**STILL AWAIT EXPLANATION**  
SHOWING THAT DIFFERENCE

Mr. Fitzpatrick Promises it Not Later Than Monday—Yesterday's Discussion Was Too Fast for Him.

Ottawa, May 11.—(Special.)—As the days lengthen the opposition to the autonomy bills now being railroaded thru parliament seems to strengthen. For half an hour prior to the dinner adjournment and for the balance of the evening it was the lintings of the opposition, and the way they scored at will made old political "fans" well versed in the science of the game think were the cause of all the trouble. It was thought that the famous clause 16 would be reached, and, in consequence, there was a well-filled house and a fair sprinkling of the galleries. Mr. Fitzpatrick, however, was not ready. He frankly admitted that fact. Here was the opening, and it was taken advantage of with avidity. When the house had finished the two hours' session on the government job, the house went into committee. Clause 6, which stood over from last night, was taken up, and, after brief but careful discussion, passed. It provided for the qualifications of voters for the election of members of the house of commons under the new act. Mr. Fitzpatrick introduced an amendment to clause 16, which was allowed to stand over, it and officers, just as if the new territory was not being established as a province.

The first breeze that betokened the coming storm occurred when Sir Wilfrid brought down the schedules, over the delay of which there has been so much discussion. Sir Wilfrid was a trifle apologetic for the delay, which he characterized as impossible to avoid. Mr. Borden pointed out that the proper way, in his opinion, would have been to have left the compiling of the schedules to the independent tribunal, also he did not pass any opinion as to the nature of such a tribunal, as the premier had not seen fit to follow that course, the opposition would be compelled to do the best they could under the circumstances in the matter of investigation. Mr. Borden warned the premier that this investigation would take time, in order that it might be thorough. Clauses 17, 18 and 19, regarding the election of public lands and the subsidies, having been discussed and carried on resolution some days previously, Mr. Fielding moved that they be incorporated in the bill. This was agreed to.

The famous clause 16 was now reached, and the storm clouds began to lower. Mr. Fitzpatrick suggested that it remain over for the time being, until all the other clauses were disposed of, and then it could be considered in connection with clause 2.

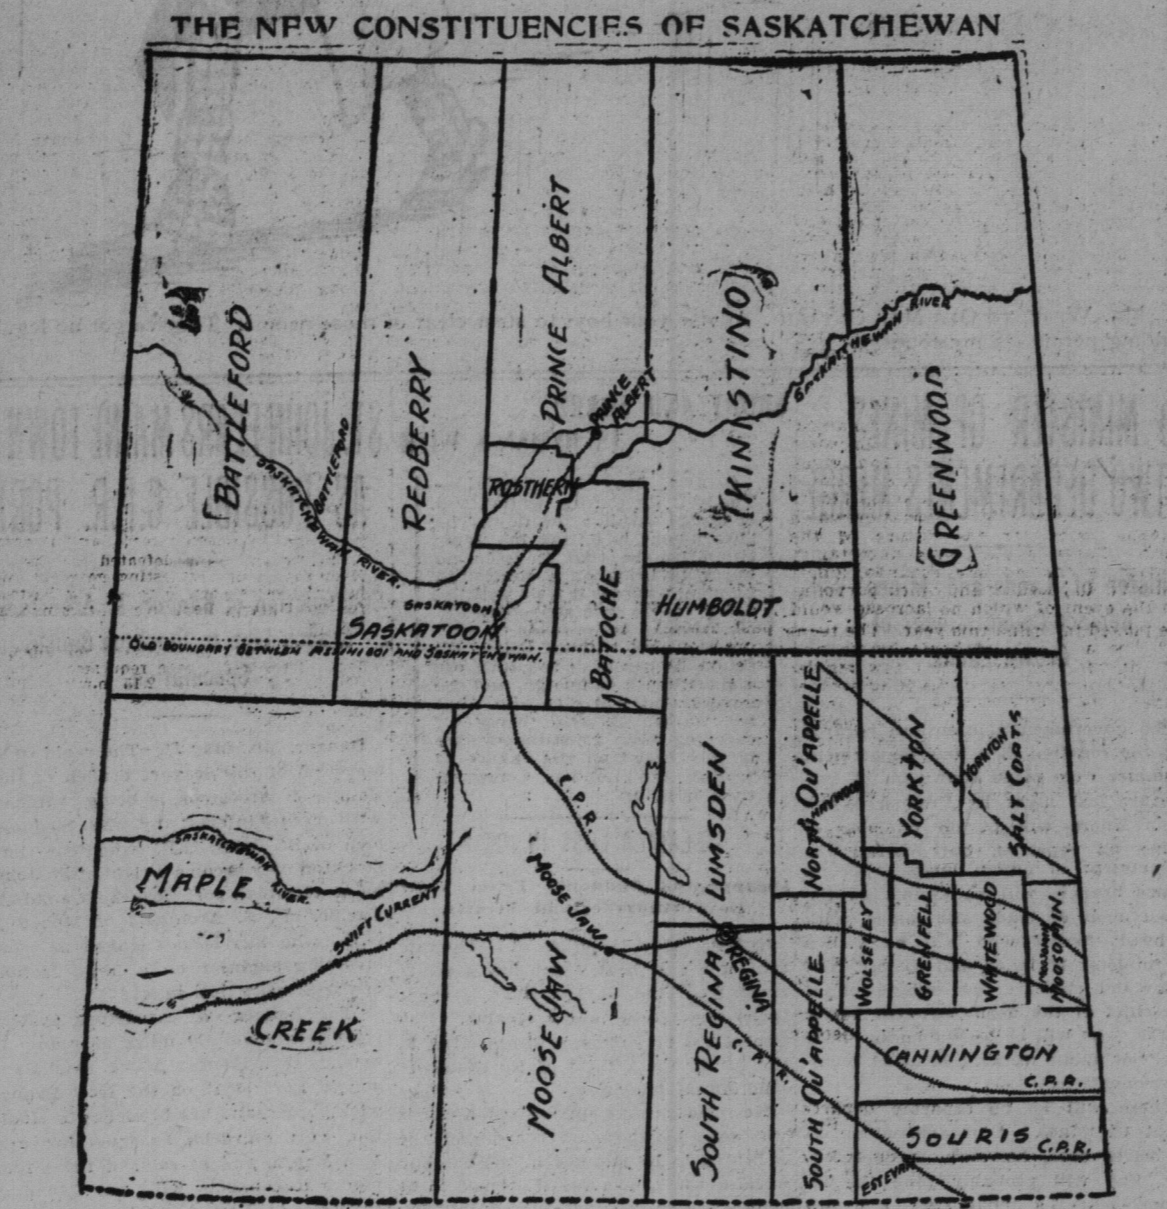

**TOOK A SEVERE COLD.**  
It Settled in The Kidneys.  
Pain In The Back The Result.

Catching cold and having it settle in the back is often the cause of Backache—the primary cause of kidney trouble. When the back aches it is a warning that the kidneys are liable to become affected. Heed the warning; to check the Backache, and dispose of any chance of further trouble.

If you don't, serious complications are very apt to arise. Mrs. E. Williams, Hamilton, Ont., caught cold, and it settled in her kidneys. She used **DOAN'S KIDNEY PILLS**, and is thankful for the immediate relief they gave her. She writes us as follows: "It is with pleasure that I add my testimony in favor of Doan's Kidney Pills. Some time ago I took a severe cold, which settled in my kidneys. The soreness and pain in the small of my back bothered me greatly. After suffering for some months, and finding numerous remedies fail, I procured a box of Doan's Kidney Pills, and received immediate relief from my sufferings.

Doan's Kidney Pills may be procured at all dealers, or will be sent direct by mail on receipt of price—50 cents per box, or 3 for \$1.25.

**THE DOAN KIDNEY PILL CO., TORONTO, ONT.**

The accompanying maps show the division of the Provinces of Alberta and Saskatchewan, as determined by the Dominion government. These divisions are, of course, provisional and will apply only to the first election held by the provinces. After that the provinces will be at liberty to change them in any way they wish. The significant thing about it is that the government has taken the unusual course of defining the limits of the constituencies in the new provinces, whereas all the other provinces were allowed to hold their first election with the constituencies as they were outlined when they came in. The object of the government's action in defining the constituencies as above represented is clear. They wish to secure the election of legislatures which will give them the least possible trouble in connection with the educational question. A glance at the maps will show that the divisions have been carved without any regard to any principle in particular. Already a strong protest has come from the Calgary district, and The Alberta, the Liberal organ, yesterday came out flatfooted, and in the course of a strong editorial, condemned the division of the constituencies and announced its intention of opposing the bill. It is pointed out that Edmonton, with less than one-half the population, is given equal representation with Calgary.

subject who will have to take back water." Sir Wilfrid sat, evidently enjoying it all, but the minister of customs and the minister of finance were looking a trifle nettled. Mr. Lancaster added a few choice thrusts directed principally to Mr. Fielding. This brought the minister to his feet, and he commenced to wade into the opposition in general and Mr. Lancaster in particular. He declared he knew what he was voting on, and he for one was not afraid to face the opinion of the people of Canada on the subject.

Mr. Fielding referred to Mr. Maclean's challenges for the government to open a constituency in the west. What had they amounted to? The government had opened a seat in the west, and the opposition had been afraid to take up the def.

A Passler. Mr. Lancaster then asked what the Liberals had voted on. Mr. Sifton had come back because the clause had been amended, and yet the minister of justice was not prepared to state the difference between the two clauses. Dr. Stockton of St. John who has made such a rapid advance in the estimation of the house as a speaker of ability and a debater far above the average, said that the Liberal members were voting to take away the rights of the west.

The chairman here pointed out that there was no motion before the house. Col. Hughes remedied the defect promptly by moving that the committee rise and report progress.

Then Stockton continued. When the difference between the amendment and the original clause was explained by Mr. Fitzpatrick he was of the opinion that many Liberal members would say, "We did not know the government was going to do that."

Lake of Qu'Appelle. R. L. Borden and Ingram of Elgin kept the ball rolling, and at 11 o'clock Frank Oliver was telling a tired how he won out in Edmonton.

On Monday. To-morrow will be devoted to the second reading of the act of the minister of justice to amend the act respecting the incorporation of live stock record association. When the stock record association Mr. Fitzpatrick announced to-night that on Monday afternoon he will make his long

deferred statement regarding the difference between the original and amended clauses regarding the educational policy.

Then Mr. Paterson took up the cry of the minister of the interior. At 1:30 the house was in the throes of personalities, chiefly indulged in by Messrs. Scott and Oliver. There were very few members present. This is one of the latest sittings of the present session. At 1:45 the house rose.

**WANT SUPERANNUATION FUND.**  
Trustees to Deal With Problem of Retiring Teachers.

The idea of superannuating some of the older members of the teaching staff was brought before the school management committee by Inspector Hughes yesterday afternoon. He thought they should be retired on a competency and expressed confidence that the Ontario government would give aid to the move. A committee of Trustees Brown, Kent and Ogden was named to deal with the matter.

Principal Embree of Harbor college appeared to advocate addition of accommodation to the college to prevent overcrowding when the fall term begins. He said there would be more pupils writing on the high school entrance examination this year than ever before. The committee suggested that Mr. Embree get members of the council to visit the schools. Mr. Embree declared that some of the text books used at the technical high school were elementary in character for the more advanced scholars, and advised that the minister of education be coffered with on the point which the committee agreed to do.

Chairman Brown thought the system of penny savings banks in the schools might in view of its success be extended to take in a number of other schools. He anticipated that in a year's time the collections would amount to \$50,000. The idea was approved.

**PERSONALS.**  
Dr. J. F. Adams of Collins street, and Dr. McDiarmid of Spadina street, will be absent for a few days attending a dental convention at Albany, New York.

John Wright and son of St. Macpherson avenue are sailing from Montreal this morning on a five weeks' trip to Scotland.

Ottawa, May 11.—The Free Press, the government organ, says to-night: "There appears to be little likelihood that A. B. Aylesworth, K.C., will enter the cabinet, at least just at present. It is understood that Mr. Aylesworth would not accept a cabinet position unless given a portfolio, and there is none to give. There have been rumors that Hon. Charles Fitzpatrick, minister of justice, contemplated resigning, and that Mr. Aylesworth would be given his portfolio. There is no truth whatever in the rumor, and members of the government, when questioned in regard to it, characterized it as 'twaddle.'"

**A SANITARY PRECAUTION.**  
(Canadian Associated Press Cable.) London, May 11.—The Morning Post thinks Mr. Pelletier right in his reply to the reputation about the Canadian cattle embargo. The colonists will, it says, fully understand the caution displayed by the minister of agriculture, and are well aware that the regulations are covered in no hostile spirit, but simply as a sanitary precaution.

**FENIAN RAID VETERANS ORGANIZE.**  
Dominion Association to Watch Their Interest at Ottawa.

Ottawa, May 11.—The delegates on the Fenian raid reputation which wait on Sir Wilfrid Laurier on Tuesday took occasion of the presence in the city of representatives from 20 many different places to form a Dominion association, with the special object of watching the interests of the veterans throughout Canada at the capital. J. H. Pitterson of Ottawa was elected president.

**WILL KEEP ON GIVING ROCKEFELLER NOT WEARY.**  
New York, May 11.—John D. Rockefeller, it is understood, will continue to be bestowed on institutions that seem to need assistance, and it will be given even more freely than in the past.

To-day Mr. Rockefeller for the first time discussed the Congregational wrangle and the Rev. Washington Gladden's opposition to the acceptance of any "hated money" for church purposes.

The oil man announced that he is considering plans to systematize his benefactions, and said the scope of his operations in that line would be increased. It is understood that his plan is similar to that adopted by Mr. Carnegie.

"I shall continue to give in my own way for any cause that appeals to me as being worthy or in need," said Mr. Rockefeller when asked as to his attitude.
