

COBALT-- Half Lot in South Lorraine Sells for \$100,000 ---COBALT

MINING MARKETS ARE FIRM BAR SILVER IS HIGHER

Market Continues on Active Side—Lower Price Shares in Good Demand—Closing Steady.

World Office, Tuesday Evening, April 27. The local mining market to-day continued to be on the active side. The bulk of the business done was between floor traders. The buyers report a fair quantity of orders from the outside public.

The main features of the day were again Temiskaming and Beaver. Temiskaming was bid up to 1.37 at one time, but closed steady at 1.36 3/4. The same buying of Beaver was in evidence the last few days. This stock was particularly active and was rushed to 19 5/8 on more than one occasion. There seems to be a concerted movement in this stock which should do much towards helping the general tone of the market.

The strongest stocks were Temiskaming and Peterson Lake. Both these issues were in excellent demand and it is thought that genuine investment buying was the reason of their strength rather than purely market speculation.

There seems a general revival in all the lower priced issues. The higher priced stocks, such as La Rose, Nipissing and Kerr Lake, were quietly, firm, transactions in these stocks taking place at higher prices when they were registered.

Bar silver showed a rise of 3-164 at London, and 3-8 at New York. Advices show that the market for the white metal is in a very satisfactory condition.

The opinion locally is for a firm market with an increase of business from now on. Taking into consideration the steadiness of silver and the favorable conditions constantly received from the mining camps, there should be no falling off in business, and the market should remain on the firm side.

Many Claims Have Been Staked in Townships of Trethewey, Corkill and Brewster.

An absorbing story of a new eldorado in the northland is told by James R. Todd, the well-known young druggist of Latchford, who arrived in the city yesterday. Some weeks ago Mr. Todd employed four pack men and shipped quietly out of town. He was looking for a place he had heard about in a new district, and decided to strike out on the strength of what information he had received.

The party rode comfortably enough along the Gowganda road until they reached Lost Lake. Then they turned directly southward, following along Calotte Creek and Calotte Lake, and still further southward into the wilderness, until they had reached the vicinity of Lost Bear Lake and Big Bear Lake, and the head waters of Lady Evelyn Creek. There is a four-mile portage from the border of Corkill Township over into Upper Beuzy Lake, and this is about the centre of the new field, including the townships of Corkill, Brewster and Trethewey.

The Darby and Whites of Maple Mountain went there last year and found silver, but having their hands full elsewhere, and thinking their secret safe, decided not to stake till later on.

Meanwhile Todd came along, then McKaskill, Hawtree, Billy Green of Cobalt, Joe Charles of the Musson Book Co., Toronto, Frank Montgomery and others, and staked up claims. White and Darby got back in time to get a few good ones. Silver has been found on the Green-Meehan claims, and on another it is reported. Mr. Todd staked out two claims in Corkill, two in Trethewey and one in Brewster.

The location is 22 miles south of the Gowganda trail.

A number of moose were encountered, including one yard in which there were nine big ones.

The formation in this new field is peculiar. It consists of strips of diabase and quartzite, alternating and running from northwest to southeast. The diabase seems to show up thru the quartzite in Corkill. In Brewster the quartzite is five miles long and above partly under Trethewey is solid diabase from Lady Evelyn Creek to Lost Bear Lake. It then dips under the quartzite, but reappears near Big Bear Lake. A lot of cobalt bloom and asbestos has been found in the veins.

Chances at Chambers-Perland. Capt. W. H. Jeffery has resigned the management of the Chambers-Perland mine, the resignation to take charge on May 1. Superintendent Jeffery is taking this step in order to look after important interests of his own in the Montreal district.

No definite statement has been made, it is understood that C. Watson, at present assistant superintendent of the Nipissing mine, will take charge of the Chambers-Perland property from that date.

Prizes For Children. PORT HOPE, April 27.—Mr. and Mrs. Bush of this town have donated \$100 to the Nipissing school children as an incentive to improvement of premises during 1909.

HARGRAVE AND LAWSON HAVE SIMILARITIES

Work Conducted on Hargrave is More For Development Than For Immediate Shipments.

COBALT, April 28.—There are no properties in the camp which have come more prominently to the eye of the critic than the famous Lawson and Hargrave. A strange thing is that both of these properties are looked upon as being as richly mineralized as any other area in this whole district, and both peculiarly were the subject of little attention almost since the camps' inception.

It is equally strange that both of the properties should be taken out of the courts at almost the same time, and that both will now be subjected to the most careful and considerate development that a property can be given.

The celebrated Hargrave consists of two 40-acre claims in what is now regarded as the best part of the camp, if only from the standpoint in depth of over values. It immediately adjoins the Kerr Lake and is in close proximity to the Crown Reserve and the Lawson.

When the Hargrave was received here from the Montreal River, which is a company of hard-headed people, who know thoroughly the intrinsic wealth of the properties.

Work was started on Jan. 7 last under the able administration of E. A. Neelands, who had spent many years in mining in the western states.

Neelands showed the correspondent over the property this morning. He is a typical example of the rugged determined miner. When asked about the equipment, Mr. Neelands said: "I am not a believer in putting in fine machinery and spending a whole lot of the company's money in this way when it is possible to accomplish what I want equally as well and for a much smaller cost."

In explaining this Mr. Neelands said: "We are at present getting our power supply for working our shaft from the Drummond, which adjoins the north part of the Hargrave. This is done by the Ontario Power Co., the Niagara Navigation Co., and the gorge trolley road and other interests down the river."

Township Scholars. Chairman Brown of the finance committee of the board of education states that township children attending the schools in the annexed district will be allowed to attend the schools as at present, but upon a fixed school assessment.

Brick Makers Strike. MATTHEWAN, N. Y., April 27.—Disorderly conduct followed the declaration today of a strike by employees of many brickyards in this section. About 15 brickyards, employing nearly 2000 men, were running fully and unaffected, and more than 1500 are out.

Receipt That Cures Weak Men—Free

Send Name and Address To-Day You Can Have It Free and Be Strong and Vigorous

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excessive, unnatural drains or the follies of youth, that has cured so many worn and nervous men that they were able to do their duty and additional help or medicine that I think every man who wishes to regain his manly power and virility quickly and quietly, should have a copy. So I have determined to send a copy of the prescription, free of charge, in a plain ordinary sealed envelope, to any man who will write me for it.

The prescription comes from a physician who has made a special study of manhood, and I am convinced it is the best and most effective remedy ever devised, and so, cure himself at home quickly and quietly. Just drop me a line like this: Dr. A. E. Robinson, 321 Luck Building, Detroit, Mich., and I will send you a copy of the splendid receipt, in a plain ordinary sealed envelope, free of charge.

Prizes For Children. PORT HOPE, April 27.—Mr. and Mrs. Bush of this town have donated \$100 to the Nipissing school children as an incentive to improvement of premises during 1909.

BARR'S DAILY MARKET LETTER. Toronto, April 27th.

We had a much broader market to-day and the stocks we have advised as speculative purchases had respectable advances. Much of to-day's business was purely professional, but this showed clearly that those closest in touch with the markets are of the opinion that prices are more liable to advance than to decline. We must adhere to our opinion that some of the lower-priced issues and the best high-priced stocks are entitled and will see further advances.

BUY BEAVER: WHY?

1—Did you see the sample of Ore expressed from mine to head office here yesterday?

2—Beaver Co. believe they have the Temiskaming vein, and are sinking a diamond drill an extra fifty feet to get to the level of the Tem. workings.

3—The Company look for results any time.

4—If this is so don't you think 50c. a share is cheap for this stock?

McILWAIN & ARMSTRONG, Ltd. Tel. 2154 Main. - 39 and 41 Scott Street.

We advise the purchase of the low priced Cobalt stocks. The market shows definite strength and we expect higher prices all round.
