London, Aug. 1.-A telegram received from Haicheng says the Japanese attacked the Russian southern army on Friday morning. The Japanese infantry pushed from the south along the railway in the face of a heavy artillery fire. The Japanese continued to advance until 11 o'clock, when at last they were checked. Later in the day the fighting was vigorously renewed.

JAPS SURROUND PORT ARTHUR.

Chefoo, July 31.—A Japanese merchant has received word from a Chinese whom he trusts to the effect that the Japanese have occupied every position surrounding the besieged fortress of Port Arthur, with the exception of Golden Hill. The Chinese stated that both sides suffered tremendous losses in the operations necessary to bring about this state of affairs. The members of the Russian Intelligence Bureau here, while denying the report that Port Arthur has been captured, are inclined to believe that the reports are true to the extent that the Japanese have made great progress about the operations against the besieged fortress. The party of Russian refugees expected here to-day have not as yet arrived.
