**LORETTA ABBEY**  
**BUYS \$55,000**  
**PROPERTY**

Twenty Acres for College Pur-  
poses on Eglinton Avenue  
Disposed of at Re-  
cord Price for  
Farm Land.

Fifty thousand dollars, the highest  
price ever paid for North Toronto farm  
property was given yesterday by So-  
litor Kelly, acting for Loretta Abbey,  
for the purchase from C. W. Chadwick  
of 20 acres on the north side of Eglinton-  
avenue, running northerly to with-  
in a short distance of Kensington-ave-  
nue.

The property is ideally situated for  
college purposes, sloping gently to the  
south, at an altitude above Lake On-  
tario of 400 feet and commands a mag-  
nificent view of the city and surround-  
ing country.

It is the intention of the college au-  
thorities immediately at the close of the  
necessary legal formalities to erect a  
building on the property, which will be  
an ornament, not alone to the district,  
but to the country at large.

The property is ideally situated for  
college purposes, sloping gently to the  
south, at an altitude above Lake On-  
tario of 400 feet and commands a mag-  
nificent view of the city and surround-  
ing country.

Within the last four weeks, Mr.  
Chadwick acquired a controlling in-  
terest in the whole 60 acres at a figure  
said to be below \$1000 an acre, and  
at the time of the sale to Loretta A-  
bbey he held 70 per cent. of the stock. The  
other stockholders were well-known  
business men, but they lacked the con-  
fidence in north end values, which has  
imply justified Mr. Chadwick's opti-  
mism.

Yesterday's sale for \$55,000 of one-  
third of a block of 60 acres which three  
years ago sold for \$18,000, is a pretty  
substantial gain.

The remaining forty acres is held by  
Mr. Chadwick, associated with whom  
are William T. Rogers, who owns 25  
per cent., and George A. Weston, who  
owns 5 per cent. of the capital  
stock. It is said the present members  
of the company have no intention of  
forcing the sale of the balance of the  
property.

**NEW PHASE OF OIL WAR**  
Independents to Have a Fleet of Oil  
Carriers on Lakes.

DETROIT, Mich., Aug. 13.—(Special.)—  
Open warfare upon the Standard Oil  
Company and its allies has just been  
declared by the Independent Oil Com-  
pany.

For years the big company has ex-  
ercised an absolute monopoly in the oil  
trade on the great lakes, but now it is  
proposed to make a fight, through the  
medium of a thoroughly equipped fleet of  
oil tankers, which will ply directly in the  
path of the Standard Oil Company.

The Petrol Traffic Company of To-  
ledo, Ohio, which holds a Minnesota  
charter, will be the name of the new  
company and already they have pur-  
chased the tank steamer Foster W.  
Mitchell, which has an oil capacity of  
220,000 gallons.

Not only is it the intention to invade  
the present field of the Standard Oil  
Company, but new territory, including  
Canada, will be exploited and several  
big tank stations along the chain of  
lakes will be erected.

The promoters confidently believe  
that the new organization will also  
force rate concessions from the rail-  
roads.

**A RACE FOR A COPYRIGHT**  
Melodramatic Performance of Savage's  
New Comic Opera.

MONTREAL, Aug. 13.—(Special.)—A  
good deal of interest was manifested here  
today by the fact that Henry Savage,  
who recently bought the copyright of  
the play called "The Love Cure," put  
this piece on the boards here and played  
it, as it was learned that others had  
designed on the copyright.

It was stipulated that it must be  
played once in the Empire, so Savage  
sent a representative here, got a scratch  
company together and won a victory  
over all competitors.

**N. Z. Women Will**  
**Soon Outvote Men**

Within 25 Years Suffragettes Will  
Rule—Less Domesticity is Al-  
ready Apparent.

LONDON, Aug. 13.—The Times' Wel-  
lington correspondent cables to-day  
statistics indicative that within twenty-  
five years the majority of the voters in  
New Zealand will be women. In 17  
electorates the women already enrolled  
outnumber the men.

The women were less inclined to make  
home their only sphere, and their sym-  
pathies and activities were widening.  
He is of the opinion that when the  
reform of the liquor trade, for which  
had been achieved, their zeal would be  
diverted toward securing other social and  
political reforms.

Generally, he thought, their influence  
would be for good.

**"BADDECK NO. 1" TUMBLES**  
**IS SERIOUSLY DAMAGED**

Engine Too Far Behind, Says  
McCurdy, Who Was in the  
15 Foot Fall.

PETAUAWA CAMP, Ont., Aug. 13.—  
(Special.)—The Canadian aerodrome  
"Baddeck No. 1" was put temporarily  
out of commission in an attempt  
made shortly after seven o'clock this  
evening.

She was rising gracefully in the air  
when she suddenly fell back, smash-  
ing the rudder and undercarriage, and  
leaving the centre frame work.  
Jack McCurdy was uninjured. The  
engine was again undamaged.

"Baddeck No. 1" was apparently in  
ship shape when she started on her  
trip, although McCurdy thought al-  
ong that the engine was placed too  
far to the rear.

The weather conditions were perfect  
when McCurdy mounted the  
drome about 7.15. With a terrific buzz  
the machine sped swiftly along for  
200 yards, when McCurdy made a  
sharp turn to the right, and the  
engine was shot up into the air.

**FLYER DERAILED T. N. O. PROFITS**  
**OUTSIDE CITY**  
**LIMITS**

Engine on Main Track, While  
Tender and Cars Take  
Siding—Second  
Wreck at Don  
Diamond.

An unlocked switch caused the de-  
railment of the Grand Trunk flyer  
from Sarnia tunnel a few hundred  
yards north of St. Clair-avenue cross-  
ing at 2.20 last evening. Fortunately  
no one was hurt.

The accident happened just before  
dark. The train, which consisted of  
engine 1005, tender, two baggage cars,  
five passenger coaches and one Pull-  
man, was running about twenty miles  
an hour, and when the locomotive  
passed the switch, the lever  
sprang, sending the engine down the  
main line and the tender and cars  
onto the siding. Both engine and  
tender were wrecked on the siding,  
but the coaches remained on the sid-  
ing uninjured. Engineer Dan Liddell  
immediately applied the emergency  
brakes and stopped the train in a short  
distance, but not before two hundred  
feet of roadbed had been cut to pieces.

The heavy eighty-five pound rails were  
twisted like so much wire.  
As far as could be learned last night,  
the switch had not been locked by the  
man in charge of an outgoing freight.  
The lever was merely depressed, and was re-  
leased as soon as the weight of a passing  
train came upon the mechanism. It  
did not happen fifty yards further  
north, where there is a steep embank-  
ment, or that the train had not been  
moving at a greater speed. As it  
was the trucks of the engine and ten-  
der were buried in sand.

Almost at the same time that Grand  
Trunk express No. 2 from Toronto  
into an open switch at West Toronto  
about 8 o'clock last night, five cars at-  
tached to the Grand Trunk  
engine jumped the rails at the Don  
diamond and piled up across the tracks  
blocking the G.T., C.P. and C.N.R.  
lines. The engine was shunting the  
cars ahead of it down the belt line  
when the city when the leading  
truck failed to take the point of a  
cross-track with the result that two  
loaded brick cars, and the empty coal  
car, were shoved along the roadbed for  
about 100 feet and entirely wrecked  
from their trucks. The upper parts of  
the cars were badly damaged. An-  
other car loaded with lumber and a  
fifth loaded with bricks were but  
slightly damaged.

After fixing matters up at West Tor-  
onto, the wrecking crew went out to  
the Don and it is expected that the  
damaged cars will be out of the way  
sometime this morning.

The smashup at the Don completely  
blocked traffic in all lines from the  
east. The C. P. No. 6 to Montreal  
leaving the Union Station at 10 o'clock  
was sent around thru St. Catharines  
and returned to the city and G. T. R.  
train arriving about 8 o'clock was  
obliged to discharge her passengers at  
Queen-street.

Owing to the run-off at West Tor-  
onto, Grand Trunk trains from the  
west had to be switched to the G. T.  
line as far as Weston, where she  
switched to the G. T. tracks again.

**T. N. O. PROFITS**  
**DOUBLE IN JUNE**

Net Earnings \$77,475, and, for  
Six Months, \$377,529—  
"Most Gratifying,"  
Says Treasurer.

Temiskaming and Northern Ontario  
Railway earnings continue to mount  
upward. The report for June shows a  
remarkably good state of affairs.  
The gross revenue from operation for  
the month was \$181,850. The expenses  
were \$78,648, leaving a net revenue from  
operation of \$103,202.

The amount received from royalties  
was \$19,273, making the total net re-  
ceipts \$77,475, as compared with \$30,-  
273 for June, 1908.  
For the six months ended June 30,  
the net revenue from operation was  
\$308,174, and from royalties \$68,-  
355, making a total of \$377,529, compar-  
ed with \$55,103 for the same period last  
year.

"This return," said Hon. A. J. Meth-  
erson, provincial secretary, yesterday,  
"is most gratifying both to the govern-  
ment and to the commission. I am in  
hopes that we will have enough surplus  
revenue to pay the amount required  
for interest and sinking fund on the  
whole cost of the road."

**SIR SANDFORD FLEMING**  
**CEMENT MERGER HEAD**

Will Probably Be President of the  
Twenty-Million Dollar Mer-  
ger Company.

MONTREAL, Aug. 13.—(Special.)—  
The proposed Canadian cement  
merger, which was somewhat retarded  
over the alleged unwillingness of reser-  
val companies to form a part of the  
combine.

It is stated, however, officially to-  
night that twelve companies, or prac-  
tically the whole number in this coun-  
try, have consented to throw in their  
lot with the company.

All the details have not been arrived  
from the companies, but the amount of  
capital, but it is said that \$20,000,000  
will be quite near the mark.  
Although the executive has only been  
formed, Sir Sandford Fleming is to be the president  
of the merger and Senator Edwards  
the vice-president, while Senator Mc-  
Cormack is a good third in the board.

**WHERE UNCLE TOM WAS SOLD**  
Historic Courthouse in Kentucky  
Struck by Lightning.

LEXINGTON, Ky., Aug. 13.—The  
court house at Washington, Mason  
County, in which Uncle Tom of  
"Uncle Tom's Cabin" fame, was  
sold, was struck by lightning and de-  
stroyed to-day. The building was  
erected in 1794.

It was the sale of the aged negro at  
this place that gave Harriet Beecher  
Stowe the basis of her story.

**PROBE INTO FIRE**  
**LIKELY TO BE**  
**THORO**

Coroner Orr Proposes To Ascer-  
tain If City Has Done Its  
Duty in Providing Pro-  
tection for Island  
Patrons.

Somebody, apparently, has got to be  
censured for the Hanlan's Point fire.  
If the remarks of Coroner R. B. Orr to  
the jurors, at the inquest into the  
death of Miss Clara Andrews, bear  
any significance.

After eight witnesses had been ex-  
amined, and Dr. Orr had announced  
that an adjournment would be neces-  
sary, Foreman John H. Nuttall rose,  
and protested: "Mr. Coroner, I don't  
see the need of dragging this enquiry  
out. We have heard enough to form  
an opinion as to the cause of this girl's  
death, and I don't see why the jury-  
men should be made to spend more  
time on this case."

"But," said the coroner, "you will  
understand that you are to enquire  
into the cause of the fire in addition  
to the cause of death. It will be neces-  
sary to find out if the city has done  
its duty in providing protection for the  
thousands of people who were wont to  
go over to the Point every day, or  
whether the Ferry Company has done  
as yet as to the city's supply of water  
and we must get this before our en-  
quiry is complete. We will adjourn  
until Tuesday, Aug. 15th, at 10 o'clock."

The evidence last night elicited the  
opinions from the only fireman on  
Hanlan's Point, and the island com-  
missioner, Sam Stevenson, that if the  
same water pressure as is afforded on  
the city side, were provided on the is-  
land, the fire could have been con-  
fined to the Gem Theatre, and a por-  
tion of the "Figure 8."

Tom MacGregor, the island fireman,  
said he was right at the scene when  
the fire broke out, and immediately  
coupled a 2-inch hose which he  
handed over to two fellows, while he  
ran to a second hydrant to assist. Two  
firemen, who happened to be at the  
Point, in coupling up a second line  
of hose. The pressure, he said, start-  
ed out good; but within five minutes  
diminished to a mere dribble. He  
learned afterwards that this was be-  
cause the residents all along the is-  
land, and the Lakeside Hospital had  
sternly to the residents to turn off  
the main to the property leased by the To-  
ronto Ferry Co. was only a 4-inch  
whilst the other portions of the is-  
land had a 6-inch main. There were  
nine of the 2-inch hydrants on the  
burnt area, but they would have been  
useless if all had been brought to play.

Tried to Save Girl.  
P.C. Lundy, who attempted to save  
the girl's life, was the first witness.  
He said he passed the Gem Theatre,  
and a minute afterward, heard the  
alarm of fire. Daring back he found  
Continued on Page 7.

**Troops of Colonies**  
**Are to Be Trained**  
**As Home Regulars**

HON. MR. HALDANE  
Great Britain's Secretary for War

**BERESFORD DIDN'T PROVE**  
**ADMIRALTY NEGLIGENCE**

But Investigation Committee Cen-  
sures the Admiral and the Board  
for Inharmonious Relations.

LONDON, Aug. 13.—The imperial  
defense committee's sub-committee  
which was appointed to investigate the  
recent criticisms made by Admiral  
Lord Charles Beresford of the state of  
the navy, has issued its report, which  
is signed by Premier Asquith, Lord  
of the Admiralty, the secretary of the col-  
onies, Viscount Morley, secretary for In-  
dia, Sir Edward Grey, secretary for  
foreign affairs, and Richard Burdon  
Haldane, secretary for war.

The report practically exonerates the  
admiralty from Admiral Beresford's  
charges of having endangered the  
country by the unwise organization  
and distribution of the fleet, and hav-  
ing too few cruisers and small craft  
and inefficient war plans, but it finds  
that both the admiralty and Admiral  
Beresford are blameable for inhar-  
monious co-operation.

**KILLED IN GRAVEL PIT**  
Two Huntsville Laborers Meet With  
Sudden Death.

HUNTSVILLE, Aug. 13.—(Special.)—  
Caught under a mass of falling gravel  
in the pit, two men were killed to-  
day. James Hughes and John Beswick met  
death sometime this afternoon.

When they had not returned to town  
by seven o'clock to-night, a search  
party, fearing an accident, organized  
and hurried to the pit, two miles dis-  
tant.

Beswick was found under nine  
inches of gravel and Hughes under  
about fifteen inches. The mass had  
fallen several feet and the men would  
not have been able to extricate them-  
selves. Hughes leaves a widow and three  
children.

**SAVES SISTER'S LIFE**  
Eleven-Year-Old Girl Pluckily  
Plunges into River.

MORRISBURG, Aug. 13.—While some  
little girls were bathing in the St.  
Lawrence River, near the town of  
Morrisburg, the daughter of the editor of  
The St. Lawrence News, stepped into  
a deep hole, with a treacherous under-  
current.

She was swept off her feet in a mo-  
ment and was being carried out into  
the main current when her young sis-  
ter, Norma, 11 years of age, standing on  
the bank, without a moment's hesita-  
tion, rushed into the river with her  
clothes and shoes on, and wading out  
nearly to her neck, succeeded in reach-  
ing her older sister, and with diffi-  
culty pulled her into shallow water,  
thus saving her life.

**SCHOONER ST. JOSEPH SUNK**  
Gets Worst of It in Collision With Ore  
Carrier.

AMHERSTBURG, Aug. 13.—The oc-  
curring steamer Rochester, under  
command of Capt. J. H. Peltz, colli-  
sioned with the schooner St. Joseph,  
bound bound, light, this after-  
noon, near Ballard's Reef, at the  
mouth of the St. Lawrence.

The Rochester proceeded on its way  
up, and the schooner was towed near  
the American shore, above the dam  
where she sank badly damaged.

**Scheme Arranged for Military**  
**Defence of the Empire—**  
**Training Colleges in**  
**All the Dominions.**

**GEN. FRENCH WILL WORK**  
**OUT PLANS IN CANADA**

LONDON, Aug. 13.—One great hom-  
ogeneous Imperial British army, uni-  
formly trained and equipped, is to be  
the outcome of the Imperial conference  
on the naval and military defences of  
the empire held at the foreign office  
the latter part of July.

In general terms, the plan provides  
that all troops of self-governing col-  
onies shall undergo precisely the same  
training as the home regulars in or-  
der to be ready to take their places  
beside the latter whenever and where-  
ever necessity may arise.

Military training colleges along the  
lines of the staff college at Camberly  
are to be established in the overseas  
dominions, and there is to be a con-  
tinuous interchange of officers from all  
parts of the empire so as to insure ab-  
solute uniformity of organization and  
training.

The Canadian Associated Press un-  
derstands that the results of the mil-  
itary defence discussions of the Im-  
perial conference are regarded with the  
highest satisfaction by the Imperial  
council. There are certain questions  
of detail, which it is expedient to  
withhold from the general knowledge,  
but the main result of the military  
side of the conference is a complete  
acquiescence by the overseas dele-  
gates in the government's proposals,  
the plans of which provide for the com-  
plete interchangeability of forces.

In a recent speech outlining the prob-  
able strength of the empire, the War  
Secretary Haldane estimated that  
the United Kingdom, Canada,  
Australia, New Zealand and South  
Africa together furnish a total of six di-  
visions. This is equivalent to twenty-  
three army corps, which is the strength  
of the German army.

**Gen. French for Canada**  
**Kitchener for Australia**

BRADFORD, Eng., Aug. 13.—In a  
speech here to-night Secretary for War  
Haldane expressed the greatest satis-  
faction that the Imperial conference  
on the naval and military defences of  
the empire had arrived at an agree-  
ment.

He announced that while Lord Kit-  
chener, the newly-appointed inspector-  
general of the Mediterranean forces,  
was in Australia, Lord Gen. Sir John  
French, commander of the first army  
corps, was going to Canada to work  
out the details of the plan there.

Lieut.-Gen. Sir John Denton French  
was one of the few brilliant command-  
ers in the South African war, and his  
name, thru his exploits in that cam-  
paign, is well known to Canadians. He  
will not be 57 years of age until Sept.  
28 next, but his distinctions are many—  
K.C.M.G., created 1902; K.C.B., created  
1900; G. C. V. O., created in 1905; D.C.L.,  
Hon. Oxon.; LL.D., Cantab; general  
officer, commander-in-chief of the first  
division, 1890-4; commanding the 1st  
corps since 1901.

The son of a captain in the royal  
navy, he himself served as a naval  
cadet and midshipman for four years.  
In 1874, however, he entered the Eighth  
Hussars, was transferred to the 19th  
Hussars and served in that regiment  
in the Sudan campaign of 1898, com-  
manding the cavalry division in the  
battles of Beitfortein and Lom-  
bard's Kop; was lieutenant-general  
commanding the cavalry division in  
South Africa 1900-2 (despatches promot-  
ed to major-general); commanded the  
troops in several important engage-  
ments around Colberg and command-  
ed the cavalry force in the operations  
culminating in the relief of Kimberley,  
and the cavalry division under Lord  
Roberts during the capture of Bloem-  
fontein and Pretoria. Commanding the  
left wing of Lord Roberts' forces east  
of Pretoria, in the engagements of  
June 10 and 12, 1900, he was eight times  
mentioned in despatches, and com-  
manded the forces that captured Bar-  
berton, and the force in Eastern Trans-  
vaal in the spring of 1901, and directed  
the operations against the rebels in  
Cape Colony up to the end of the war.

**The Big Hat Day.**  
Saturday is always the big hat day  
with the Dinesen, but this particular day  
will be larger than any other yet  
thought of, for there has just arrived  
a superb assortment of beautiful hats  
direct from New York. They  
were purchased at a great reduction—  
are all new—Panamas, Sailor Hats and  
Soft Felts. Store open Saturday night.  
Purchase to-day. Every hat exclu-  
sive in style and finish.
