looking after the supplies and answering the correspondence.

It appears that while Mr. Hughes is the senior inspector and Mr. Chapman the junior, the latter is regarded altogether as an "associate," and not subordinate to Mr. Hughes. So that

A BATTLE OF THE SCALES IS NOW ON BEFORE THE JUDGES

Specimens of Markings That An Appeal Court Jurist Must Pass Judgment on—West Huron Goes Liberal By 21

—North Grey Recount To-day.

It is expected that a date will be fixed to-day by one of the judges of the Court of Appeal for the hearing of the appeal in the matter of the disputed ballots in the Lennox election. W. D. McPherson, counsel for Mr. Carscallen, the Conservative candidate, is confident that the result of the appeal will be in favor of his client. The ballots in dispute will afford several interesting points to be adjudicated upon.

There is one ballot paper that has a line across it at a distance of about one-third of an inch from the top, the voter having placed a cross on the top of this line. One limb of the cross intersects the line, and if that line was not there, the cross would be in Mr. Carscallen's compartment, as his name is above; but, as the line was there, the county judge was of the opinion that the cross should not be counted for either candidate, although Mr. Carscallen contended that it was for his client.

Another ballot was marked with a circle in Mr. Madole's compartment.

Dr. Thompson's Opinion. Dr. Thompson, of the Property Committee, is one of the men who think that Mr. Hughes should not be allowed to such annoyances. These friendly visits which Mr. Hughes has been paying to cities in the province are not necessary among friendly neighbors. "We cannot invite American educationists to our schools and educational gatherings," said the doctor, "unless we are prepared to allow our best speakers and give them the courtesy of a dinner. As long as our inspectors do not make a business of it for money-making purposes, and while they should not be allowed to accept invitations to go out among our neighbors and give their opinions on the subject, a by-law, restricting Mr. Hughes, who feels hurt, I cannot blame him in the least."

Continuing, Dr. Thompson suggested that the Board of Inspectors should be divided into two districts, each in charge of its own district, and management of its own district. The dual inspectorship, if worked out on the lines suggested, would be a work which should be shifted to other officers. It should not be expected that Dr. Noble, chairman of the sub-committee of \$2,500, should be used to look after the supplies. His real work is more important than that.

Believe in Mr. Hughes. Apparently, Mr. Hughes has numerous admirers among the members of the Board. These trustees feel that his resignation would be a distinct loss to the schools of Toronto, and they are anxious to do anything within reasonable bounds to continue his services. Dr. Noble, chairman of the sub-committee appointed to interview Mr. Hughes, is one of his staunchest advocates, and while he is anxious to make the inspector superior to authority on the board, he would favor allowing a latitude and freedom of action which would result in a continuance of the present state of affairs.

It is pointed out that the teachers themselves are competent to judge of the worth of their own work. In addition to the regular work of visiting the forms and marking the work of the teachers, the inspectors have other duties, such as looking after the supplies and answering the correspondence.

Wardens Norman Has Council on a Pleasure Trip to Niagara Falls To-day.

SPRING SESSION OPENED MONDAY

New Cars Will Be Put on the Metropolitan Road Within Sixty Days.

York County councillors opened their summer session at the court house yesterday, with Warden Norman in the chair. After roll call the Warden opened the council by a short address, in which he said that the people of York County had reason to be thankful for the prospects of a bumper harvest, immunity from catastrophes such as have recently cast dark portions of the world into gloom and for the cessation of hostilities in South Africa, which has been the cause of the members to accompany him on a trip to Niagara Falls this morning.

Communications were received from Mayor Howard, re county roads in the city; Hall, C. D. Warren, president of the Metropolitan Railway Co., stating that four new cars would be ready for use within 60 days, and from John Miller, deputy Minister of Education, giving the amount of grants to high schools to be: Marlham, \$1,000; West, \$1,000; Warden, \$1,000; North York, \$1,000; Richmond Hill, \$1,000; and Markham, \$1,000. A communication was received from Marlham, stating that the County Council would accept the County Council's suggestion in regard to the taxation of the property of the village of Marlham, and that the County Council, asked to accede to the village of Marlham, and accede to a part of the township. Council then adjourned until Wednesday.

East York Farmers' Institute. The East York Farmers' Institute held a very successful session at Agincourt yesterday, with Warden Norman in the chair. The session was held in the afternoon, and was attended by a large number of farmers from the surrounding district. The Warden presided, and gave a short address, in which he said that the people of York County had reason to be thankful for the prospects of a bumper harvest, immunity from catastrophes such as have recently cast dark portions of the world into gloom and for the cessation of hostilities in South Africa, which has been the cause of the members to accompany him on a trip to Niagara Falls this morning.

Markham Best Award. The Supreme Court at Ottawa yesterday dismissed the application on behalf of the town of Markham for a writ of mandamus to compel the board of directors of the Markham Waterworks to issue a warrant for the collection of rates. The board of directors had refused to issue the warrant, and the town of Markham had applied to the court for a writ of mandamus to compel them to do so. The court, however, dismissed the application, and the board of directors was allowed to stand by its refusal to issue the warrant.

East Toronto. Constable Tidbery had a lively time arresting an Abner, who was very disorderly in his conduct. When the constable tried to take him to the village lock-up he fought vigorously, and secured a hard fight. He was safely landed in the cells. Magistrate Ormerod sent him to jail for 60 days.

Unpleasant Incident. An unpleasant incident occurred at the house of George Elliott, Catherine-street, and escaped with considerable booty. The court, however, dismissed the charges against the accused, and he was allowed to go free.

Toronto Junction Council. Toronto Junction Council held a special meeting of the Town Council was held to-night to deal with the business of the day. The council was held in the presence of a large number of citizens, and was a most interesting one. The council discussed a number of important matters, and passed several resolutions. The council adjourned until next week.

D. C. Walton filed claim for damages for injury sustained by falling on a loose plank on Union-street. The claim was filed against the City of Toronto, and the council was asked to pay the damages. The council, however, refused to pay the damages, and the claimant has taken the case to court.

C. C. Robinson threatens to sue the town of Markham for damages for injury sustained by falling on a loose plank on Union-street. The claim was filed against the City of Toronto, and the council was asked to pay the damages. The council, however, refused to pay the damages, and the claimant has taken the case to court.

As a token of the Council's appreciation of the services rendered by the Mayor and the Town Solicitor, a cheque for \$100 was ordered to be forwarded to the Mayor.

Inspector Seath handed in his report at the High School Board meeting to-night, in which he reported on the work of the schools in Ontario as the action of the Board of Education. The report was a most interesting one, and was well received by the members of the board.

A resolution was passed authorizing the transfer of property owned by the town of Markham to the Board of Education. The resolution was passed by a large majority, and the property will be transferred to the board of education.

As a token of the Council's appreciation of the services rendered by the Mayor and the Town Solicitor, a cheque for \$100 was ordered to be forwarded to the Mayor.

The employees of the Copn Clark Company, Limited, will hold their annual election at Jackson's Park, Lake Simcoe, next Saturday.

A REMARKABLE CASE

Ottawa Lady Whose Symptoms Were Somewhat Unusual.

A Curious Complication of Conditions, Which, However, Yielded Very Easily to the Curative Influence of Dodd's Kidney Pills.

Ottawa, Ont., June 9.—(Special.)—A most singular case has just come to light at No. 386 Gladstone-street, this city. Mrs. J. Wm. Ross, a married lady, suffered for over three years with an ailment which proved to be a most peculiar and distinct syndrome, each very different from the other, and which she had been breaking in two, and the slightest pressure on the kidneys would cause her intense pain.

In addition to this terrific pain in her back, she was tormented beyond endurance by a never-ending headache. Meantime she was suffering from a most distressing and painful condition of the stomach, which she had been breaking in two, and the slightest pressure on the kidneys would cause her intense pain.

The ailment which proved to be a most peculiar and distinct syndrome, each very different from the other, and which she had been breaking in two, and the slightest pressure on the kidneys would cause her intense pain.

To the student of kidney diseases these symptoms have but one meaning—diseased and degenerated kidneys.

Madam Ross was at last lambed on the medicine which proved to be her deliverance from one and all of her painful and distressing conditions.

She used three boxes of Dodd's Kidney Pills, and says: "I cannot tell what words will not express it. I was so full of pain for three years, but now, with my hands and my head, and my feet, and my back, and my stomach, and my kidneys, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears, and my nose, and my mouth, and my throat, and my lungs, and my heart, and my liver, and my spleen, and my pancreas, and my gall bladder, and my stomach, and my intestines, and my bladder, and my bowels, and my nerves, and my muscles, and my bones, and my skin, and my hair, and my nails, and my teeth, and my eyes, and my ears,
