LT.-COL NASMITH ILLLS OF THE ARMY'S HEALTH

"The British army in France today is the healthiest in the world." This statement was made by Lt.-Col. G. G. Nasmith during the course of an interesting address at the Business Men's Club last evening in the Central Value of the Pritish Army tral Y.M.C.A. "How the British Army is Kept Well," was the subject of his address, and he pointed out the reasons why the great army of Britain is in such a perfect condition. The three most important are the purification of the water, the elimination of milk, and the greatest of all, inoculation. The speaker outlined the uses of the field laboratories, of which there are now twenty-five, this being the first war in which these have been "Britain started well and has kep

it up," he said. "And today her army has no epidemic whatever. The greatest thing is to keep the physical fitness of the men up, and this is done by seeing that they are well fed." In connection with the purification of the water he stated that at Armentieres there is a system of pipes laid that stretches five miles back, with several standpipes erected; and the water, which is chlorinated, is pumped from barges in the river, even under shell fire. The medical system is such that the men are constantly being combed out, so as to seek out the "carriers" of disease, and directly one of these carriers is found he is immediately placed under observation.

POLITICS ATTRACT MIMICO'S WOMEN

Large Number Present at Splendid Conservative Rally Held Last Night.

"They say I have my ear to the ground, and maybe I have, but I want to say that the government of which I happen to be a member has always striven, to give legislation abreast of the times and in accordance with the progressive age in which we live," said Hon. I. B. Lucas, attorney-general, addressing a great rally of Conservatives in Herrison's Hall, in Mimico, last night. It was the first occasion on which the women of Mimico had met in political matters on terms of equality with the men, and from first to last the large number present manifested the keenest interest in the discussion of public affairs, in which the attorney-general and the member for West York were the central figures.

The chair was occupied by Frank F. Reeves of Humber Bay, president of the association, and associated with him were Hon. Mr. Lucas, Dr. Forbes Godfrey, Sam Wright, Reeve John Harrison of Mimico and others. The hall was crowded to the doors, and, while the gathering was essentially political in its nature there was much of the second late. egislation abreast of the times and in

Discussed Quebec's Shirkers.

Dr. Forbes Godfrey, M.L.A., who was accorded a rousing reception, dealt lightly with political matters, but paid his respects to the Province of Quebec, the shirkers of which, the said, must not be allowed to gain control of the Dominion Parliament thru the absence of loyal men at the front. He cited the fact that scores of able-bodied French-Canadians were being employed in New Toronto.

"There is supposed to be a truce in political matters during the war, but in all my experience in political life I have never seen such bitterness as is now manifest." declared Hon. I. B. Lucas. He cited the contests in West Bruce, North Perth and Northwest Toronto as evidence of this, and said that, no matter what advanced legislation the Conservative Government in Queen's Park brought down, Mr. Rowell was apparently ready to go them one better. "We enfranchised the women, and hardly had the motion been accepted than the opposition leader comes along with a proposal to give them a seat in the legislature," declared the attorney-general, "altho no request had ever been made by any body of women." He reviewed the history of the Conservative party, and instanced the passage of the Temperance Act, the workmen's compensation bill, the cancellation of the Liberal plan to give away the Niagara water power to private interests, and the enfranchisement of women, as That the King Edward Hotel will remain open for at least another year was the declaration attributed to W. ronto Hotel Co., yesterday, He said that the owners of the building, his The hotel staff exceeds the average guest list by about 125 persons, and 1000 meals are served to employes daily, it is said.
